# Chapter 1

## Introduction

The Judicial Branch Statistical Information System (JBSIS) is a statistical reporting system that defines and electronically collects summary information from court case management systems for each major case processing area of the court. These data are then made available via the JBSIS data warehouse located on Serranus (secured judicial branch Web site) to all judicial branch employees.

JBSIS directly supports the technology goals of the Judicial Council's strategic plan, providing information for Judicial branch policy and budgetary decisions, management reports for court administrators, and the Judicial Council's legislative mandate to report on the business of the courts. Specific authorization for JBSIS is found in California Rules of Court, rule 10.400: "Consistent with article VI, section 6 of the California Constitution and Government Code section 68505, the Judicial Branch Statistical Information System (JBSIS) is established by the Judicial Council to provide accurate, consistent, and timely information for the judicial branch, the Legislature, and other state agencies that require information from the courts to fulfill their mandates. Each trial court must collect and report to the Judicial Council information according to its capability and level of automation as prescribed by the JBSIS Manual adopted by the Judicial Council..."

### Purpose and Organization of JBSIS Implementation Manual

The JBSIS Implementation Manual is designed to address the entire JBSIS implementation process. Version 2.3 has been developed to update references to state statutes, California Rules of Court, Standards of Judicial Administration, and Judicial Council forms in the previous version. Version 2.3 also incorporates trial court questions and answers to clarify the existing standards.

In addition, the case types and data elements reported to JBSIS from the JBSIS Web Portal (previously reported via the manual E-Forms) are included in this manual. Additional case types (columns) have been added to the data definitions and matrixes to allow Portal data to be reported separately from the JBSIS case types. The association between the Portal and the JBSIS data elements and definitions is indicated by row in the in the data element definitions document. The web portal standards were added to the JBSIS v2.3 manual so that portal reporting courts can refer to v2.3 for reference. The purpose of the consolidation is not only to provide a one point source for all courts regardless of their reporting standards (JBSIS vs. Portal), but to enable courts to compare and contrast to see where their data stand when comparing to courts reporting on the basis of different reporting standards. In addition, v2.3 provides a better description on how data entered via JBSIS or the Portal will appear in the JBSIS data warehouse.

Following this introductory chapter, the JBSIS Implementation Manual version 2.3 is organized into two distinct sections:

- Data definition requirements, containing an overview of the JBSIS reports and individual chapters on the data standards for each (Chapters 3 through 13); and
- Technical requirements, containing details on JBSIS report file layouts, formats and transmission methods (Appendices A through F).

The JBSIS Web site is the primary and most current resource for JBSIS implementation. It contains the complete JBSIS Manual, information on the compliance testing process, JBSIS staff contact information, and additional reference material.

The JBSIS Web site is accessed from the home page on Serranus under the link for 'Court Technology' (<http://serranus.courtinfo.ca.gov>) or directly at <http://jbsis.courtinfo.ca.gov>. Serranus, the secured Web site for the California judicial branch, is not available to the public and can only be accessed with a login ID and password. You can request an ID and password online from the secure AOC Internet logon (SAIL)

screen that displays when access either the Serranus or JBSIS links above. Click on 'Apply for new account' under 'New User'.

## Chapter 2 JBSIS Requirements

This chapter outlines the basic requirements for JBSIS.

1. **Required Reports** JBSIS Version 2.3 reporting is required only for courts that can generate the JBSIS reports in an automated fashion from case level data entered into their case management system (CMS). While the goal is full JBSIS Version 2.3 compliance, not all courts will be able to convert to JBSIS reporting in one step. In the interim, courts may submit some reports via JBSIS Version 2.3, while continuing to submit data using JBSIS E-Forms for case types that they have not yet transitioned.

JBSIS consists of multiple reports covering the following ten areas of law:

- Appeals
- Civil
- Family Law
- Felony
- Juvenile Delinquency
- Juvenile Dependency
- Mental Health
- Misdemeanor/Infraction
- Probate
- Small Claims

Information explaining the overall organization of the JBSIS reports is provided in Chapter 3 – Overview of Report Chapters. Information on each of the reports listed above is presented in the individual report chapters of this manual (see Chapters 4 – 13). Each report chapter includes a Data Matrix and Data Element Definitions that provide information on the data standards for the report.

2. **Reporting Period** The reporting period for all JBSIS reports is one month, beginning the first day of the calendar month and continuing through the last day of the calendar month. Reports include all case-related activity (filings, dispositions, events, etc.) that takes place during the reporting month.

3. **Report Due Dates** All JBSIS reports are due 30 days after the close of the reporting period. For example, the due date for data captured in the reporting period from July 1st, 2009 through July 31st, 2009 is August 30th, 2009.

4. **Required Data Elements** The courts are required to submit data for each case type specified on the JBSIS reports. Each individual report chapter includes a Record Layout table that specifies which data elements from that report are mandatory and non-mandatory. In addition, Appendix B – JBSIS Data Rules provides more details on the rules governing the reporting of JBSIS data elements.

5. **Compliance Testing** Compliance Testing is required of all Courts that are ready to begin JBSIS reporting. Courts that are ready migrate to JBSIS and start the implementation process should refer to Appendix A for information on migrating to JBSIS and Appendix D for information on Compliance Testing.

6. **Technical Requirements** Information on the JBSIS technical requirements is provided in the JBSIS Technical Standards section of this manual in Appendices A through F.

## Chapter 3

### Overview of JBSIS Reports

JBSIS data standards and reports comprise 12 reports spanning 10 case types:

- Appeals, Reports 4a, Appellate Court, and 4b, Appellate Division;
- Civil, Reports 5a, Civil Limited, and 5b, Civil Unlimited;
- Family Law, Report 6a;
- Felonies, Report 7c;
- Juvenile Delinquency, Report 8a;
- Juvenile Dependency, Report 9a;
- Mental Health, Report 10a;
- Misdemeanors and Infractions, Report 11a;
- Probate, Report 12a; and
- Small Claims, Report 13a.

The individual reports, located in chapters 4 through 13, are structured identically and contain the following sections: (1) Data element definitions; (2) Data matrix(es); and (3) record layouts..

(1) **Data Element Definitions** Each Individual Report Chapter includes a Data Element Definitions section. This section is organized and cross-referenced to the reporting matrix and the record layout sequence number. In addition, each data item is notated as to which case types it applies to. While some data items may be defined identically across all reports, most are customized to the specific report type and area of court operations. By providing this level of detail, courts should be better able to map their operational data to JBSIS reporting categories.

(2) **Data Matrix** The data matrix provides a visual display of the required data elements for each report type. The common features of the JBSIS report data matrices are (a) report name; (b) case types (*columns*); (c) data sections, subsections and headings; (d) data items (*rows*); and (e) data elements (*cells*).

(a) **Report Name** The name and number of each JBSIS report is in the upper left corner.

(b) **Case Types** Case types are reflected as column headings on the data matrix. The method of determining the case type for a particular case filing varies by report type and is defined in the individual JBSIS report chapter. The chart below provides a summary of how cases are classified for each report type.

JBSIS report	Method for classifying case type
<b>Civil</b>	
Civil Limited (5a) and Unlimited (5b)	Civil Case Cover Sheet, CM-010
Family Law (6a)	Judicial Council Forms
Probate (12a)	Judicial Council Forms
Small Claims (13a)	n/a
<b>Felony</b>	
Felony (7c)	Most severe charge as determined by DOJ hierarchy
Misdemeanor/Infraction (11a)	Most severe charge as determined by DOJ hierarchy
<b>Juvenile</b>	
Delinquency (8a)	Judicial Council Forms
Dependency (9a)	Judicial Council Forms

JBSIS report	Method for classifying case type
<b>Other</b>	
Appellate Court Appeals (4a)	Dependant on type of appeal
Appellate Division Appeals (4b)	Dependant on type of appeal
Mental Health (10a)	Welfare & Institutions Code; Penal Code

An additional case type, “Pre-JBSIS” (case type 00), appears on the following reports: Appellate Division Appeals (4b) Civil Limited (5a), Civil Unlimited (5b), Family Law (6a), Mental Health (10a), and Probate (12a). The purpose of this case type is to permit a court to report pending cases entered in their case management system prior to JBSIS implementation when the specific case type category is unknown. Usually, when the case is scheduled for an event, the JBSIS case type is determined and the count subtracted from the pre-JBSIS column and added to the new case type column. This action can be tracked by using the optional Classification of Pre-JBSIS Case (see Data Element Definitions for each report type). Cases filed after JBSIS implementation cannot be reported as Pre-JBSIS.

- (c) **Data sections, subsections, and headings** Sections, subsections, and headings are labels to provide definition and organization to the Data Matrix. They are not reportable, nor are they calculated as totals by the system. They are indicated by shading on the both the Data Matrix and the Data Element Definitions. Subsections and headings vary by report type. Each Individual Report Chapter Data Matrix and Data Element Definition should be consulted for detailed information. Each section and selected subsections are defined below:

1. **Caseload/Caseflow** The types of cases processed during a specified period of time and the method of disposition. The following subsections are found in all or most reports:

- a. **Inventory** An accounting of the cases processed in a reporting period. The court reports the number of pending cases at the beginning of a reporting period, adds the cases filed, restored to court’s control, or reopened during the reporting period, and then subtracts the total dispositions and cases removed from court’s control that occurred in the reporting period. The number of cases remaining ideally becomes the pending cases at the beginning of the next reporting period.<sup>1</sup>
- b. **Case Aging** Most JBSIS reports contain a Case Aging subsection, which requires data concerning the age of pending cases, the age of cases at final disposition, or the age of cases under court supervision. Case aging data have been collected from the courts for criminal and most types of civil cases for more than a decade. JBSIS introduced aging for Juvenile Delinquency, Juvenile Dependency, and Probate cases under the supervision of the court. Case aging does not apply to Family Law, Appellate Court Appeals, or Appellate Division Appeals cases.

Case aging time intervals vary among the reports; please refer to the Individual JBSIS Reports chapters for report-specific case aging requirements.

2. **Workload** The primary subsection of workload is events; some reports include an additional subsection – trials. The purpose of the workload section is to capture events that contribute to judicial and staff work activity. Workload is reported on the last day of the report period and captures the actual number of events occurring in a report period. A case may have multiple workload counts in a report period.

<sup>1</sup> See Appendix B more a detailed explanation of validation tests for end pending. Beginning pending is not expected to be exactly the same as end pending from the previous report period for a variety of reasons that are explained in Appendix B.

Workload measures vary among report types. Please refer to Individual JBSIS Report Chapters for more detailed information. The table below summarizes the primary workload measures by report type:

Section	Data Items	Workload		
		Hearing	Review	Events
				Continuance
<b>Civil</b>				
Civil Limited (5a) and Unlimited (5b)	X		X	X
Family Law (6a)	X		X	
Probate (12a)	X		X	X
Probate (12a)	X		X	X
Small Claims (13a)	X		X	X
<b>Criminal</b>				
Felony (7c)	X		X	
Misdemeanor/Infraction (11a)	X		X	
<b>Juvenile</b>				
Delinquency (8a)	X	X	X	
Dependency (9a)	X	X	X	
<b>Other</b>				
Appellate Court Appeals (4a)	X			
Appellate Division Appeals (4b)	X		X	
Mental Health (10a)	X		X	

3. **Case Characteristics** JBSIS collects information on specific issues that contribute to case complexity; these are reported in the data section Case Characteristics. Typically, case characteristics are reported only once per case in a report period. For example, a defendant may have used an interpreter three times in one reporting period but the court would report the use of an interpreter only once for that defendant in the reporting period. Please refer to Individual JBSIS Report section for more detailed information. The table below summarizes the primary case characteristics measures by report type.

Section	Data Items	Case characteristics	
		Pro per	Fee waiver
<b>Civil</b>			
Civil Limited (5a) and Unlimited (5b)		X	X
Family Law (6a)		X	X
Probate (12a)		X	X
Small Claims (13a)			X
<b>Criminal</b>			
Felony (7c)		X	
Misdemeanor/Infraction (11a)		X	

Section	Data Items	Case characteristics	
		Pro per	Fee waiver
<b>Juvenile</b>			
Delinquency (8a)			
Dependency (9a)		X	
<b>Other</b>			
Appellate Court Appeals (4a)		X	X
Appellate Division Appeals (4b)		X	X
Mental Health (10a)		X	

(d) **Data Items** Case information is reported according to the data items listed as rows in the reports. A row number is assigned to each data item, found to the left of the data item on the matrix and is used to cross reference the Data Element Definitions. Sections, subsections, and headings generally are not considered data items and therefore may not have row numbers.

It is optional to report rows that are labeled as Totals. If a court does not submit data for totals, the JBSIS data warehouse will calculate and display totals based on the component data items. If totals are reported, JBSIS will check the total and replace the court's reported total with the system total if they do not match. When replacements are made, the automated notice to the court contact will include a warning to this effect and an accounting of the change.

The definition of each data item is located in the Data Element Definitions section of each chapter in the order displayed on the Data Matrix. Please note that the definitions have been customized to particular areas of court operations and will vary across report types.

(e) **Data Elements** Data elements are defined by the intersection of the case types (columns) and the data items (rows). Shaded cells indicate that the data element is not applicable to a particular case type. Courts may find that they have data to report for a data element that is shaded. In this case, please see Appendix B, Unanticipated Data for detailed instructions.

(3) **Record Layouts** This section of the report chapter provides the data record layout for the report type. For related information please see Appendix C, File Formats and File Layout.

## **Appeals - 04a and 04b**

### Introduction

Appeals are reported in two separate JBSIS reports: report 04a, for the trial courts' workflow generated by sending cases to the appellate court; and report 04b, for cases appealed to the appellate division of the superior court (California Rules of Court, rule 100 et seq.).

## Appellate Court Appeals • 04a

### Data Element Definitions

**APPELLATE COURT APPEAL** The Appellate Court Appeal report captures cases appealed to the appellate or Supreme Court. An appellate court appeal begins with a filing of a document in the trial court giving notice of an appeal of a superior court case to a reviewing court. The appellate court appeals report captures the trial courts' workflow generated by sending cases to the appellate court.

Appellate Court Appeals case types are reported according to the Judicial Branch Statistical Information System (JBSIS) only.

Data matrix		Definition
Row	Column	
	JBSIS	
<b>CASE TYPES</b> Appellate court appeals are based on the case types in JBSIS reports 05a through 12a. The following table indicates the case types that map to the Appellate Court Appeals case types.		
	10	<p><b>civil</b> A notice of appeal filed regarding a civil case, including a notice of appeal for a case in which actions were coordinated under rule 3.501 of the California Rules of Court.</p> <p>Note: Refer to Report 05a/05b, Civil, Data Matrix columns 00–110, for case types.</p>
	20	<p><b>probate</b> A notice of appeal filed regarding a probate case.</p> <p>Note: Refer to Report 12a, Probate, Data Matrix columns 00–60, for case types.</p>
	30	<p><b>family law</b> A notice of appeal filed regarding a family law case. Refer to Report 06a, Family Law, Data Matrix columns 00–110 and 130, for case types.</p> <p>Note: Both family law and juvenile dependency adoptions are reported in column.</p>
	40	<p><b>adoption</b> A notice of appeal filed regarding an adoption case.</p> <p>Note: Refer to Report 06a, Family Law, Data Matrix column 120, and Report 09a, Juvenile Dependency, Data Matrix column 40.</p>
	50	<p><b>juvenile delinquency</b> A notice of appeal filed regarding a juvenile delinquency case.</p> <p>Note: Refer to Report 08a, Juvenile Delinquency, Data Matrix columns 10–50, for case types.</p>
	60	<p><b>juvenile dependency</b> A notice of appeal filed regarding a juvenile dependency case.</p> <p>Note: Refer to Report 09a, Juvenile Dependency, Data Matrix columns 10–30, for case types. Juvenile dependency adoptions are reported in column 40.</p>
	70	<p><b>juvenile writ petition</b> A notice of intent to file an extraordinary writ regarding the setting of a Welf. &amp; Inst. Code, § 366.26 hearing (Judicial Council form JV-820).</p>
	80	<p><b>mental health—civil</b> A notice of appeal filed regarding a mental health case with an underlying civil case.</p> <p>Note:</p> <ul style="list-style-type: none"> <li>Refer to Report 10a, Mental Health, Data Matrix columns 00–30, 120, and 130, for case types.</li> </ul>

Data matrix		Definition
Row	Column JBSIS	
		<ul style="list-style-type: none"> <li>Some courts may process mental health cases differently from others. For example, in column 30 (Welf. &amp; Inst. Code, § 5300), LPS conservatorships might be handled in the probate division in some courts and the mental health division in others. Regardless of where the cases are processed, please report under the case columns as defined in JBSIS.</li> </ul>
	90	<p><b>mental health—criminal</b> A notice of appeal filed regarding a mental health case that has an underlying criminal case.</p> <p>Note:</p> <ul style="list-style-type: none"> <li>Refer to Report 10a, Mental Health, Data Matrix columns 00 and 40–110.</li> <li>Some courts may process mental health cases differently from others. For example, in column 110 (Welf. &amp; Inst. Code, § 6500), Mentally Retarded and Dangerous might be handled in the Criminal division in some courts and in the civil division in others. Regardless of where the cases are processed, please report under the case columns as defined in JBSIS.</li> </ul>
	100	<b>death penalty</b> An automatic appeal upon imposition of the death penalty.
	110	<p><b>other criminal</b> A notice of appeal filed regarding a criminal case, excluding capital cases in which the death penalty was imposed.</p> <p>Note: Refer to Report 07a/07b/07c, Felonies, Data Matrices columns 10–90.</p>
<p><b>CASELOAD/CASEFLOW (unit of count = appeal)</b> An appeal is the unit of count and consists of the filing of an appeal regardless of the number of defendants or respondents or causes of action.</p>		
50	<b>Inventory</b>	An accounting of the number of appeals filed, disposed, and pending in a reporting period.
100	10–110	<p><b>beginning pending</b> The number of appeals awaiting disposition in a court before the first day of a reporting period.</p> <p>Note: Appeals that are removed from the court’s control are not reported in inventory.</p>
200	10–110	<p><b>filing (+)</b> The beginning of an appeal by formal submission of a notice of appeal requesting review of the trial court’s ruling/judgment or by imposition of the death penalty in a capital case.</p> <p><i>What/how to report:</i> If more than one appeal is filed in a case, report each notice of appeal as a new filing.</p>
300	10–110	<p><b>reinstatement (+)</b> An appeal that is returned to the superior court’s jurisdiction after decertification (it does not meet required standards) by the reviewing court or after the setting aside of a dismissal.</p> <p><i>What/how to not report:</i> Do not include corrections or augmentations to the record.</p>
400	10	<b>restored to court’s control (+)</b> An appeal that is restored to the court’s jurisdiction when a bankruptcy stay is vacated.
450	10–110	<b>existing appeal entered in CMS (+)</b> A pending appeal that had not been previously entered into the case management system (CMS) and was therefore not reported in pending.

Data matrix		Definition
Row	Column JBSIS	
		<i>What/how to report:</i> Such appeals are reported at the time an event is calendared and the appeal is entered in the CMS.
500	10	<p><b>removed from court's control (-)</b> An appeal that is removed from the court's jurisdiction by a bankruptcy stay.</p> <p><i>What/how to report:</i> Report the stays that apply to the entire case. Although a stay action may occur at a "person level" and there is no further activity pertaining to that particular person, case aging is not stopped unless the stay applies to the entire case. At that point, the entire case is removed from court's control; aging stops and does not begin again until an appropriate action occurs that restores the case to court's control.</p>
600	10–110	<b>total dispositions (-)</b> See row 800 for definition.
700	10–110	<p><b>end pending (=)</b> The number of appeals awaiting disposition in a court on the last day of a reporting period.</p> <p>Note: In rare instances related to changes in case types, this element may contain negative values. This is the only item for which negative numbers can be reported.</p> <p><i>What/how to report:</i> Appeals that are removed from court's control are not reported in inventory.</p>
800	10–110	<b>dispositions (total rows 900–1100)</b> The termination of an appeal pending before the court.
900	10–90 110	<b>abandonment</b> A disposition in which the appellant files a written request to the trial court to withdraw the appeal prior to the filing of the record in the reviewing court (Cal. Rules of Court, rules 8.240, 8.450).
1000	10–110	<b>dismissal before certification</b> A disposition in which the reviewing court orders the appeal terminated prior to certification.
1100	10–110	<p><b>certified</b> A disposition in which the record is certified and transmitted to the reviewing court.</p> <p><i>What/how to report:</i> Although the record is not "certified" in rule 5.1 and 5.2 appeals, record the disposition on this row when the appendix or file is sent to the Court of Appeal.</p>
<p><b>WORKLOAD (unit of count = action)</b> Data collected to reflect workload. Report on the last day of the report period. Capture the actual number of events occurring during that period.</p>		
1200	10–110	<p><b>predisposition hearings (total rows 1300 and 1400)</b> Formal judicial predisposition proceedings to decide issues of fact or law arising in the course of a court action.</p> <p>Note:</p> <ul style="list-style-type: none"> <li>• A hearing begins when one or more parties or counsel appear and oral arguments and presentations relevant to the proceedings are submitted to the court.</li> <li>• Hearings are initiated by the official placement of a case on a judicial officer's calendar by the filing of written documents, such as motions, or are based on impromptu oral motions or issues presented in court and heard by the judicial officer.</li> </ul>

Data matrix		Definition
Row	Column JBSIS	
		<p><i>What/how to report:</i></p> <ul style="list-style-type: none"> <li>• Report each hearing that actually takes place. If multiple proceedings are heard at one time (regardless of whether they are initiated by one or more documents), count each proceeding.</li> <li>• Hearings that extend over more than one day are counted as separate hearings for each hearing day.</li> <li>• If a judicial ruling made at a hearing results in the disposition of a case, count both the hearing and the disposition.</li> </ul> <p><i>What/how not to report:</i></p> <ul style="list-style-type: none"> <li>• Do not report hearings that are not heard at all and are reset at the request of the parties or on the court's motion.</li> <li>• Do not count ex parte proceedings unless they are calendared and heard.</li> <li>• Do not count impromptu oral motions that do not require a presentation and are not heard by the judicial officer.</li> </ul>
1300	10–110	<p><b>settled statement hearing</b> A predisposition hearing by a trial judge to settle the statement.</p> <p>Note: If the proposed statement is not changed at the hearing, it is considered certified by the judge. If changes are made, an engrossed statement will be prepared and certified (Cal. Rules of Court, rules 8.137, 8.630).</p>
1400	10–110	<p><b>other predisposition hearing</b> A predisposition hearing other than a settled statement hearing—e.g., relief from proceedings under rule 8.124, certificates of probable cause, and other predisposition matters.</p>
1500	<b>Events</b>	To measure workload, capture the actual number of events occurring during that period. Report on the last day of the report period.
1550	10–40	<p><b>default notice issued</b> A default notice issued by the trial court to a party for noncompliance with court rules.</p> <p><i>What/how to report:</i> Report each notice issued.</p>
1600	10–110	<p><b>augmentation/correction</b> The number of augmentations/corrections prepared for the reviewing court.</p> <p><i>What/how to report:</i> Report each augmentation/correction regardless of the number per appeal. These records may be documents or transcripts omitted from the original record on appeal that augment or correct the reporter's transcript or clerk's transcript (Cal. Rules of Court, rules 8.155, 8.616(e)).</p>
<p><b>APPEAL CHARACTERISTICS (unit of count = appeal/action)</b> Capture once per appeal, regardless of how long the appeal is pending. Report on the last day of the month in which the characteristic was entered in the CMS, unless specified otherwise. Characteristics of postdisposition appeals are not captured except for the following, which occur after disposition:  Augmented clerk's transcripts, rows 2410–2440  Remittitur filed, row 2500</p>		
1700	10–110	<p><b>multiple appeals</b> More than one appeal is taken from the same judgment or a related order.</p> <p>Note:</p>

Data matrix		Definition
Row	Column JBSIS	
		<ul style="list-style-type: none"> <li>A multiple appeals includes all instances in which opposing parties or multiple parties on the same side of the case appeal from the judgment.</li> <li>“Related order” includes all cases in which one party appeals from the judgment and another party appeals from any appealable order arising from or related to the judgment (Cal. Rules of Court, rule 8.147).</li> </ul> <p><i>What/how to report:</i></p> <ul style="list-style-type: none"> <li>Each notice of appeal is reported as a separate appeal, and the original appeal reports a characteristic of “multiple appeals” only once, regardless of the number of appeals filed or the length of time the appeal is pending.</li> <li>Later appeals are reported as separate appeals.</li> </ul>
1900	<b>Number of appeals categorized by number of volumes (original clerk’s transcript)</b>	
1910–1940	10–110	<p><b>original clerk’s transcripts</b> Report the number of appeals categorized by the number of volumes of original clerk’s transcript.</p> <p>Example: During the report period, three appeals have two volumes and two appeals have seven volumes. Report “3” on row 1910 and “2” on row 1920.</p> <p style="padding-left: 40px;">1–5 volumes 6–10 volumes 11–20 volumes ≥ 21 volumes</p> <p><i>What/how not to report:</i> Do not report the number of volumes.</p>
2000	10–40	<b>rule 8.124 transcript</b> An appeal in which the parties, not the superior court, prepare the clerk’s transcript (Cal. Rules of Court, rule 5.1).
2100	10–40	<b>rule 8.128 transcript</b> An appeal in which the parties stipulate to using the superior court file in lieu of the clerk’s transcript, upon approval of the court of appeal (Cal. Rules of Court, rule 8.128).
2400	<b>Number of appeals categorized by number of volumes (augmented clerk’s transcript)</b>	
2410–2440	10–110	<p><b>augmented clerk’s transcripts</b> Report the number of appeals categorized by the number of volumes of augmented clerk’s transcript.</p> <p>Example: During the report period, three appeals have two volumes and two appeals have seven volumes. Report “3” on row 2410 and “2” on row 2420.</p> <p style="padding-left: 40px;">1–5 volumes 6–10 volumes 11–20 volumes ≥ 21 volumes</p> <p><i>What/how not to report:</i> Do not report the number of volumes.</p>
2500	10–110	<b>remittitur filed</b> A remittitur received by the trial court from the reviewing court.
2600	10	<b>coordinated case</b> A notice of appeal on a case in which actions were coordinated under rule 3.501 of the California Rules of Court.
2700	10–110	<p><b>pro per appellant</b> A self-represented appellant.</p> <p><i>What/how to report:</i> Report once at the time of disposition.</p>

Data matrix		Definition
Row	Column JBSIS	
2800	50 60 110	<b>untimely appeal</b> Appeal received but not filed in accordance with rule 8.320 of the California Rules of Court.
2900	10–40	<b>fee waiver requested</b> Application for waiver of the reviewing court's filing fee submitted pursuant to Govt. Code, § 68634(e).  <i>What/how to report:</i> Report once per appeal (Cal. Rules of Court, rules 8.100, 3.50-3.63).
2950	10–40	<b>transcript fee waiver requested</b> A written request filed with superior court for a court order permitting the preparation of the clerk's transcript without payment of fees (Cal. Rules of Court, rules 8.100, 3.50-3.63).
3000	10–40	<b>transcript fee waiver granted</b> Application for waiver of preparation of the clerk's transcript fees granted in full or in part by the superior court.
3100	10–40	<b>government exemption</b> This waiver applies to “the filing of any document or paper, for the performance of any official service, or the filing of any stipulation or agreement, which may constitute an appearance.” (Gov. Code, § 6103)  <i>What/how to report:</i> Report the first waiver of fees in the appeal for a government agency at the time of filing.

## Appellate Division Appeals • 04b

### Data Element Definitions

**APPELLATE DIVISION APPEALS** The Appellate Division Appeals report captures cases appealed to the appellate division of the superior court (California Rules of Court, rule 8.100 et seq.). An appellate division appeal begins with the formal submission of the record. The appellate division consists of a panel of superior court judges that review appeals on limited civil, misdemeanor and infraction cases.

Appellate Division Appeals case types are reported according to one of two data collection and reporting standards: the Judicial Branch Statistical Information System (JBSIS), and the Regulations on Statistical Reporting (Portal). The JBSIS standards include a detailed breakdown of cases by case type and disposition, and include workload measures, such as the number of hearings. The Portal standards include fewer case types, dispositions and workload measures than JBSIS. The Portal data elements can be mapped to the JBSIS data matrix, as defined below.

Row	Data matrix		Definition
	Column		
	JBSIS	Portal	
<b>CASE TYPES</b>			
<p>JBSIS: Courts reporting via JBSIS standards report data for the following four case types:</p> <ul style="list-style-type: none"> <li>• Pre-JBSIS criminal appeals, for courts that could not distinguish between misdemeanor and infraction appeals cases at the time they implemented JBSIS.</li> <li>• Civil (limited jurisdiction)</li> <li>• Misdemeanors</li> <li>• Infractions</li> </ul> <p>Small claims appeals are not an appellate division appeal as they receive a completely new trial. They are reported on the JBSIS 05b Civil Unlimited report, case type 120.</p> <p>Portal: Courts reporting via Portal standards report civil appeals in total (column 05) and criminal appeals in total (column 15).</p>			
	00		<p><b>pre-JBSIS criminal</b> A criminal (misdemeanor or infraction) appeal, filed prior to JBSIS implementation, in which a specific JBSIS case type cannot be determined by the case management system (CMS).</p> <p>Note: Case type 00, pre-JBSIS, is included to permit a court to report pending appeals cases entered in their case management system prior to JBSIS implementation where the case type category is unknown. Usually, when the case is scheduled for an event, the case type is determined and the count subtracted from the pre-JBSIS column and added to the new case type column.</p>
		05	<p><b>civil (1A)</b> <i>Regulations on Statistical Reporting, Form 1A, Part V.</i> Appeals from Lower Court: Civil. A civil appeal from lower court for which a record on appeal was filed in the reporting court to an appellate department.</p> <p>Note: Small claims appeals are reported on the JBSIS 05b Civil Unlimited report.</p>
	10		<p><b>civil</b> The record on appeal in a civil limited case. Refer to the JBSIS 05a Civil Limited report for civil case types.</p> <p><i>What/how not to report:</i> Do not include small claims appeals (column 120).</p>

Data matrix			Definition
Row	Column		
	JBSIS	Portal	
		15	<b>criminal (1A)</b> <i>Regulations on Statistical Reporting</i> , Form 1A, Part V. Appeals from Lower Court: Criminal. A criminal appeal from lower court for which a record on appeal was filed in the reporting court to an appellate department.
	20		<b>misdemeanor</b> The record on appeal in a misdemeanor case.  Note: <ul style="list-style-type: none"> <li>Refer to JBSIS 11a Misdemeanors and Infractions report for misdemeanor case types.</li> <li>A felony case, regardless if it is reduced to a misdemeanor, is appealed to the Court of Appeals and not the Appellate Division Appeals (see rule 8.304(a)(2), California Rules of Court and Penal Code Section 851.8(p)).</li> </ul>
	30		<b>infraction</b> The record on appeal in an infraction case. Refer to the JBSIS 11a Misdemeanors and Infractions report for infraction case types.
<b>CASELOAD/CASEFLOW (unit of count = appeal)</b> An appeal is the unit of count and consists of the filing of an appeal regardless of the number of defendants or respondents or causes of action.			
50	<b>Inventory</b>		An accounting of the number of appeals filed, disposed, and pending in a reporting period.
100	00 10 20 30		<b>beginning pending</b> The number of appeals awaiting disposition in a court before the first day of a reporting period.
200	10 20 30	05 15	<b>filing (+)</b> The beginning of an appeal by formal submission of the record to the superior court appellate division.  <i>What/how to report:</i> <ul style="list-style-type: none"> <li>Report only one filing even if appeal may contain more than one petitioner.</li> <li>If more than one appeal is filed in a case, report each notice of appeal as a new filing.</li> </ul> Portal: <i>Regulations on Statistical Reporting</i> , Form 1A, Part V., Number of filings.
300	00 10 20 30		<b>reopened (+)</b> An appeal that was previously reported as disposed but is resubmitted to a court—e.g., a dismissal is set aside, a rehearing is ordered, the appeal is recertified, etc.  <i>What/how to report:</i> Report one reopened appeal for every disposed appeal resubmitted.  <i>What/how not to report:</i> Do not report appeals that were closed in error. Since beginning pending and end pending do not have to match, submit an amended report after the error is corrected.
350	10 20 30		<b>existing appeal entered in CMS (+)</b> A pending appeal that was not previously entered into the CMS and therefore was not reported in pending.  <i>What/how to report:</i> Report appeals at the time an event is calendared and the appeal is entered in the CMS.

Data matrix			Definition
Row	Column		
	JBSIS	Portal	
360	00 20 30		<p><b>classification of pre-JBSIS appeal (-/+)</b> Classification of a pre-JBSIS criminal appeal into the JBSIS misdemeanor or infraction appeal type requires two counts in the inventory section:</p> <ul style="list-style-type: none"> <li>• One count is added to the appropriate JBSIS category in columns 20–30, to be used for all future reporting; and</li> <li>• One count is deducted from the pre-JBSIS category, column 00, to indicate the removal of a case.</li> </ul> <p>Note:</p> <ul style="list-style-type: none"> <li>• The JBSIS file validation routine will check to see that counts for the pre-JBSIS case type (row 360, column 00) are balanced against counts in the JBSIS case types (row 360, columns 20–30).</li> <li>• Courts wishing to classify pre-JBSIS cases usually do so as they are scheduled for an event and when the appropriate case type is known. Courts have the option of continuing to report these cases under the pre-JBSIS category, but no new filings may be added to this case type.</li> </ul>
400	00 10 20 30	05 15	<p><b>total dispositions (-)</b> See row 600 for definition.</p>
500	00 10 20 30		<p><b>end pending (=)</b> The number of appeals awaiting disposition in a court on the last day of a reporting period.</p> <p>Note: In rare instances related to changes in case types, this element may contain negative values. This is the only item for which negative numbers can be reported.</p>
600	00 10 20 30	05 15	<p><b>dispositions (total rows 650 and 950)</b> The termination of an appeal either before or after hearing.</p> <p>Portal: <i>Regulations on Statistical Reporting</i>, Form 1A, Part V., Number dispositions.</p>
650	00 10 20 30	05 15	<p><b>dispositions before hearing</b> termination of an appeal pending before hearing (oral argument).</p> <p>JBSIS: The total of rows 700–900.</p> <p>Portal: <i>Regulations on Statistical Reporting</i>, Form 1A, Part V., Disposition Total.</p>
700	00 10 20 30		<p><b>remand</b> A disposition before hearing in which the appeal record is returned to the trial department with directions to perform some act to perfect the record.</p> <p><i>What/how to report:</i> Report an appeal as reopened on row 300 if the appeal record is recertified.</p>
800	00 10 20 30		<p><b>certified</b> A disposition before hearing in which the appeal record is certified and transmitted to the Court of Appeal.</p> <p>Note: The appeals court may order an appellate division appeal transferred to it, or a superior court judge or the appellate division panel may order</p>

## **Civil - 05a and 05b**

### Introduction

Civil case processing data are reported in two separate JBSIS reports: report 05a, for limited jurisdiction cases (cases under \$25,000); and report 05b, for unlimited jurisdiction cases (over \$25,000), including complex litigation and small claims appeals.

## Civil Limited • 05a

### Data Element Definitions

**CIVIL CASE TYPES** A broad classification category for trial court caseload involving lawsuits brought to redress private wrongs, such as breach of contract or negligence, or to enforce civil remedies, such as compensation, damages, and injunctions. The civil limited category captures limited jurisdiction workload (cases under \$25,000).

Civil case types are reported according to one of two data collection and reporting standards: the Judicial Branch Statistical Information System (JBSIS), and the Regulations on Statistical Reporting (Portal). The JBSIS standards include a detailed breakdown of cases by case type and disposition, and include workload measures, such as the number of hearings. The Portal standards include fewer case types, dispositions and workload measures than JBSIS. The Portal data elements can be mapped to the JBSIS data matrix, defined below.

Row	Data matrix		Definition
	Column		
	JBSIS	Portal	
<b>CASE TYPES</b>			
<p>JBSIS: Courts reporting via JBSIS standards report civil case types that are derived from the categories listed in the Civil Case Cover Sheet (form CM-010, last revised 7/1/07), available at <a href="http://www.courtinfo.ca.gov/forms/documents/cm010.pdf">www.courtinfo.ca.gov/forms/documents/cm010.pdf</a>.</p> <p>Portal: Courts reporting via Portal standards report counts for civil cases, in total (column 05), and report counts for unlawful detainer (65) and all other limited civil (general civil) cases (08) separately. For unlawful detainers and general civil cases, only case inventory and aging are reported. All disposition and workload counts are reported in civil (05).</p>			
	00		<p><b>pre-JBSIS civil</b> A civil case filed prior to JBSIS implementation in which a JBSIS-specific case type cannot be determined by case management system (CMS).</p> <p>Note: Case type 00, pre-JBSIS, is included to permit a court to report pending civil cases entered in their case management system prior to JBSIS implementation where the case type category is unknown. Usually, when the case is scheduled for an event, the case type is determined and the count is subtracted from the pre-JBSIS column and added to the new case type column in row 460.</p>
		05	<p><b>civil (2A)</b> <i>Regulations on Statistical Reporting, Form 2A, Part II., Civil.</i> All civil limited jurisdiction cases, excluding small claims cases.</p>
		08	<p><b>general civil (2C)</b> <i>Regulations on Statistical Reporting, Form 2C, Case Inventory and Case Processing Time: General Civil.</i> All civil limited jurisdiction cases, excluding unlawful detainer and small claims cases.</p>
	10		<p><b>auto tort</b> An action that results from a party's alleged negligent operation of a motor vehicle. Includes Civil Case Cover Sheet codes:</p> <p>22 PI/PD/WD—Auto 46 Uninsured motorist</p>
	20		<p><b>other PI/PD/WD (personal injury/property damage/wrongful death)</b> An action alleging that one party has caused an injury or death to another party or damage to another party's property caused by an action other than automobile tort. Includes Civil Case Cover Sheet codes:</p> <p>04 Asbestos</p>

Data matrix			Definition
Row	Column		
	JBSIS	Portal	
			23 PI/PD/WD—Other 24 Product liability 45 Medical malpractice
	30		<b>other tort</b> An action that involves a civil wrong or injury for which the court may provide a remedy in the form of an action for damages. Includes Civil Case Cover Sheet codes: 07 Business tort 08 Civil rights 13 Defamation 16 Fraud 19 Intellectual property 25 Professional negligence 35 Non-PI/PD/WD tort—Other
	40		<b>employment</b> An action that involves a civil wrong or injury related to employment for which the court may provide a remedy in the form of an action for damages. Includes Civil Case Cover Sheet codes: 15 Other employment 36 Wrongful termination
	50		<b>contract</b> An action involving a dispute over a promissory agreement between two or more individuals or organizations. Includes Civil Case Cover Sheet codes: 06 Breach of contract/warranty 09 Collections 18 Insurance coverage 37 Contract—Other
	60		<b>real property</b> An action that arises out of the ownership, use, or disposition of land or real estate. Includes Civil Case Cover Sheet codes: 14 Eminent domain/inverse condemnation 26 Other real property 33 Wrongful eviction
	70	65	<b>unlawful detainer</b> <b>JBSIS:</b> An action involving the possession of real property by a commercial or residential tenant whose original entry was lawful but whose right to the possession has terminated. Includes Civil Case Cover Sheet codes: 31 Unlawful detainer—Commercial 32 Unlawful detainer—Residential 38 Drugs <b>Portal:</b> <i>Regulations on Statistical Reporting</i> , Form 2C, Case Inventory and Case Processing Time: Unlawful detainers. Include all unlawful detainer cases.

Data matrix			Definition
Row	Column		
	JBSIS	Portal	
	80		<p><b>judicial review</b> A procedure for seeking judicial review of the validity of an order or a decision. Include appeals of decisions by the Labor Commissioner and the Employment Development Department (EDD). Includes Civil Case Cover Sheet codes:</p> <ul style="list-style-type: none"> <li>02 Writ of mandate</li> <li>05 Asset forfeiture</li> <li>11 Petition re: arbitration award</li> <li>39 Judicial review—Other</li> </ul>
	90		<p><b>complex litigation</b> (<i>Does not apply to limited civil report 05a; see unlimited civil report 05b.</i>)</p>
	100		<p><b>enforcement of judgment</b> An action that gives the local court jurisdiction (for enforcement purposes) over a judgment rendered by another agency or in another county, state, or country. Includes Civil Case Cover Sheet code 20, enforcement of judgment (e.g., sister state, foreign, out-of-county abstracts, etc.).</p>
	110		<p><b>other civil</b> Other civil complaints and civil petitions not defined in columns 10–100 (e.g., petitions for change of name, civil harassment, etc.). Includes Civil Case Cover Sheet codes:</p> <ul style="list-style-type: none"> <li>Miscellaneous civil complaint <ul style="list-style-type: none"> <li>27 RICO</li> <li>42 Other</li> </ul> </li> <li>Miscellaneous civil petition <ul style="list-style-type: none"> <li>21 Partnership and corporate governance</li> <li>43 Other</li> </ul> </li> </ul> <p><i>What/how to report:</i> If a petition/complaint falls under “other civil,” report it in inventory only if it is filed as an independent action and not a subsequent petition/complaint within an existing case. If a petition/complaint listed under “other civil” is filed within an existing case, do not count it in inventory as a new filing, but capture related hearings and events in workload.</p> <p><i>What/how not to report:</i></p> <ul style="list-style-type: none"> <li>• Do not report civil complaints or petitions that are filed within existing cases that are reported in column 10 – 100.</li> <li>• Do not report temporary civil harassment restraining orders (CH-120). JBSIS captures "Request for Orders to Stop Harassment" petitions (CH-100) but not their accompanying temporary petitions (CH-120).</li> </ul>
	120		<p><b>small claims appeals</b> (<i>Does not apply to limited civil report 05a; see unlimited civil report 05b.</i>)</p>

**CASELOAD/CASEFLOW (unit of count = case)** A case is the unit of count and consists of the filing of a complaint or petition regardless of the number of defendants or respondents or causes of action.

Civil cases that contain multiple defendants or respondents are not reported closed until each defendant or respondent has received a judgment, been dismissed, or is otherwise disposed. The case disposition is then reported according to a hierarchy, i.e., on the row according to the defendant that obtained the most serious disposition, based on impact to court time and resources.

50	<b>Inventory</b>	An accounting of the number of cases filed, disposed, and pending in a reporting period.

## Civil Unlimited • 05b

### Data Element Definitions

**CIVIL CASE TYPES** A broad classification category for trial court caseload involving lawsuits brought to redress private wrongs, such as breach of contract or negligence, or to enforce civil remedies, such as compensation, damages, and injunctions. The civil unlimited category captures unlimited jurisdiction workload (cases over \$25,000).

Civil case types are reported according to one of two data collection and reporting standards: the Judicial Branch Statistical Information System (JBSIS), and the Regulations on Statistical Reporting (Portal). The JBSIS standards include a detailed breakdown of cases by case type and disposition, and include workload measures, such as the number of hearings. The Portal standards include fewer case types, dispositions and workload measures than JBSIS. The Portal data elements can be mapped to the JBSIS data matrix, defined below.

Data matrix			Definition
Row	Column		
	JBSIS	Portal	
<b>CASE TYPES</b>			
<p>JBSIS: Courts reporting via JBSIS standards report civil case types are derived from the categories listed in the Civil Case Cover Sheet (form CM-010, last revised 7/1/07) available at <a href="http://www.courtinfo.ca.gov/forms/documents/cm010.pdf">www.courtinfo.ca.gov/forms/documents/cm010.pdf</a>.</p> <p>Portal: Courts reporting via Portal standards report counts for civil cases, in total (column 03), and auto tort (05), other PI/PD/WD (15), eminent domain (55) and all other unlimited civil (general civil) cases (105) separately. For general civil cases, only case inventory and aging are reported. All disposition and workload counts are reported in auto tort (05), other PI/PD/WD (15), eminent domain (55) and all other unlimited civil (general civil) cases (105).</p>			
	00		<p><b>pre-JBSIS civil</b> A civil case filed prior to JBSIS implementation in which a JBSIS-specific case type cannot be determined by case management system (CMS).</p> <p>Note: Case type 00, pre-JBSIS, is included to permit a court to report pending civil cases entered in their case management system prior to JBSIS implementation where the case type category is unknown. Usually, when the case is scheduled for an event, the case type is determined and the count subtracted from the pre-JBSIS column and added to the new case type column in row 460.</p>
		03	<p><b>general civil (1E)</b> <i>Regulations on Statistical Reporting, Form 1E, Case Inventory and Case Processing Time: General Civil.</i> All civil unlimited jurisdiction cases.</p>
10		05	<p><b>auto tort</b> An action that results from a party's alleged negligent operation of a motor vehicle. Includes Civil Case Cover Sheet codes:</p> <p style="padding-left: 40px;">22 PI/PD/WD—Auto</p> <p style="padding-left: 40px;">46 Uninsured motorist</p> <p>Portal: <i>Regulations on Statistical Reporting, Form 1A, Part I. Unlimited Civil: Personal Death and Damage: Motor Vehicle.</i></p>

Data matrix			Definition
Row	Column		
	JBSIS	Portal	
	20	15	<p><b>other PI/PD/WD (personal injury/property damage/wrongful death)</b>  An action alleging that one party has caused an injury or death to another party or damage to another party's property caused by an action other than automobile tort. Includes Civil Case Cover Sheet codes:</p> <ul style="list-style-type: none"> <li>04 Asbestos</li> <li>23 PI/PD/WD—Other</li> <li>24 Product liability</li> <li>45 Medical malpractice</li> </ul> <p>Portal: <i>Regulations on Statistical Reporting</i>, Form 1A, Part I. Unlimited Civil: Personal Death and Damage: Other.</p>
	30		<p><b>other tort</b> An action that involves a civil wrong or injury for which the court may provide a remedy in the form of an action for damages. Includes Civil Case Cover Sheet codes:</p> <ul style="list-style-type: none"> <li>07 Business tort</li> <li>08 Civil rights</li> <li>13 Defamation</li> <li>16 Fraud</li> <li>19 Intellectual property</li> <li>25 Professional negligence</li> <li>35 Non-PI/PD/WD tort—Other</li> </ul>
	40		<p><b>employment</b> An action that involves a civil wrong or injury related to employment for which the court may provide a remedy in the form of an action for damages. Includes Civil Case Cover Sheet codes:</p> <ul style="list-style-type: none"> <li>15 Other employment</li> <li>36 Wrongful termination</li> </ul>
	50		<p><b>contract</b> An action involving a dispute over a promissory agreement between two or more individuals or organizations. Includes Civil Case Cover Sheet codes:</p> <ul style="list-style-type: none"> <li>06 Breach of contract/warranty</li> <li>09 Collections</li> <li>18 Insurance coverage</li> <li>37 Contract—Other</li> </ul>
		55	<p><b>eminent domain</b> <i>Regulations on Statistical Reporting</i>, Form 1A, Part I., Unlimited Civil: Eminent Domain (Parcels). An action that arises out of the condemnation, ownership, use, or disposition of land or real estate. Includes Civil Case Cover Sheet code:</p> <ul style="list-style-type: none"> <li>14 Eminent domain/inverse condemnation</li> </ul>
	60		<p><b>real property</b> An action that arises out of the ownership, use, or disposition of land or real estate. Includes Civil Case Cover Sheet codes:</p> <ul style="list-style-type: none"> <li>14 Eminent domain/inverse condemnation</li> <li>26 Other real property</li> <li>33 Wrongful eviction</li> </ul>

Data matrix			Definition
Row	Column		
	JBSIS	Portal	
	70		<p><b>unlawful detainer</b> An action involving the possession of real property by a commercial or residential tenant whose original entry was lawful but whose right to the possession has terminated. Includes Civil Case Cover Sheet codes:</p> <ul style="list-style-type: none"> <li>31 Unlawful detainer—Commercial</li> <li>32 Unlawful detainer—Residential</li> <li>38 Drugs</li> </ul>
	80		<p><b>judicial review</b> A procedure for seeking judicial review of the validity of an order or a decision. Include appeals of decisions by the Labor Commissioner and the Employment Development Department (EDD) and Civil Case Cover Sheet codes:</p> <ul style="list-style-type: none"> <li>02 Writ of mandate</li> <li>05 Asset forfeiture</li> <li>11 Petition re: arbitration award</li> <li>39 Judicial review—Other</li> </ul>
	90		<p><b>complex litigation</b> Provisionally complex civil litigation. (Cal. Rules of Court, rules 3.400–3.403.) Includes Civil Case Cover Sheet codes:</p> <ul style="list-style-type: none"> <li>03 Antitrust/trade regulation</li> <li>10 Construction defect</li> <li>28 Securities litigation</li> <li>30 Toxic tort/environmental</li> <li>40 Claims involving mass tort</li> <li>41 Insurance coverage claims arising from the above-listed provisionally complex case types</li> </ul> <p>Note: Although “a court may declare by local rule that certain types of cases are or are not provisionally complex pursuant to this subdivision” (Cal. Rules of Court, rule 3.400(d)), unless the Civil Case Cover Sheet designates the case as complex, the case is reported under the specific case type column.</p>
	100		<p><b>enforcement of judgment</b> An action that gives the local court jurisdiction (for enforcement purposes) over a judgment rendered by another agency or in another county, state, or country. Includes Civil Case Cover Sheet code 20, enforcement of judgment (e.g., sister state, foreign, out-of-county abstracts, etc.).</p>
	110	105	<p><b>other civil</b> Other civil complaints and civil petitions not defined in columns 10–100 (e.g., petitions for change of name, civil harassment, etc.). Includes Civil Case Cover Sheet codes:</p> <ul style="list-style-type: none"> <li>Miscellaneous civil complaint</li> <li>27 RICO</li> <li>42 Other</li> <li>Miscellaneous civil petition</li> <li>21 Partnership and corporate governance</li> <li>43 Other</li> </ul> <p><i>What/how to report.</i> If a petition/complaint falls under “other civil,” report it in inventory only if it is filed as an independent action and not a subsequent petition/complaint within an existing case. If a petition/complaint listed under “other civil” is filed within an existing case,</p>

Data matrix			Definition

## Family Law • 06a

### Data Element Definitions

**FAMILY LAW CASES** A major classification category of cases involving family actions, such as marital actions (e.g., dissolution), custody matters, family support, parental rights, and adoption.

Family case types are reported according to one of two data collection and reporting standards: the Judicial Branch Statistical Information System (JBSIS), and the Regulations on Statistical Reporting (Portal). The JBSIS standards include a detailed breakdown of cases by case type and disposition, and include workload measures, such as the number of hearings. The Portal standards include fewer case types, dispositions and workload measures than JBSIS. The Portal data elements can be mapped to the JBSIS data matrix, defined below.

Special considerations for reporting family law cases:

1. Department of Child Support Services (DCSS) cases: Report as a new or separate case any DCSS complaint that is filed in an existing dissolution, parental relations, or other type of family law case.
  - Report one filing, one disposition, and workload resulting from the petition for dissolution in column 10, Dissolution With Minor Children.
  - Report one filing, one disposition, and workload resulting from the DCSS complaint regarding parental obligations in column 100, DCSS.
2. Domestic violence cases: Report domestic violence cases as separate filings and dispositions (column 80 or 90) even if they are processed as part of an existing case.

Row	Data matrix		Definition
	Column		
	JBSIS	Portal	
<b>CASE TYPES</b>			
JBSIS: Courts reporting via JBSIS standards report numerous family law petitions that are not specifically identified in existing case types in column 130, Other family law, only if they are filed as independent new actions and not within existing cases.			
Portal: Courts reporting via Portal standards report counts for family marital cases in total (column 05), and report counts for dissolution (06), legal separation (07), nullity (08), and all other family petitions and complaints (125) separately.			
	00		<p><b>pre-JBSIS family law</b> A family law case filed prior to JBSIS implementation in which a specific JBSIS case type cannot be determined by the CMS.</p> <p>Note: Case type 00, pre-JBSIS, is included to permit a court to report pending family law cases entered in their case management system prior to JBSIS implementation where the case type category is unknown. Usually, when the case is scheduled for an event, the case type is determined and the count subtracted from the pre-JBSIS column and added to the new case type column in row 460.</p>
		05	<p><b>total marital (1A)</b> <i>Regulations on Statistical Reporting</i>, Form 1A, Part I. Civil Proceedings: Family Law (Marital). All marital cases and domestic partnerships.</p> <p>Note: Until January 1999, marital relations were reported in total only.</p>
		06	<p><b>dissolution (1A)</b> <i>Regulations on Statistical Reporting</i>, Form 1A, Part I. Civil Proceedings: Family Law (Marital). A petition (form FL-100 or FL-103) seeking dissolution of a marriage in (Fam. Code, § 2330) or</p>

Data matrix			Definition
Row	Column		
	JBSIS	Portal	
			domestic partnerships (Fam. Code, § 299(d)).
		07	<b>legal separation (1A)</b> <i>Regulations on Statistical Reporting</i> , Form 1A, Part I. Civil Proceedings: Family Law (Marital). A petition (form FL-100 or FL-103) seeking legal separation of a marriage (Fam. Code, § 2330) or domestic partnerships (Fam. Code, § 299(d)).
		08	<b>nullity (1A)</b> <i>Regulations on Statistical Reporting</i> , Form 1A, Part I. Civil Proceedings: Family Law (Marital). A petition (form FL-100 or FL-103) seeking nullity of a marriage (Fam. Code, § 2250) or domestic partnerships (Fam. Code, § 299(d)).
	10		<b>dissolution with minor children</b> A petition (forms FL-100 or FL-103) seeking dissolution of a marriage or domestic partnership in which there are minor children of the marriage (Fam. Code, § 2330.) or domestic partnership (Fam. Code, § 299(d)).  <i>What/how to report.</i> Include petitions filed seeking the dissolution of marriage as an alternative to legal separation or nullity in the event that the petition for legal separation or nullity is denied. In this scenario, when a dissolution for marriage is filed as an alternative, count one dissolution petition filed and one separation (or nullity) petition filed.
	20		<b>legal separation with minor children</b> A petition (form FL-100 or FL-103) seeking legal separation of a marriage in which there are minor children of the marriage (Fam. Code, § 2330) or domestic partnership (Fam. Code, § 299(d)).
	30		<b>nullity with minor children</b> A petition (form FL-100 or FL-103) seeking nullity of a marriage in which there are minor children of the marriage (Fam. Code, § 2250) or domestic partnerships (Fam. Code, § 299(d)).
	40		<b>dissolution without minor children</b> A petition (form FL-100 or FL-103) seeking dissolution of a marriage in which there are no minor children of the marriage (Fam. Code, § 2330) or domestic partnerships (Fam. Code, § 299(d)), or a joint petition (form FL-800) for summary dissolution of marriage (Fam. Code, § 2400).  <i>What/how to report.</i> Include petitions filed seeking the dissolution of marriage as an alternative to legal separation or nullity in the event that the petition for legal separation or nullity is denied. In this scenario, when a dissolution for marriage is filed as an alternative, count one dissolution petition filed and one separation (or nullity) petition filed.
	50		<b>legal separation without minor children</b> A petition (form FL-100 or FL-103) seeking legal separation of a marriage in which there are no minor children of the marriage (Fam. Code, § 2330).
	60		<b>nullity without minor children</b> A petition (form FL-100 or FL-103) seeking nullity of a marriage in which there are no minor children of the marriage (Fam. Code, § 2250).
	70		<b>establish parental relationship</b> A petition (form FL-200) brought under the Uniform Parentage Act to establish parental relationship (Fam. Code, § 7600).

Row	Column		
	JBSIS	Portal	
80			<p><b>domestic violence prevention with minor children</b> A family law case type based on a Request for Order (form DV-100) and Temporary Restraining Order and Notice of Hearing (form DV-110) seeking protection under the Domestic Violence Prevention Act, in which there are minor children of the relationship (Fam. Code, § 6200).</p> <p><i>What/how to report:</i> Report a new filing for all domestic violence petitions processed even if they are within existing cases.</p> <p><i>What/how not to report:</i> Do not report temporary domestic violence restraining orders (DV-110)). JBSIS only captures "Request for Order" domestic violence petitions (DV-100) but not their accompanying temporary petitions (DV-110).</p>
90			<p><b>domestic violence prevention without minor children</b> A family law case type, based on a Request for Order (form DV-100) and Temporary Restraining Order and Notice of Hearing (form DV-110) seeking protection under the Domestic Violence Prevention Act, in which there are no minor children of the relationship (Fam. Code, § 6200).</p> <p><i>What/how to report:</i> Report domestic violence petitions as new filings even if they are filed within existing cases.</p> <p><i>What/how not to report:</i> Do not report temporary domestic violence restraining orders (DV-110). JBSIS only captures "Request for Order" domestic violence petitions (DV-100) but not their accompanying temporary petitions (DV-110).</p>
100			<p><b>Department of Child Support Services (DCSS)</b> A complaint (form FL-600) filed by DCSS to establish parental obligation, parentage, and/or child support (Fam. Code, §§ 2330.1, 17400, 17404), or a Statement for Registration of California Support Order (form FL-650) by DCSS (Fam. Code, § 5601).</p> <p><i>What/how to report:</i> Report DCSS petitions as new filings even if they are filed within existing cases.</p>
110			<p><b>Department of Child Support Services (DCSS)—UIFSA</b> A petition filed requesting the court to establish a support order for a spouse or child, payable by the obligor under the Uniform Interstate Family Support Act (Fam. Code, § 4900) or registration of an interstate support order by DCSS (Fam. Code, § 5601).</p> <p><i>What/how to report:</i> Report DCSS petitions as new filings even if they are filed within existing cases.</p>
120			<p><b>adoption</b> A petition seeking to establish a new, permanent relationship of parent and child between persons not having that relationship biologically (Fam. Code, § 8500 et seq.).</p> <p><i>What/how not to report:</i> Do not report petitions filed to adopt pursuant to a juvenile matter, in which the child became a dependent of the court (form JV-100). These are reported in JBSIS Juvenile Dependency Report 9a.</p>

**WORKLOAD (unit of count = action)** Data collected to reflect workload. Report workload resulting from the initial and subsequent filing(s). Report on the last day of the reporting period. Capture the actual number of events occurring during that reporting period.

JBSIS: Family law is the only JBSIS report where data is captured on short and long cause trials. This data applies only to marital case types 00-60 and the length of trial is determined by the attorneys' estimate at the time the trial is set on the court calendar.

A large part of a court's workload emanates from orders to show cause (OSC) and motion filings, hearings and issues. Filings are tracked on rows 3100-3130; hearings on rows 3150-3230; and

Data matrix		Definition
Row	Column	
	JBSIS      Portal	
<p>issues on rows 4800-4830.</p> <p>Note that DCSS filings and hearings require more information than is required for private attorney filings—that is, whether the request is for an initial order, modification, or enforcement. Because there is an interest in tracking the number of OSC/motions filed and heard, rows 3100 and 3200 in the Data Element Definitions (p 8) explain how to report OSC/motion filings and hearings when more than one type of request is indicated.</p> <p>In addition, there is an interest in obtaining information about the number of issues the court is asked to address. For this purpose, courts are asked to report each issue indicated on an OSC or motion for child custody/visitation, child support and spousal support for all cases involving minor children. Please see page 11, row 4800 for the definition.</p> <p>The data definitions contain comprehensive explanations for these areas.</p>		
<b>Hearings</b>		
2900	00 10–60	<p><b>short cause trial</b> A trial in which the time estimated for trial is less than or equal to five hours (Cal. Rules of Court, rule 3.735).</p> <p>Note: The length of a trial is determined by attorney estimation made to the clerk at the time the trial is scheduled on the court calendar. Data on short cause trials are not currently captured for columns 70–130.</p>
3000	00 10–60	<p><b>long cause trial</b> A trial in which the time estimated for trial is greater than five hours (Cal. Rules of Court, rule 3.735).</p> <p>Note: The length of a trial is determined by attorney estimation made to the clerk at the time the trial is scheduled on the court calendar. Data on long cause trials are not currently captured for columns 70–130.</p>
3100	00 10–120 130	<p><b>order to show cause (OSC)/motions filed (total rows 3100–3130)</b> The filing of an Order to Show Cause (form FL-300) by a private party or government agency requiring a party to appear and present to the court reasons that a particular order should not be confirmed; or a written request (form FL-301, Notice of Motion (Family Law)), made to a court at any time before, during, or after court proceedings, asking the court to make a specified finding, decision, or order.</p> <p>Exception: OSC/motions for DCSS cases require additional information. ## **Felonies - 07a, 07b, and 07c**

### Introduction

These reports capture trial court workload generated by the filing of felony complaints and informations by the District Attorney, and indictments by the Grand Jury.

The felony report is divided into three parts. Courts that have not integrated their case management or reporting systems may use Felony 07a (Part I) and Felony 07b (Part II) for reporting. Courts that have integrated their systems should use Felony 07c (Part III).

## Felonies, Part III • 07c

### Data Element Definitions

**FELONY CASE** A criminal case category that involves an offense punishable by death or incarceration in a state prison. The felonies reports capture trial workload generated by the filings of felony complaints and information by the District Attorney and indictment by the Grand Jury.

The felonies report 07c (Part III) represents a unified workflow from the limited and unlimited jurisdiction and is used by courts that have integrated case management or reporting systems. Only courts reporting the Judicial Branch Statistical Information System (JBSIS) standards would refer to the felonies report 07c. Courts reporting via Portal standards would need to refer to the data definitions provided in reports 07a and 07b.

	JBSIS	

**CASE TYPES** Report felony cases according to the most serious charge as defined by the Department of Justice (DOJ) hierarchy of criminal offenses. In cases with multiple criminal charges, report the case under the case type carrying the most severe sentence, as determined by the DOJ hierarchy code. Please see <http://jbsis.courts.ca.gov> under References for the DOJ Offense Code Table and Appendix E for a detailed explanation of categorizing felony case types. Report felony cases according to the most serious charge as defined by the Department of Justice (DOJ) hierarchy of criminal offenses. See Appendix E, DOJ Offense Hierarchy.

Case types can change during the life of a case. If a change occurs within a month, the change is effective on the date of the next workload event following the one in which the change occurred or on the last day of the reporting month in end pending, whichever occurs first. Activity prior to the change in case type is counted in the original case type column. In some instances these changes may also result in differences between the end pending count for a case type in one report month and the beginning pending count in the next month.

10–80	<p><b>specific criminal case types</b> The types of offenses falling into each category are given below. However, where an offense is actually counted is determined by the DOJ hierarchy table.</p> <p><b>10—Homicide:</b> Includes felony offenses from the Penal Code, Sections 187 through 199, and the Vehicle Code, Sections 20000 through 20018.</p> <p><b>20—Forcible rape:</b> Includes felony offenses from the Penal Code, Sections 261 through 269.</p> <p><b>30—Kidnap:</b> Includes felony offenses from the Penal Code, Sections 207 through 210 and 277 through 280.</p> <p><b>40—Assault:</b> Includes felony offenses from Penal Code, Sections 140, 240 through 248, 273, and 346 through 368.</p> <p><b>50—Robbery:</b> Includes felony offenses from Penal Code, Sections 211 through 215 and 470 through 483.</p> <p><b>60—Sexual offense:</b> Includes felony offenses from the Penal Code, Sections 286 through 290 and 311 through 318.</p> <p><b>70—Property offense:</b> Includes felony offenses from the Business and Professions Code, Sections 11010 through 11023, the Penal Code, Sections 112</p>
-------	---

Data matrix		Definition
Row	Column JBSIS	
		<p>through 117 and 424 through 551, the Unemployment Insurance Code, Sections 2101 through 2129, the Vehicle Code, Sections 10850 through 10855, and the Welfare and Institutions Code, Sections 10980 and 11483.</p> <p><b>80—Drug offense:</b> Includes felony offenses from the Health and Safety Code, Sections 11000 through 11651 and the Business and Professions Code, Sections 2200 through 4426.</p> <p>Note: Proposition 36 cases are not specifically identified, since they follow the same process as other cases that are not diverted.</p>
	90	<p><b>other felony</b> Felony cases that cannot be classified within one of the specific categories in case types 10–80.</p>
	100	<p><b>miscellaneous felony petition</b> Other criminal proceedings not specified in the DOJ hierarchy of criminal offenses:</p> <ul style="list-style-type: none"> <li>• that are not statutory offenses</li> <li>• for which there is no existing criminal case in which the petition can be filed</li> <li>• for which a new case must be opened</li> </ul> <p>Examples: Petitions for Certificate of Rehabilitation and Pardon (Pen. Code, § 4852.01), Fugitive Felony Complaints (Pen. Code, § 1551).</p> <p><i>What/how not to report:</i> Do not count the petition in inventory as a new filing if a petition is filed within an existing case, but capture hearings and events related to this petition in workload.</p>
	110	<p><b>reduced to misdemeanor</b> A felony case disposed in felony court under the original felony case number, where the original felony charge(s) no longer exists because:</p> <ul style="list-style-type: none"> <li>• The felony(ies) was reduced to a misdemeanor(s) pursuant to Pen. Code, § 17(b), and other reductions to misdemeanors; or</li> <li>• A conviction occurred only on a misdemeanor charge, and the felony charge(s) was dismissed or acquitted.</li> </ul> <p><i>What/how to report:</i></p> <ul style="list-style-type: none"> <li>• Report a case characteristic for the felony case of “misdemeanor sentence,” row 9400.</li> <li>• Subsequent events and disposition are reported under case type reduced to misdemeanor, column 110, since the most serious charge is now a misdemeanor. Note that there is only one filing (felony) and one disposition (misdemeanor) for this case.</li> <li>• A case reduced to a misdemeanor and refiled by the prosecutor as a misdemeanor case is reported as a disposition, “reduced to/processed as a misdemeanor,” on rows 1100 and 1800 and as a filing, “felony reduced to misdemeanor,” on row 500 of Report 11a, Misdemeanors and Infractions.</li> </ul>
	120	<p><b>habeas corpus</b> A writ of habeas corpus for release of a person imprisoned or whose liberty is restrained or for conditions of confinement (Pen. Code, § 1473).</p>

Data matrix		Definition
Row	Column JBSIS	
<p><b>CASELOAD/CASEFLOW (unit of count = defendant)</b> The unit of count for a criminal case is the defendant. If a criminal complaint names three defendants, report three cases in inventory, one for each defendant.</p> <p>Report 07c captures filings as complaints, indictments, transfers-in, and petitions. 07c captures dispositions at all points in the life of a felony case.</p>		
50	<b>Inventory</b>	An accounting of the number of cases filed, disposed, and pending in the reporting period.
100	10–120	<p><b>beginning pending</b> The number of defendants awaiting disposition before the first day of the reporting period.</p> <p>Note: This element cannot contain negative numbers. See note in “end pending”, row 1200.</p> <p><i>What/how to report:</i> Report according to the most serious pending charge. See Appendix G, DOJ Offense Hierarchy.</p> <p><i>What/how not to report:</i> Cases that are removed from the court’s control are not reported in inventory.</p>
200	10–100 120	<p><b>filings (+) (total rows 300–700)</b> The beginning of a case by the court’s acceptance of the formal submission of a complaint, an indictment, a transfer-in from another jurisdiction, or a miscellaneous felony petition alleging facts and requesting relief.</p> <p>Note: Filings are categorized according to the DOJ’s hierarchy of criminal offenses.</p> <p><i>What/how to report:</i></p> <ul style="list-style-type: none"> <li>• Each defendant named in the complaint or indictment is reported as one filing.</li> <li>• A defendant charged with multiple offenses is reported according to the most serious charge.</li> </ul> <p><i>What/how not to report:</i></p> <ul style="list-style-type: none"> <li>• Do not count a filing for defendants who are discharged prior to the filing of a complaint.</li> <li>• Other documents, such as motions, are not counted as filings for caseload inventory purposes.</li> </ul>
300	10–90	<b>complaint (+)</b> A filing consisting of a formal written accusation made and submitted to a court by a prosecutor, alleging that a specified person(s) has committed a specified offense(s).
400	10–90	<b>indictment (+)</b> A filing consisting of a formal written accusation submitted to a court by a grand jury, alleging that a specified person(s) has committed a specified offense(s). The filing of an indictment bypasses the preliminary stages of criminal procedure and, for JBSIS purposes, is treated similar to an information.
600	10–90	<p><b>transfer-in (+)</b> A filing in which the current court is the recipient of a change of venue or jurisdictional (intracounty) transfer on the motion of the defendant or another court.</p> <p><i>What/how to report:</i> Include cases filed as misdemeanors but upgraded to</p>

Data matrix		Definition
Row	Column JBSIS	
		<p>felonies by the prosecutor or the court.</p> <p><i>What/how not to report:</i> Do not count a transfer between courts of equivalent jurisdiction within the same county as a new filing or another adjustment to case inventory.</p>
700	100 120	<p><b>petition (+)</b> Other criminal proceedings not specified in the DOJ hierarchy of criminal offenses:</p> <ul style="list-style-type: none"> <li>• that are not statutory offenses</li> <li>• for which there is no existing criminal case in which the petition can be filed</li> <li>• for which a new case must be opened</li> </ul> <p>Examples: Petitions for Certificate of Rehabilitation and Pardon (Pen. Code, § 4852.01), Fugitive Felony Complaints (Pen. Code, § 1551), etc.</p> <p><i>What/how not to report:</i> If a petition is filed within an existing case, do not count the petition in inventory as a new filing, but capture hearings and events related to this petition in workload.</p>
800	10–90 110	<p><b>reopened (+)</b> A case that was previously reported as disposed but is resubmitted to the court.</p> <p>Examples: Include reversal on appeal of judgment and the reopening of a case that was previously reported as a jurisdictional (intracounty) transfer.</p> <p><i>What/how to report:</i></p> <ul style="list-style-type: none"> <li>• Include defendants certified to juvenile court and subsequently determined to be unfit for juvenile court (Welf. &amp; Inst. Code, § 707.1).</li> <li>• Report one disposition for each reopened case.</li> </ul> <p><i>What/how not to report:</i></p> <ul style="list-style-type: none"> <li>• Do not include resentencing and/or modification hearings. Report such hearings as postdisposition hearings on row 7300.</li> <li>• Do not age reopened cases.</li> <li>• Do not include cases that were closed in error. Since beginning and end pending do not have to match, submit an amended report after the error is corrected.</li> </ul>
900	10–90 110	<p><b>restored to court's control (+)</b> The status of a case that is available for case processing after it has been removed from the court's control. (Jud. Standards of Admin. § 2.2(n)(2) effective 1/1/07).</p> <p>Note:</p> <ul style="list-style-type: none"> <li>• The time following an event that restores a case to the court's control is added to the time prior to its removal from court's control for the purpose of reporting age of disposed and pending cases.</li> <li>• The events that restore a case to the court's control are: <ul style="list-style-type: none"> <li>○ Appearance following issuance of a warrant.</li> <li>○ Appearance or case resolution following imposition of a civil assessment.</li> <li>○ Resumption of criminal proceedings after: <ul style="list-style-type: none"> <li>▪ Successful or unsuccessful completion of diversion (Pen. Code, § 1000 et seq.),</li> <li>▪ Evaluation of mental competence (Pen. Code, § 1368),</li> <li>▪ Evaluation of narcotics addiction (Welf. &amp; Inst. Code, §§ 3050, 3051),</li> </ul> </li> </ul> </li> </ul>

		<ul style="list-style-type: none"> <li>▪ 90-day diagnostic and treatment services (Pen. Code, § 1203.03),</li> <li>▪ 90-day evaluation period of a juvenile (Welf. &amp; Inst. Code, § 707.2).</li> <li>○ Stay by a higher court or federal court is lifted.</li> <li>○ Stay by the reporting court for active military duty or incarceration is lifted.</li> <li>○ First appearance with counsel (for courts that arraign at first appearance without counsel).</li> </ul>
950	10–120	<p><b>existing case filing entered in CMS (+)</b> A case not previously entered in the case management system and therefore not reported in pending.</p> <p><i>What/how to report:</i> Report at the time an event is calendared and the case is entered in the CMS.</p> <p><i>What/how not to report:</i> Do not include disposed cases that are being calendared for a postdisposition event. Report postdisposition activity in workload.</p>
1000	10–90 110	<p><b>removed from court's control (–)</b> An event that removes a case from the court's control so that the time involved in that event is not counted in aging the case (Jud. Standards of Admin. § 2.2(n)(2) effective 1/1/07).</p> <p>Note:</p> <ul style="list-style-type: none"> <li>• Case aging is suspended from the time the case is removed from court's control until the time it is restored to court's control.</li> <li>• The events that remove a case from the court's control are: <ul style="list-style-type: none"> <li>• Issuance of warrant</li> <li>• Imposition of a civil assessment (Pen. Code, § 1214.1).</li> <li>• Criminal proceedings suspended pending: <ul style="list-style-type: none"> <li>○ Completion of diversion (Pen. Code, § 1000 et seq.),</li> <li>○ Evaluation of mental competence (Pen. Code, § 1368),</li> <li>○ Evaluation as a narcotics addict (Welf. &amp; Inst. Code, §§ 3050, 3051),</li> <li>○ 90-day diagnostic and treatment program (Pen. Code, § 1203.03),</li> <li>○ 90-day evaluation period for a juvenile (Welf. &amp; Inst. Code, § 707.2).</li> </ul> </li> <li>• Stay by a higher court or federal court for proceedings in another jurisdiction.</li> <li>• Stay by the reporting court for active military duty or incarceration.</li> <li>• Time granted by court to secure counsel if the defendant is not represented at the first appearance (for courts that arraign at first appearance without counsel) .</li> </ul> </li> </ul> <p><i>What/how to report:</i> If a defendant is diverted on only one charge of a multiple-charge case, remove the entire case from the court's control.</p>
1100	10–120	<b>total dispositions (–)</b> See row 1300 for definition.
1200	10–120	<p><b>end pending (=)</b> The number of defendants awaiting disposition at the end of the reporting period.</p> <p>Note:</p> <ul style="list-style-type: none"> <li>• End pending for a month does not have to equal beginning pending for the next month. Case type classification changes, technical problems, or delayed data entry can make month-to-month balancing impossible.</li> <li>• In rare instances related to changes in case types (particularly in the case of column 110, reduced to misdemeanor), this element may contain negative</li> </ul>

Data matrix		Definition
Row	Column JBSIS	
		<p>values. This is the only item for which negative numbers can be reported. Normally end pending numbers for one month equal beginning pending for the next month. However, since the negative end pending number is attributable to disposed cases, this does not truly reflect the actual number of beginning pending. Therefore, beginning pending should only reflect those cases that are actually pending at the beginning of the report month.</p> <p><i>What/how to report:</i> Report end pending according to the most serious pending charge on the last day of the reporting period. See Appendix G, DOJ Offense Hierarchy.</p> <p><i>What/how not to report:</i> Do not include cases that remained out of the court's control for the entire reporting month.</p>
1300	10–120	<p><b>dispositions (total rows 1310, 1400, 2000, 2500, 3000, and 3100)</b> The termination of a pending case.</p> <p>Note:</p> <ul style="list-style-type: none"> <li>• A case is not disposed until all the charges in the case have been disposed.</li> <li>• Final disposition means that an acquittal, a dismissal, an order of judgment, entry of an appealable order, or bail forfeiture (case closure) has been entered in the case.</li> </ul> <p><i>What/how to report:</i></p> <ul style="list-style-type: none"> <li>• Report one disposition for each filing.</li> <li>• Report the case according to the most serious manner of disposition and the case type code representing the most severe charge. Seriousness of disposition is determined by the row-order of dispositions. The lowest disposition row number is the least serious and the highest is the most serious. For example, the less serious disposition in the felony report is transfer before preliminary hearing (row 1475) and the more serious disposition conviction after court trial (row 2250). <ol style="list-style-type: none"> <li>1. For single charge cases (only one disposition) use the case type code associated with the offense.</li> <li>2. For multiple charges, determining the case type code depends on the relationship between dispositions and charges. After comparing the dispositions on all charges, select the charge(s) with the most serious disposition (see the row-order of dispositions in the JBSIS reports to determine seriousness). <ol style="list-style-type: none"> <li>a. If there is only one charge with the most serious disposition, use the associated case type code found in the DOJ offense table.</li> <li>b. If there are multiple charges with each having the most severe disposition, compare the hierarchy codes of all such charges and use the case type code of the charge with the lowest hierarchy DOJ value.</li> </ol> </li> </ol> </li> </ul> <p>Example: A defendant is disposed on two charges: PC 209(a), kidnapping for ransom, with a DOJ hierarchy code of 2000; and PC 261, rape, with a DOJ hierarchy code of 5400 . If the charges were disposed in the same manner, for example a sentence following conviction by jury, the hierarchy values of the offenses must be compared. The disposition would be reported using case type code 30, which contains the more severe charge, kidnapping, PC209(a).</p> <p>If the defendant was convicted on only the rape charge and the other charge,</p>

Data matrix		Definition
Row	Column JBSIS	
		<p>kidnapping, was dismissed, the disposition would be reported under case type code 20, which contains the rape offense. While the kidnapping charge has the more severe offense hierarchy code, it resulted in the least serious disposition (i.e., dismissal).</p> <p><i>What/how to report:</i></p> <ul style="list-style-type: none"> <li>• Report one disposition for each filing, reopened case, and existing case entered in the CMS.</li> <li>• Miscellaneous felony and habeas corpus petition (columns 100 and 120) dispositions are reported as before or after hearing on rows 3000 and 3100.</li> </ul>
1310	10–90 110	<p><b>before preliminary hearing (total rows 1311 and 1349)</b> A disposition that occurs prior to the introduction of first evidence in a hearing to determine whether there is sufficient cause to hold the defendant for trial.</p> <p>Note:</p> <ul style="list-style-type: none"> <li>• First evidence is when one or more parties or counsel appear and oral arguments, presentations relevant to the proceedings, witness testimony, and/or documents or tangible objects are submitted to the court.</li> <li>• For JBSIS purposes, waivers of preliminary hearing and Indictments are considered disposed before preliminary hearing, since the preliminary hearing did not occur.</li> </ul>
1311	10–90 110	<p><b>dismissal/transfer (total rows 1312 and 1332)</b> A final disposition before preliminary hearing in which a case is dismissed or transferred.</p>
1312	10–90 110	<p><b>transfer (total rows 1315–1330)</b> A final disposition before preliminary hearing in which a case was transferred.</p>
1315	10–90 110	<p><b>change of venue</b> A final disposition before preliminary hearing in which the venue of a case changes to another county before preliminary hearing.</p>
1320	10–90 110	<p><b>jurisdictional (intracounty) transfer</b> A final disposition before preliminary hearing in which a case is transferred out of the court's jurisdiction to another court within the county.</p> <p><i>What/how to report:</i> Include certifications to juvenile court (Welf. &amp; Inst. Code, § 604).</p> <p><i>What/how not to report:</i> Do not count transfers between courts of equivalent jurisdiction within the same county.</p>
1325	10–90 110	<p><b>consolidated</b> A disposition before trial in which a case is subsumed into another pending (lead) case when the cases involve a common question of law or fact.</p> <p>Note: Under consolidation, all actions in the subsumed case become part of the lead case and are resolved by disposition of the lead case.</p> <p><i>What/how not to report:</i> Do not include cases consolidated only for trial that are not subsumed.</p>
1330	10–90	<p><b>reduced to/processed as misdemeanor</b> A case that was originally charged as a felony but was reduced to a misdemeanor by the prosecutor or the court and refiled as a misdemeanor case.</p>

Data matrix		Definition

6100	10–90 110	<b>motion for a new trial</b> A predisposition hearing on a motion requesting a new trial pursuant to Pen. Code, § 1181.
6150	10–90 110	<b>bail review hearing</b> A predisposition hearing to reduce or increase bail, set bail, or determine source of bail pursuant to Pen. Code, § 1275.
6200	10–90 110	<b>sentencing hearing</b> A predisposition hearing to impose a sentence upon conviction of a felony.  <i>What/how to report:</i> Include reviews of presentencing reports.
6300	10–120	<b>other predisposition hearings</b> A predisposition hearing other than those included on rows 5400–6300.
6400	<b>Trial</b> Workload data regarding trials that are not captured in caseload disposition measures. Report trial data according to the most serious charge pending at the time of the trial.	
6500	10–90 110	<b>mistrial—hung jury</b> A trial terminated prior to its normal conclusion because the court finds that there is no reasonable probability that the jury can agree (Pen. Code, § 1140).
6600	10–90 110	<b>other mistrial</b> A trial terminated prior to its normal conclusion for a reason other than a hung jury.
6700	10–90 110	<b>retrial—hung jury</b> A new trial following a mistrial on a hung jury (Pen. Code, § 1141).
6800	10–90 110	<b>other retrial</b> A new trial following a mistrial (other than because of a hung jury), the granting of a motion for a new trial, or reversal on appeal.
6900	10	<b>penalty phase trial</b> A trial to determine the sentence of death or life without the possibility of parole in a capital homicide case (Pen. Code, § 190.4).
7000	10–90 110	<b>sanity trial</b> A trial to determine whether or not the defendant's sanity at the time the crime was committed was a contributing factor in the crime (Pen. Code, § 1026).
7100	10–120	<b>postdisposition hearing (total rows 7200–7500)</b> A proceeding at which first evidence is presented and heard by a judicial officer after final disposition.  Note: See hearing definition on row 5300.
7200	10–90 110	<b>probation supervision hearing</b> A postdisposition hearing to review the status of formal probation or conditional sentence (Pen. Code, § 1203), probation/conditional sentence modification or termination, and the defendant's compliance with the probation/conditional sentence.  <i>What/how to report:</i> <ul style="list-style-type: none"> <li>• Include hearings to revoke probation.</li> <li>• Include cases transferred in solely for probation supervision.</li> </ul>
7300	10–90 110	<b>resentencing/modification hearing</b> A postdisposition hearing to review the sentence administered in a case and make adjustments as deemed appropriate by the court.  <i>What/how not to report:</i> Do not include probation supervision hearings.

Data matrix		Definition
Row	Column JBSIS	
7400	10–90 110	<b>drug court status hearing</b> A status hearing after disposition to ensure effective supervision of treatment progress for each drug court participant.  <i>What/how to report:</i> Report all status hearings held with each participant.
7500	10–120	<b>other postdisposition hearing</b> A postdisposition hearing other than those included on rows 7200–7400.
7550	<b>Events</b> Data collected to measure workload. Capture the actual number of events occurring during the reporting period. Report on the last day of the reporting period.	
7560	10–90 110	<b>pretrial conference</b> A conference in which the opposing parties in a case meet with the judicial officer prior to trial for the purposes of stipulating those things that are agreed upon and thus narrowing the trial to the issues that are in dispute, disclosing the required information about witnesses and evidence, making motions, and generally organizing the presentation of motions, witnesses, and evidence.
7570	10–90 110	<b>settlement conference</b> A calendared conference that occurs before or after the start of trial among the parties and the judicial officer or other individual given authority by the judge to settle the case, for the specific purpose of settling the case.
7580	10–90 110	<b>Pen. Code, § 1203.03, referral</b> A referral of a defendant convicted of an offense punishable by imprisonment in state prison to the diagnostic facility of the Department of Corrections for 90-day diagnostic and treatment services.
7590	10–90 110	<b>Welf. &amp; Inst. Code, § 707.2, referral</b> A referral of a minor to the custody of the Department of Juvenile Justice (DJJ) for a 90-day period, for evaluation and a report concerning his or her amenability to training and treatment offered by the DJJ.
7595	10–120	<b>continuances (total rows 7600 and 7700)</b> A hearing/trial set on a calendar and recalendared to a future date for the same proceedings, at the request of a party or on the court’s own motion, before any proceedings take place—i.e., before first evidence is presented.  <i>What/how to report:</i> <ul style="list-style-type: none"> <li>• Report all continuances, whether handled by the clerk’s office or in court.</li> <li>• Include stipulated continuance as “continuance—party’s motion.”</li> </ul>
7600	10–120	<b>continuance—court’s motion</b> A hearing/trial set on a calendar and recalendared to a future date, on the court’s own motion.
7700	10–120	<b>continuance—party’s motion</b> A hearing/trial set on a calendar and recalendared to a future date, on a party’s motion.  <i>What/how to report:</i> Report stipulated continuances on this row.
7750	10–90 110	<b>probation supervision transfer-in</b> The transfer of a case into a court’s jurisdiction for the purpose of monitoring probation (Pen. Code, § 1203.9).  <i>What/how to report:</i> Report according to the most serious conviction charge.
7800	10–90 110	<b>probation supervision transfer-out</b> The transfer-out of a case from the court’s jurisdiction for the purpose of monitoring probation (Pen. Code, §1203.9).

Data matrix		Definition
Row	Column JBSIS	
		<i>What/how to report:</i> Report according to the most serious conviction charge.
7850	10–90 110	<p><b>information filed</b> A filing consisting of a formal written accusation made and submitted to a court by a prosecutor, alleging that a specified person(s) has committed a specified offense(s).</p> <p><i>What/how not to report:</i> Do not report the filing of amended informations.</p>
<b>CASE CHARACTERISTICS (unit of count = defendant/action)</b>		
7890		<b>Case characteristics of pending cases</b> Attributes captured once per defendant on the last day of the reporting period for each month the case is pending. Report under the case type column that corresponds with the most serious charge on the date the information is entered in the CMS. If the characteristic affects charges and changes the case type, enter the event under the old case type, but report subsequent events under the new case type.
7900	10–120	<p><b>pro per defendant</b> A defendant who is granted pro per status by the court and is self-represented.</p> <p><i>What/how to report:</i> Report once per month per defendant whose most recent event was held, regardless of when it was held, was pro per.</p> <p><i>What/how not to report:</i> Do not report in month case is disposed.</p>
8000	10–110	<p><b>domestic violence filing</b> A case charging domestic violence as defined under Pen. Code, § 13700.</p> <p>Examples: Filings designated as DV also includes charges per Pen. Code, §§ 136.2(h), 243(e)(1), 273.5, 273.6, etc.</p> <p><i>What/how to report:</i> Report once per defendant in month DV filing is made, and count every month thereafter until case is disposed.</p> <p><i>What/how not to report:</i> Do not report in month case is disposed.</p>
8100	10–90	<p><b>second-strike filing</b> A case that has been charged as a second strike by the district attorney under three-strikes legislation.</p> <p><i>What/how to report:</i> Report in month strike filing is made, and count every month thereafter until case is disposed.</p> <p><i>What/how not to report:</i> Do not report in month case is disposed.</p>
8200	10–90	<p><b>third-strike filing</b> A case that has been charged as a third strike by the district attorney under three-strikes legislation.</p> <p><i>What/how to report:</i> Report in month strike filing is made, and count every month thereafter until case is disposed.</p> <p><i>What/how not to report:</i> Do not report in month case is disposed.</p>
8400	10–110	<p><b>juvenile offender</b> A defendant charged with a felony who was a minor at the time the offense was committed.</p> <p><i>What/how to report:</i> Report in month capital case indicator/charge is set, and</p>

Data matrix		Definition
Row	Column JBSIS	
		report every month thereafter until indicator is removed or case is disposed. <i>What/how not to report:</i> Do not report in month case is disposed.
8700	10 120	<b>capital case</b> A case in which the district attorney is seeking a punishment of death. <i>What/how to report:</i> Report in month strike filing is made and every month thereafter until case is closed. <i>What/how not to report:</i> Do not report in month case is disposed.
8800	10–120	<b>interpreter required</b> A case in which an interpreter is required for the defendant during a court appearance. <i>What/how to report:</i> Report the number of defendants requiring an interpreter during the reporting period, not the number of interpreter appearances. That is, each defendant receives one count per reporting period even if the defendant required an interpreter more than once.
8900	<b>Case characteristics at final disposition</b> Attributes of cases disposed at any point during the report month, captured once per defendant at the time of final disposition. Do not capture characteristics of postdisposition cases.	
9000	10–120	<b>pro per defendant</b> A defendant who is granted pro per status by the court and is self-represented. <i>What/how to report:</i> Report if defendant is in pro per status at the time a disposition is reached (most recent event was held, regardless of when it was held, was pro per).
9100	10–110	<b>domestic violence filing</b> A case charging domestic violence as defined under Pen. Code, § 13700. Domestic violence also includes cases that have been designated as such per Pen. Code, §.  Examples: Filings designated as DV also includes charges per Pen. Code, §§ 136.2(h), 243(e)(1), 273.5, 273.6, etc. <i>What/how to report:</i> Report if case has DV marker on at the time of disposition.
9200	10–90	<b>second-strike filing</b> A case that has been charged as a second strike by the district attorney under three-strikes legislation. <i>What/how to report:</i> Report if case has a strike marker on at the time of disposition.
9300	10–90	<b>third-strike filing</b> A case that has been charged as a third strike by the district attorney under three-strikes legislation. <i>What/how to report:</i> Report if case has a strike marker on at the time of disposition.
9400	40–90	<b>misdemeanor sentence</b> A case that was originally charged as a felony but was reduced to and/or sentenced on a misdemeanor charge. <i>What/how to report:</i> Report in the column of the initial felony case type when the

Data matrix		Definition
Row	Column JBSIS	
		case is disposed with a misdemeanor sentence (the misdemeanor sentence is the highest charge).
9500	10–110	<p><b>juvenile offender</b> A defendant charged with a felony who was a minor at the time the offense was committed.</p> <p><i>What/how to report:</i> Report if case has a juvenile indicator at the time of disposition.</p>
9600	10 120	<p><b>capital case</b> A case in which the district attorney is seeking a punishment of death.</p> <p><i>What/how to report:</i> Report if case has a capital case indicator at the time of disposition.</p>
9700	10–120	<p><b>interpreter required</b> A case in which an interpreter is required for the defendant during a court appearance.</p> <p><i>What/how to report:</i> Report the number of defendants requiring an interpreter, not the number of interpreter appearances—i.e., each defendant receives one count per reporting period even if the defendant required an interpreter more than once.</p>

## Juvenile Delinquency • 08a

### Data Element Definitions

**JUVENILE DELINQUENCY CASES** A major classification category of caseload that includes cases filed against a minor. Juvenile delinquency report captures the trial court’s workload generated by status offenses and delinquency cases in juvenile court.

Juvenile dependency case types are reported according to one of two data collection and reporting standards: the Judicial Branch Statistical Information System (JBSIS) and the Regulations on Statistical Reporting (Portal). The JBSIS standards include a detailed breakdown of cases by case type and disposition, and include workload measures, such as the number of hearings. The Portal standards include fewer case types, dispositions and workload measures than JBSIS. The Portal data elements can be mapped to the JBSIS data matrix, defined below.

Row	Data matrix		Definition
	Column		
	JBSIS	Portal	
<b>CASE TYPES</b>			
<p>JBSIS: Courts reporting via JBSIS standards report counts for juvenile status offenses (W&amp;I § 601, columns 10 and 30), delinquency cases (W&amp;I § 602, columns 20 and 40) and W&amp;I § 777 Notice of Hearings (column 50).</p> <p>Portal: Courts reporting via Portal standards report counts for juvenile status offenses (W&amp;I § 601, columns 05 and 25), delinquency cases (W&amp;I § 602, columns 15 and 35) and W&amp;I § 777 Notice of Hearing (column 45). W&amp;I § 777 Notice of Hearing (column 45) is captured as a data element row in Portal but is mapped to column 45 in the data matrix.</p>			
	10	05	<p><b>Status Offense (Welf. &amp; Inst. Code, § 601)—Original</b> A petition filed alleging that the minor is habitually disobedient or truant (a status offender) and may be declared a ward of the court as described by Welf. &amp; Inst. Code, § 601.</p> <p>Note: Whether or not the minor was a previously discharged ward of the court is not relevant.</p> <p><i>What/how to report:</i> Include minors that are certified from another court and are not wards of the receiving court on the date the offense was committed.</p> <p>Portal: <i>Regulations on Statistical Reporting</i>, Form 1A, Part III. Juvenile: 601 W&amp;I Original.</p>
	20	15	<p><b>Delinquency (Welf. &amp; Inst. Code, § 602)—Original</b> A petition filed wherein the petitioner alleges the violation of some criminal statute, as provided in section W&amp;I 602 or alleges failure of the minor to obey some lawful order of the court.</p> <p>Note: Whether or not the minor was a previously discharged ward of the court is not relevant.</p> <p><i>What/how to report:</i> Include minors who were certified from another court and were not wards of the receiving court on the date the offense was committed.</p> <p>Portal: <i>Regulations on Statistical Reporting</i>, Form 1A, Part III. Juvenile:</p>

Data matrix			Definition
Row	Column		
	JBSIS	Portal	
			602 W&I Original.
	30	25	<p><b>Status Offense (Welf. &amp; Inst. Code, § 601)—Subsequent</b> A subsequent petition filed alleging that a ward of a court has committed additional acts of disobedience or truancy (a status offender).</p> <p>Portal: <i>Regulations on Statistical Reporting</i>, Form 1A, Part III. Juvenile: 601 W&amp;I Subsequent.</p>
	40	35	<p><b>Delinquency (Welf. &amp; Inst. Code, § 602)—Subsequent</b> A subsequent petition filed alleging that a ward of the court has committed additional acts that have violated laws defining crimes.</p> <p>Portal: <i>Regulations on Statistical Reporting</i>, Form 1A, Part III. Juvenile: 602 W&amp;I Subsequent.</p>
	50	45	<p><b>Welf. &amp; Inst. Code, § 777 notice</b> A notice of hearing (formerly supplemental petition) alleging that the minor violated a court order or condition of probation not amounting to a crime (Cal. Rules of Court, rule 5.580; Welf. &amp; Inst. Code, § 777).</p> <p>Note:</p> <ul style="list-style-type: none"> <li>• Most notices request an order to change or modify the previous order by removing the minor, who is a ward of the court or a probationer, from the physical custody of a parent, guardian, relative, or friend for placement in a foster home or commitment to a private or county institution or to the Department of Juvenile Justice (Judicial Council forms JV-735).</li> <li>• “Supplemental Petitions” refer to those petitions filed to amend the results of a previous disposition and not to allege new matters.</li> <li>• Other notices just allege violation of court orders or conditions of probation without requesting change in placement.</li> </ul> <p>JBSIS: Count hearings on change of placement on row 3700. Count hearings on violation of probation on row 3500.</p> <p>Portal: <i>Regulations on Statistical Reporting</i>, Form 1A, Part III., Other data: Supplemental Petition Hearings 777 W&amp;I. Hearings held on petitions filed under Section 777 of the W&amp;I Code to change the placement or commitment of a ward or dependent child of the juvenile court.</p>

**CASELOAD/CASEFLOW (unit of count = minor)** Each juvenile named in a petition is reported as one case, whether it is an initial, subsequent or W&I 777 filing.

50	<b>Inventory</b> An accounting of the number of initial, subsequent petitions or notices filed, disposed, and pending in the reporting period.	
100	10 20 30 40 50	<b>beginning pending</b> The number of petitions or notices awaiting disposition before the first day of a reporting period.

## Juvenile Dependency • 09a

### Data Element Definitions

**JUVENILE DEPENDENCY CASES** A broad classification of cases filed on behalf of a minor by a social services agency, the parents, the minor, or others interested in the welfare of the minor. Report 09a captures the trial courts' workload generated by juvenile dependency cases. The purpose of this type of proceeding is to provide safety and protection for children who are abused, neglected, exploited, or at risk of harm. All of the social and health services provided to the child(ren) and family require court supervision.

Juvenile dependency case types are reported according to one of two data collection and reporting standards: the Judicial Branch Statistical Information System (JBSIS) and the Regulations on Statistical Reporting (Portal). The JBSIS standards include a detailed breakdown of cases by case type and disposition, and include workload measures, such as the number of hearings. The Portal standards include fewer case types, dispositions and workload measures than JBSIS. The Portal data elements can be mapped to the JBSIS data matrix, defined below.

Data matrix			Definition
Row	Column		
	JBSIS	Portal	
<b>CASE TYPES</b>			
<p>JBSIS: Courts reporting via JBSIS standards report counts for juvenile dependency cases under W&amp;I § 300 (columns 10), W&amp;I § 342 (columns 20), W&amp;I § 387 Notice of Hearing (column 30), and adoptions of dependants of the court (adoptions per Family Code § 8600 are reported separately on family law report 06a).</p> <p>Portal: Courts reporting via Portal standards report counts for juvenile dependency cases under W&amp;I § 300 (columns 05), W&amp;I § 342 (columns 15), and W&amp;I § 387 Notice of Hearing (column 25). W&amp;I § 387 Notice of Hearing (column 25) events are not captured in inventory but only in workload.</p>			
	10	05	<p><b>Dependency Welf. &amp; Inst. Code, § 300—Original</b> A petition filed by the social worker alleging that a minor comes within the jurisdiction of the juvenile court under one or more subdivisions of Welf. &amp; Inst. Code, § 300.</p> <p>Note: Whether or not the minor was a previously discharged dependent child of the court is not relevant.</p> <p><i>What/how to report:</i> Include minors who were certified from another court and are not dependents of the receiving court on the date the dependency was established.</p> <p>Portal: <i>Regulations on Statistical Reporting</i>, Form 1A, Part III. Juvenile: 300 W&amp;I Original.</p>
	20	15	<p><b>Dependency Welf. &amp; Inst. Code, § 342—Subsequent</b> A subsequent petition alleging new facts or circumstances relating to a dependent who has been found to be a person described by Welf. &amp; Inst. Code, § 300.</p> <p>Portal: <i>Regulations on Statistical Reporting</i>, Form 1A, Part III. Juvenile: 300 W&amp;I Subsequent.</p>
	30	25	<p><b>Placement Welf. &amp; Inst. Code, § 387—Supplemental</b> A supplemental petition (Judicial Council form JV-150) filed to remove a minor from physical custody of a parent, guardian, relative, or friend and directing placement in a foster home or placement in a private or county institution</p>

1290	<b>Inventory (minors under court's supervision)</b>		
1300	10		<p><b>beginning minors under court's supervision</b> The number of minors awaiting termination of dependency on the first day of a reporting period.</p>
1400	10		<p><b>dependents added to supervision (+)</b> The number of minors declared dependents of the court during the reporting period.</p> <p><i>What/how to report :</i></p> <ul style="list-style-type: none"> <li>• Include minors declared dependents following the filing of a petition pursuant to Welf. &amp; Inst. Code, § 332 alleging that a previous petition has been sustained and has been ineffective (Welf. &amp; Inst. Code, § 332).</li> <li>• Include supervision cases on change of venue where the minor is a dependent. Add the case on this row and maintain the case in this section until dependency is terminated.</li> </ul>
1450	10		<p><b>existing case entered in CMS (+)</b> A juvenile dependency case under the court's supervision that was not previously entered in the case management system and therefore was not reported in pending.</p> <p><i>What/how to report :</i> Existing cases are reported at the time an event is calendared and the case is entered in the CMS.</p>
1500	10		<p><b>termination of dependency (-)</b> The court orders termination of the dependency.</p>
1550	10		<p><b>change of venue (-)</b> A termination in which the venue of a case changes to another county.</p>
1600	10		<p><b>end minors under court's supervision (=)</b> The number of minors awaiting termination of dependency on the last day of a reporting period.</p>
1690	<p><b>Case Aging</b> While there is a common perception that juvenile cases are in the court system for extended periods of time, no real data exist to support this perception. Therefore, it was determined that aging would be collected in JBSIS for cases in which the minor became a dependent of the court. Dependencies that are terminated (case closed) are aged on rows 1800-2100; dependencies that are under court supervision (pending) are aged on rows 2300-2600.</p>		
1700	<b>age of terminated cases</b>		

Data matrix			Definition
Row	Column		
	JBSIS	Portal	
1800–2100	10		<p><b>age of terminated cases</b> The numbers of cases falling into the following time intervals, beginning with the date the initial petition was filed and ending with date of dependency termination:</p> <p style="padding-left: 40px;">0 - LT 18 months 18 months–LT 3 years 3–5 years GT 5 years</p> <p><i>What/how to report :</i></p> <ul style="list-style-type: none"> <li>• Each juvenile named in the initial petition is reported as one case and aged independently.</li> <li>• For cases transferred in, aging is calculated from the date the initial petition was filed in the court of original jurisdiction.</li> </ul>
2200	<b>age of cases under court’s supervision</b>		
2300–2600	10		<p><b>age of cases under court’s supervision</b> The numbers of cases pending termination of dependency at the end of the reporting period that fall into each of the following time intervals from the date the initial petition was filed:</p> <p style="padding-left: 40px;">0 - LT 18 months 18 months–LT 3 years 3–5 years GT 5 years</p> <p><i>What/how to report :</i></p> <ul style="list-style-type: none"> <li>• Each juvenile named in the initial petition is reported as one case and aged independently.</li> <li>• For cases transferred in, aging is calculated from the date the initial petition was filed in the court of original jurisdiction.</li> </ul>
<p><b>WORKLOAD (unit of count = action)</b> Data collected to reflect workload. Report on the last day of the reporting period. Capture the actual number of events occurring during that reporting period.</p> <p>JBSIS: Juvenile contains reporting on an extensive number of hearings, most of which require additional data on whether the hearing was “contested” or “uncontested”. In the case of hearings, contested means that the recommendations of social services were opposed and uncontested means that the recommendations were not opposed.</p> <p>A W&amp;I § 366.26 hearing is the only workload event where the outcome of the hearing is reported in addition to the occurrence of the hearing itself. These hearings are very important as they determine if the parents’ rights should be terminated and the child freed for adoption, placed in a legal guardianship or Planned Permanent Living Arrangement (long-term foster care).</p> <ul style="list-style-type: none"> <li>• occurrence of the hearing, whether it is uncontested or contested, and time period are reported on rows 3150-3175.</li> <li>• outcome of the hearing is reported on rows 5900-6400.</li> </ul>			
2700	10 20 30 40	05 15 25	<p><b>hearings</b></p> <p>JBSIS: Formal proceedings held to decide issues of fact or law arising in the course of a court action.</p> <p>Examples: Hearings on motions, OSCs, review hearings, etc.</p>

			or referee pursuant to the provisions of section 632 or 637 of W&I code.
2800	10 20 30		<p><b>detention hearing (in custody)</b> A hearing to advise the minor and/or his or her parent or guardian about why the minor was taken into custody, the nature of the juvenile court proceedings, and the rights of the minor and the parent or guardian, and to determine the minor's predisposition custody status (Welf. &amp; Inst. Code, §§ 316, 319).</p> <p><i>What/how to report:</i> Some courts divide the jurisdictional hearing into two hearings. At the first hearing, the petition is read and advisement of rights given and the party(ies) can contest or admit the allegations or enter no-contest. The second hearing is the evidentiary hearing on the petition. Both hearings are reported in the appropriate category as determined by the court, e.g.. a detention or first appearance hearing (row 2800), and the second reported under other hearing (row 3200).</p>
2850	10 20 30		<p><b>first appearance hearing (out of custody)</b> A hearing to advise the minor and/or his or her parent or guardian about the nature of the juvenile court proceedings and the rights of the minor and the parent or guardian, and to determine the minor's predisposition custody status (Welf. &amp; Inst. Code, §§ 358(a)(2)).</p> <p><i>What/how to report:</i> Some courts divide the jurisdictional hearing into two hearings. At the first hearing, the petition is read and advisement of rights given and the party(ies) can contest or admit the allegations or enter no-contest. The second hearing is the evidentiary hearing on the petition. Both hearings are reported in the appropriate category as determined by the court, i.e. a detention or first appearance hearing (row 2850), and the second reported under other hearing (row 3200).</p>
2900	10 20 30		<p><b>disposition hearing (total rows 2910 and 2920)</b> A hearing to determine the proper placement of a minor found to be a person described in Welf. &amp; Inst. Code, § 300 (Welf. &amp; Inst. Code, § 358), and other issues related to the minor's circumstances.</p>
2910	10 20 30		<p><b>uncontested disposition hearing</b> A disposition hearing in which the recommendations of social services are not opposed.</p>
2920	10 20 30		<p><b>contested disposition hearing</b> A disposition hearing in which the recommendations of social services are opposed.</p>
2950	10		<p><b>Welf. and Inst. Code, § 388 hearing</b> A hearing on a motion filed by a parent, the child, or other person with an interest in a child who is a dependent of the juvenile court (Judicial Council form JV-180) seeking to modify, change, or set aside an order or terminate jurisdiction of the court because of a change of circumstance or new evidence.</p>
3000	10 20 30 40		<p><b>sealing of records hearing</b> A hearing on a petition to seal a minor's dependency records (Welf. &amp; Inst. Code, § 389).</p> <p><i>What/how to report:</i> Report only the hearings that are conducted for petitions filed within existing cases.</p>

## Mental Health • 10a

### Data Element Definitions

**MENTAL HEALTH CASES** A broad classification of cases in which a trial court is asked to legally determine probable cause or lack of capacity of an individual due to:

- mental illness
- developmental disability
- mental retardation
- addiction to narcotics
- or, in the case of an individual who has committed a crime, his or her competency to stand trial
- and whether the individual should be placed or should remain under care, custody, and treatment.

Mental health case types are reported according to one of two data collection and reporting standards: the Judicial Branch Statistical Information System (JBSIS) and the Regulations on Statistical Reporting (Portal). The JBSIS standards include a detailed breakdown of cases by case type and disposition, and include workload measures, such as the number of hearings. The Portal standards include fewer case types (just one case type for mental health), dispositions and workload measures than JBSIS. The Portal data elements can be mapped to the JBSIS data matrix, defined below.

Data matrix			Definition
Row	Column		
	JBSIS	Portal	
<b>CASE TYPES</b>			
<p>JBSIS: Courts reporting via JBSIS standards report varied case types that include proceedings for persons who are mentally ill, developmentally disabled, mentally retarded, addicted to drugs, incompetent to stand trial for a criminal offense, insane at the time of a crime, and other miscellaneous proceedings. Not all cases types are handled by every court. Some courts process mental health cases differently from others. For example Lanterman Petris Short (LPS) conservatorships might be handled in the probate division in some courts and the mental health division in others. Regardless of where the cases are processed, please report under the case columns as defined in JBSIS.</p> <p>Portal: Courts reporting via Portal standards report counts for mental health cases in total (column 05).</p>			
	00		<p><b>pre-JBSIS mental health</b> A mental health case filed prior to JBSIS implementation in which a specific JBSIS case type cannot be determined by the case management system (CMS).</p> <p>Note: Case type 00, pre-JBSIS, is included to permit a court to report pending probate cases entered in their case management system prior to JBSIS v2 implementation where the case type category is unknown. Usually, when the case is scheduled for an event, the case type is determined and the count subtracted from the pre-JBSIS column and added to the new case type column.</p>
		05	<p><b>mental health (1A)</b> <i>Regulations on Statistical Reporting, Form 1A, Part II. Mental Health.</i> Include all mental health cases.</p> <p><i>What/how to report:</i> Report all mental health petitions only if they are initial filings and not part of existing court cases. This may occur when the respondent resides in a county that is not the county where the original court case was filed.</p>

Data matrix			Definition
Row	Column		
	JBSIS	Portal	
10			<p><b>certification (Welf. &amp; Inst. Code, §§ 5250, 5260, 5270.10)</b></p> <ul style="list-style-type: none"> <li>• <b>Welf. &amp; Inst. Code, § 5250</b>—A 14-day certification to detain and treat a person who, owing to a mental disorder or chronic alcoholism, is alleged to be a danger to self and/or others and/or is gravely disabled.</li> <li>• <b>Welf. &amp; Inst. Code, § 5260</b>—An additional 14-day certification to detain and treat a person who, owing to a mental disorder or chronic alcoholism, is alleged to be suicidal.</li> <li>• <b>Welf. &amp; Inst. Code, § 5270.10</b>—A 30-day certification to detain and treat a person who, owing to a mental disorder or chronic alcoholism, remains gravely disabled at the conclusion of the 14-day hold.</li> </ul> <p>Note: Filings may differ depending on how mental health cases are handled in a county. In some counties, the first document filed with the court is not a certification but a Riese petition or writ of habeas corpus; these are defined under column 130.</p> <p><i>What/how to report:</i> The filing and disposition of certifications are reported on rows 2700 and 2800, not in the inventory or supervision sections.</p>
20			<p><b>postcertification treatment (Welf. &amp; Inst. Code, § 5300)</b> A petition filed by the district attorney or county counsel for an order requiring a person confined for 14-day intensive treatment to undergo an additional treatment period of 180 days because he or she poses a demonstrable danger to others.</p>
30			<p><b>LPS conservatorship (Welf. &amp; Inst. Code, § 5350)</b> A petition seeking a conservatorship for the person or person and estate of someone who is gravely disabled as a result of a mental disorder or impairment by chronic alcoholism.</p>
40			<p><b>narcotics addict (Welf. &amp; Inst. Code, §§ 3050, 3051)</b></p> <ul style="list-style-type: none"> <li>• <b>Welf. &amp; Inst. Code § 3050</b>—A petition filed by the district attorney seeking to commit a defendant convicted of a misdemeanor or infraction to the director of corrections for confinement in a narcotics detention, treatment, and rehabilitation facility.</li> <li>• <b>Welf. &amp; Inst. Code § 3051</b>—A petition filed by the district attorney seeking to commit a defendant convicted of a felony to the director of corrections for confinement in a narcotics detention, treatment, and rehabilitation facility.</li> </ul>
50			<p><b>commitments (Pen. Code, § 2966)</b> A petition filed by a prisoner who disagrees with the decision of the Board of Prison Terms that he or she met the criteria of Pen. Code, § 2962 as of the date of the Board's hearing.</p>
60			<p><b>mental competency (Pen. Code, § 1368)</b> A mental health case in which the defendant was found not competent to stand trial.</p>
70			<p><b>not guilty by reason of insanity (Pen. Code, § 1026)</b> A mental health case in which a defendant was found not guilty of a crime by reason of insanity.</p> <p><i>What/how not to report:</i> Pen. Code § 1026 cases are not reported in the initial petition inventory section. Instead, after a finding of insanity, the case enters the mental health report on row 1800, Cases added to supervision. JBSIS tracks only supervision inventory and workload.</p>

Data matrix			Definition
Row	Column		
	JBSIS	Portal	
	80		<p><b>mentally disordered sex offender (Pen. Code, § 6300)</b> A petition filed by the district attorney for extended commitment of a person found to be a mentally disordered sex offender.</p> <p><i>What/how to report:</i> There should be no new filings in this category because this code section was repealed. The case initially enters the mental health report on row 1850, Existing cases added to supervision. JBSIS tracks only supervision inventory and workload.</p>
	90		<p><b>sexually violent predator (Welf &amp; Inst. Code, § 6600)</b> A petition filed by the district attorney or county counsel seeking to commit a person to the state Department of Mental Health as a sexually violent predator.</p>
	100		<p><b>juvenile (Welf. &amp; Inst. Code, § 1800)</b> A petition filed by the district attorney seeking an order directing that an individual remain under the control of the Department of Juvenile Justice beyond the time of discharge because the person would be physically dangerous to the public.</p>
	110		<p><b>mentally retarded and dangerous (Welf. &amp; Inst. Code, § 6500)</b> A petition requested by a parent, a guardian, a conservator, or another person charged with support of the mentally retarded person; the probation officer; the Department of Juvenile Justice; any person designated by the judge of the court; the director of corrections, or the regional center director, asking the district attorney to file a petition to commit a mentally retarded person who has been found to be a danger to self or others by the state Department of Developmental Services.</p> <p><i>What/how to report:</i> Orders of commitment expire after one year and subsequent petitions for additional periods of commitment are reported in row 3300 and disposed in either row 3500 or 3600.</p>
	120		<p><b>In re Hop (case law) (developmentally disabled)</b> A petition filed by the regional center seeking commitment of a developmentally disabled person to a state Developmental Center (case law, <i>In re Hop</i>, 29 Cal.3d 82).</p> <p><i>What/how to report:</i> Report in this column any petitions filed under Welf. &amp; Inst. Code, § 4500.</p>
		125	<p><b>other mental health (1A)</b> <i>Regulations on Statistical Reporting</i>, Part VI. Habeas Corpus: Other. Include non-criminal habeas corpus petitions.</p> <p><i>What/how to report:</i> Report non-criminal habeas corpus petitions only if they are initial filings and not part of existing court cases. This may occur when the respondent resides in a county that is not the county where the original court case was filed. Criminal habeas corpus petitions are reported in the felony report 7b.</p>
	130		<p><b>other mental health</b> Other mental health petitions not defined in columns 10 – 120.</p> <p><i>What/how to report:</i> Report the following petitions in this column when they are the initial filing and not part of an existing court case. If there is an existing court case, report on rows 2900–3700 unless instructed otherwise.</p> <p><b>1. Welf. &amp; Inst. Code, § 5332 (Riese hearing)</b> A petition for a hearing to</p>

Data matrix			Definition
Row	Column		
	JBSIS	Portal	
			<p>determine a patient's capacity to refuse medication.</p> <p><b>2. Welf. &amp; Inst. Code, § 5326.7 (convulsive treatment)</b> A petition to determine an involuntary or a voluntary patient's capacity to give written informed consent to convulsive treatment.</p> <p><b>3. Welf. &amp; Inst. Code, § 5150 hold.</b> Use Column 130 only when the individual is the subject of a Welf. &amp; Inst. Code, § 5150 hold. Report on row 3000 (subsequent petition) if the individual is:</p> <ul style="list-style-type: none"> <li>• on an existing hold order under a Welf. &amp; Inst. Code, § 5250, 5260, or 5270.10 certification;</li> <li>• the subject of postcertification treatment; or</li> <li>• an LPS conservatee.</li> </ul> <p><b>4. Welf. &amp; Inst. Code, § 8102 (weapons)</b> A petition filed by a law enforcement agency for a hearing to determine whether the return of a firearm or other deadly weapon to a person detained for examination of his/her mental condition would result in endangerment to self or others.</p> <p><b>5. Welf. &amp; Inst. Code, § 8103 (weapons)</b> A petition filed by an individual requesting the lifting of the restriction placed on his or her ownership, possession, control, receipt, or purchase of a firearm or deadly weapon.</p> <p><b>6. Writ of habeas corpus</b> Report in this column only if the petition is the initial filing and there is no existing court case. This may occur when the respondent resides in a county that is not the county where the original court case was filed.</p>
<p><b>CASELOAD/CASEFLOW (unit of count = case)</b> A case is the unit of count and consists of the filing of a petition. However, an initiating document may not always be filed in all mental health cases because of the need for expediency or local practices. A determination in court on a defendant's status can initiate a "filing" on the mental health report (see definition).</p> <p>JBSIS: In addition, some "filings" are not reported in the inventory section. For example, case type 10 (certifications W&amp;I § 5250/5260/5270) is first reported on row 2700. While certifications do result in workload, they are not considered court filings. Case type 70 (not guilty by reason of insanity (Pen. Code, §1026)) is first reported on row 1800, cases added to supervision, after a finding of insanity because there is no petition filed for these cases. Processing of mental health cases may vary by court, for example, Lanterman Petris Short (LPS) conservatorships might be handled in the probate division in some courts and the mental health division in others. Regardless of where the cases are processed, they are to be counted on the mental health report.</p>			
50	<b>Inventory</b>		An accounting of the number of initial petitions filed, disposed, and pending in the reporting period.
100	00 20-60 90-130		<p><b>beginning pending</b> The number of initial petitions awaiting disposition before the first day of a reporting period.</p> <p>Note: This element cannot contain negative numbers. See note in "end pending", row 400.</p>
200	20-60 90-130	05 125	<p><b>initial petition filed (+)</b></p> <p>JBSIS: The beginning of a court case by formal submission of an initial petition or a certification alleging the facts and requesting relief or</p>

			<p>by the transfer-in of a case from another jurisdiction. Include declarations and waivers from courtroom proceedings in Welf. &amp; Inst. Code, § 3050 and § 3051 cases and Pen. Code, § 1368 cases.</p> <p>Except for circumstances specified under case types 10, 70, 80, and 130, report initial petitions as mental health filings whether the initiating document is filed in an existing case or as a separate case.</p> <p>Petitions or certifications may not be filed in all mental health cases because of the need for expediency or local practices. A determination in court on the defendant's status can initiate a "filing" on the mental health report.</p> <p>Example: Upon oral motion of the district attorney, the court finds a defendant not competent to stand trial and immediately commits the defendant to a state hospital. Although a petition was not actually filed, report:</p> <ul style="list-style-type: none"> <li>• filing—initial petition, column 60</li> <li>• disposition—court finding, row 1300</li> <li>• added to supervision—row 1800</li> </ul> <p>Portal: <i>Regulations on Statistical Reporting</i>, Form 1A, Part II, Number of petitions and affidavits filed and Part VI. Petitions Filings. Report each petition, affidavit filed or certification made seeking to detain a person under the provisions of the Lanterman-Petris-Short Act (with two exceptions listed below) to examine or detain a person as mentally retarded, or a narcotic addict under Welfare and Institution Code sections, or to determine the present sanity of a criminal defendant. Report each initial petition filed for writs of habeas corpus seeking the release of criminal defendants or others.</p> <p>Proceedings under the Lanterman-Petris-Short Act:</p> <ul style="list-style-type: none"> <li>• Report each petition that seeks to confine a person for additional involuntary treatment (180 days).</li> <li>• Do not report any certification that seeks to detain a person for intensive treatment (14 days or less), or any petition seeking a court ordered evaluation (when a person is detained 72 hours or less).</li> <li>• Do not report conservatorship proceedings incapacitated persons. Report such matters under "Probate and Guardianship."</li> </ul> <p>Proceedings under Other Welfare and Institutions Code Sections:</p> <ul style="list-style-type: none"> <li>• Report petitions that seek to commit a person as mentally retarded.</li> <li>• Report petitions that seek to commit a person as a narcotic addict or when a committed person files a written demand for a jury trial.</li> <li>• Report petitions directed by the juvenile court seeking commitment of a minor as a mentally retarded person.</li> </ul>

## Misdemeanors and Infractions • 11a

### Data Element Definitions

**MISDEMEANOR AND INFRACTION CASES** Misdemeanors are a category of crimes that are punishable, in the discretion of the court, by imprisonment in county jail, by fine, or by both (Pen. Code §17). Infractions are a category of crimes other than felonies and misdemeanors, punishable by a fine or other penalty but not by incarceration. The Misdemeanor and Infraction report captures trial court workload generated by the filing of complaints issued by the District Attorney, and citations issued by law enforcement agencies and agencies with appropriate authority, such as California Fish & Game, County Animal Control, etc.

Misdemeanor and infraction case types are reported according to one of two data collection and reporting standards: the Judicial Branch Statistical Information System (JBSIS) and the Regulations on Statistical Reporting (Portal). The JBSIS standards include a detailed breakdown of cases by case type and disposition, and include workload measures, such as the number of hearings. The Portal standards include fewer case types, dispositions and workload measures than JBSIS. The Portal data elements can be mapped to the JBSIS data matrix, defined below.

**Effective July 2011:** AB2499 requires the reporting of a defendant's successful completion of a course at a DMV licensed traffic violator school as a "confidential conviction" rather than a "dismissal." For JBSIS reporting courts, a defendant's successful completion of traffic school will no longer be reported as a "dismissal after diversion," row 1600, but as a conviction in row 1400, 2000, 2100 or 2800. For Portal reporting courts, a defendant's successful completion of traffic school is reported in row 1400, 2000, or 2790.

	JBSIS	Portal	

#### CASE TYPES

JBSIS: Courts report via JBSIS standards adhere to the reporting rules below:

1. Case types can change during the life of a case. If this occurs, report the new case type on the last day of the reporting month, even though it was. If a change occurs within a month, the change is effective on the date of the next workload event following the one in which the change occurred or on the last day of the reporting month in end pending, whichever occurs first. Activity prior to the change in case type is counted in the original case type column. In some instances these changes may also result in differences between the end pending count for a case type in one report month and the beginning pending count in the next month.
2. In cases with multiple criminal charges, report the case under the case type carrying the most severe sentence, as determined by the DOJ hierarchy code. Please see <http://jbsis.courts.ca.gov> under References for the DOJ Offense Code Table and Appendix E for a detailed explanation of categorizing felony case types. Report felony cases according to the most serious charge as defined by the Department of Justice (DOJ) hierarchy of criminal offenses. See Appendix E, DOJ Offense Hierarchy.
3. When a case starts as a misdemeanor but only an infraction remains due to dismissal or reduction of charges, the misdemeanor is disposed and the case moves to infraction column 290 or 300 for a second disposition. This will result in a minor inflation of infraction dispositions until new case types for misdemeanors reduced to infractions/ordinances are added to JBSIS in the future.

**Note:** For courts that prefer to dispose these cases as infractions/ordinances only, report the outcome in the traffic or non-traffic infraction/ordinance case type column using the appropriate misdemeanor or infraction/ordinance disposition and case aging (rows), regardless of whether the cell is shaded out on the data matrix. A court deciding to take this approach should contact the AOC for details.

4. Failure to appear or pay (Veh. Code, § 40508(a), (b)): This charge is subject to Pen. Code, §

<p>sentence, as determined by the DOJ hierarchy code. Please see <a href="http://jbsis.courts.ca.gov">http://jbsis.courts.ca.gov</a> under References for the DOJ Offense Code Table and Appendix E for a detailed explanation of categorizing criminal case types.</p> <p>Although a case is classified by the most serious charge at time of filing, it is disposed according to the most serious charge and most severe manner of disposition. These criteria may cause the case to move to another case type so although filings and dispositions will balance across the entire report, they may not balance within a particular case type. This reclassification of cases subtracts one count from one case type and adds one count to “beginning pending” of the new case type. This movement is facilitated by the fact that “beginning pending” for a month does not have to equal “end pending” of the previous month. A change in case type is effective on the date of the next workload event following the one in which the change occurred or on the last day of the reporting month, whichever occurs first.</p>			
50	<b>Inventory</b>	An accounting of the number of cases filed, disposed, and pending in the reporting period.

			<p><i>What/how to report:</i> Report end pending according to the most serious pending charge on the last day of the reporting period. See Appendix G, DOJ Offense Hierarchy.</p> <p><i>What/how not to report:</i> Do not include cases that remained out of the court's control for the entire reporting month.</p> <p>JBSIS: End pending for a month does not have to equal beginning pending for the next month. Case type classification changes, technical problems, or delayed data entry can make month-to-month balancing impossible.</p> <p>In rare instances related to changes in case types, this element may contain negative values. This is the only item for which negative numbers can be reported. Normally end pending numbers for one month are beginning pending for the next month. However, since the negative end pending number is attributable to disposed cases, this does not truly reflect the actual number of beginning pending. Therefore, beginning pending should only reflect those cases that are actually pending at the beginning of the report month.</p> <p>Portal: <i>Regulations on Statistical Reporting, Form 2C, Case Inventory: Ending Pending Cases.</i></p>

#### Disposed Cases in Ascending Stage and Outcome Hierarchy

900	210–250 260–280 290 300–310	200 205 255 285 295	<p><b>dispositions (total rows 950, 1500, 2100, 2500, 3000, 3500, and 3600)</b> The termination of a pending case.</p> <p>Note:</p> <ul style="list-style-type: none"> <li>• A criminal case is not disposed until all the charges in the case have been disposed.</li> <li>• Final disposition means that a change of venue, an acquittal, a dismissal, a judgment, entry of an appealable order, bail forfeiture (case closure), or another disposition as defined by JBSIS has been entered in the case for all charges.</li> <li>• Seriousness of disposition is determined by the row order of dispositions. The lowest disposition row number is the least serious and the highest is the most serious. For example: <ul style="list-style-type: none"> <li>○ the least serious disposition in the misdemeanor report is change of venue before trial (row 1000).</li> <li>○ the most serious is sentenced—jury verdict of guilt (row 3400).</li> </ul> </li> </ul> <p>Example: A defendant is disposed on two charges: PC 148(a)(1), obstructing a peace officer, with a hierarchy code of 89500; and PC 484(a), petty theft, with a hierarchy code of 104400. If the charges were disposed in the same manner, for example, a sentence following conviction by jury, the hierarchy values of the offenses must be compared. The disposition would be reported using case type code 210, which contains the more severe charge, PC 148(a)(1), obstructing a peace officer.</p> <p>If the defendant was convicted on only the petty theft and the other charge,</p>
-----	--------------------------------------	---------------------------------	---

3600	310		<b>disposition after hearing</b> A disposition of a parking appeal after the appearance of the defendant in court before a judicial officer.

**Case Aging (Gov. Code, § 68604; Cal. Stds. Jud. Admin., § 2.2)** Misdemeanor cases are aged until defendants are sentenced or the case is otherwise disposed. However, if a case is removed from the court's control aging stops and is not restored until an event occurs that reactivates the case. Report the number of cases falling into each of the following time intervals.

Cases are not aged nor reported in pending inventory while the case is out of court's control but any activity occurring during this period, such as a drug court status hearing, would be reported under Workload.

Additional notes to consider when reporting case aging:

- Infraction cases, reopened cases, and misdemeanor cases reduced to infractions, are not aged.
- Cases transferred in are aged from the complaint arraignment date in the original jurisdiction.
- Infractions upgraded to misdemeanors are aged according to the date of arraignment on the misdemeanor charge.

3700	<b>Age of disposed misdemeanor cases</b> Report all disposed cases under the case type that corresponds with the most serious charge at date of disposition. Exclude the time the case was removed from the court's control.	
	<ul style="list-style-type: none"> <li>• Cases with appearance: age from the arraignment date to the disposition date.</li> <li>• Cases without appearance: age from the date the case was filed to the disposition date.</li> </ul>

6600	210–250 260–280 290 300		<p><b>drug court status hearing</b> A status hearing after disposition to ensure effective supervision of treatment progress for each drug court participant.</p> <p><i>What/how to report:</i> Report all status hearings held with each participant.</p>
6700	210–250 260–280 290 300		<p><b>other postdisposition hearings</b> A postdisposition hearing other than those listed on rows 6200–6600.</p> <p>Examples: Pen. Code, §1203.4a motions, etc.</p>
<p><b>Events</b> Data collected to measure workload. Capture the actual number of events occurring during the reporting period. Report on the last day of the reporting period.</p>			
6760	210–250 260–280		<p><b>pretrial conference</b> A conference in which the opposing parties in a case meet with the judicial officer prior to trial for the purposes of stipulating those things that are agreed upon and thus narrowing the trial to the issues that are in dispute; disclosing the required information about witnesses and evidence, making motions; and generally organizing the presentation of motions, witnesses, and evidence.</p>
6770	210–250 260–280	205 255	<p><b>settlement conference</b></p> <p>JBSIS: A calendared conference that occurs before or after the start of trial among the parties and the judicial officer or other individual given authority by the judge to settle the case, for the specific purpose of settling the case.</p> <p>Portal: <i>Regulations on Statistical Reporting</i>, Form 2A, Part I., Other data: pretrial settlement conferences. All pretrial settlement conferences which were calendared and heard. Do not report informal, noncalendared settlement discussions.</p>
6790	210–250 260–280 290 300		<p><b>continuances (total rows 6800 and 6900)</b> A hearing/trial set on a calendar and recalendared to a future date for the same proceedings, at the request of a party or on the court's own motion, before any proceedings take place i.e. before first evidence is presented.</p> <p><i>What/how to report:</i></p> <ul style="list-style-type: none"> <li>○ Report all continuances whether handled by the clerk's office or in court.</li> <li>○ Include stipulated continuance as "continuance—party's motion."</li> </ul>
6800	210–250 260–280 290 300		<p><b>continuance—court's motion</b> A hearing/trial set on a calendar and recalendared to a future date on the court's own motion.</p>
6900	210–250 260–280 290 300		<p><b>continuance—party's motion</b> A hearing/trial set on a calendar and recalendared to a future date on a party's motion.</p> <p><i>What/how to report:</i> Include stipulated continuances.</p>

**CASE CHARACTERISTICS (unit of count = defendant/action)** Case characteristics are attributes that increase a case's complexity and these attributes are tracked in the Case Characteristics section. Characteristics are reported under the case type column that corresponds with the most severe charge on the

Data matrix		Definition

date the information is entered in the CMS		
7000		<b>Case characteristics of pending cases</b> Attributes captured once per defendant on the last day of the reporting period for each month the case is pending. Report under the case type column that corresponds with the most serious charge on the date the information is entered in the CMS. If the characteristic affects charges and changes the case type, enter the event under the old case type, but report subsequent events under the new case type.
7100	290 300	<b>proof of correction submitted</b> Submission of proof of correction in order to obtain a dismissal of a charge/citation.  <i>What/how to report:</i> Report in month POC is submitted, and report in every month thereafter until case is disposed.  <i>What/how not to report:</i> Do not report in month case is disposed.
7200	290 300	<b>traffic violation school (TVS) referral</b> Referral to traffic school to obtain dismissal of a traffic citation.  <i>What/how to report:</i> Report in month TVS is submitted, and report in every month thereafter until case is disposed.  <i>What/how not to report:</i> Do not report in month case is disposed.
7300	210–250 260–280	<b>pro per defendant</b> A defendant who is granted pro per status by the court.  <i>What/how to report:</i> Report once per month per defendant whose most recent event held, regardless of when held, was pro per.  <i>What/how not to report:</i> Do not report in month case is disposed.
7400	290 300 310	<b>represented by counsel</b> A defendant who is represented by an attorney at the time of arraignment or trial.  <i>What/how to report:</i> Report in month arraignment and/or trial is held and defendant is represented by counsel, and report in every month thereafter until case is disposed.  <i>What/how not to report:</i> Do not report in month case is disposed.
7500	210–240	<b>domestic violence filing</b> A case charging domestic violence as defined under Pen. Code, § 13700.  Examples: Domestic violence also includes cases that have been designated as such per Pen. Code, §§ 136.2(h), 243(e)(1), 273.5, 273.6, etc.  <i>What/how to report:</i> Report once per defendant in month DV filing is made, and report in every month thereafter until case is disposed.  <i>What/how not to report:</i> Do not report in month case is disposed.
7600	210–250 260–280 290 300	<b>juvenile offender</b> A defendant charged with a misdemeanor and/or infraction who was a minor (under 18 years) at the time the offense was committed.

## Probate 12a

### Data Element Definitions

**PROBATE** A broad classification category for trial court caseload that includes cases in which a court is asked to make a legal determination as to the disposition or transfer of decedents' assets, the appointment of conservators and guardians, the internal affairs or existence of a trust, and other miscellaneous probate matters. Probate cases consist of decedents' estates, trusts, adult conservatorships, guardianships of minors and miscellaneous probate proceedings.

Probate case types are reported according to one of two data collection and reporting standards: the Judicial Branch Statistical Information System (JBSIS) and the Regulations on Statistical Reporting (Portal). The JBSIS standards include a detailed breakdown of cases by case type and disposition, and include workload measures, such as the number of hearings. The Portal standards include fewer case types, dispositions and workload measures than JBSIS. The Portal data elements can be mapped to the JBSIS data matrix, defined below.

Data matrix		Definition
Row	Column	
	JBSIS	
<b>Case Types</b>		
<p>JBSIS: Courts reporting via JBSIS standards report probate cases that consist of decedents' estates, trusts, adult conservatorships, guardianships of minors and miscellaneous probate proceedings. Although Lanterman Petris Short (LPS) conservatorships may be processed in the probate division in some courts, they are counted on the mental health report 10a.</p> <p>Portal: Courts reporting on the basis of the Portal standards report counts for probate and guardianship cases in total (05).</p>		
	00	<p><b>pre-JBSIS probate</b> A probate case filed prior to JBSIS implementation in which a specific JBSIS case type cannot be determined by the CMS.</p> <p>Note: Case type 00, pre-JBSIS, is included to permit a court to report pending probate cases entered in their case management system prior to JBSIS implementation where the case type category is unknown. Usually, when the case is scheduled for an event, the case type is determined and the count subtracted from the pre-JBSIS column and added to the new case type column.</p>
		05 <p><b>probate (1A)</b> <i>Regulations on Statistical Reporting, Form 1A, Part I., Probate and Guardianship.</i> An ordinary probate proceeding, will contest, guardianship and conservatorship proceeding (including those filed under Section 5350 of the Welfare and Institution Code) and petitions to compromise minors' claims when not part of a pending action.</p>
	10	<p><b>decedent's estate</b> A probate case initiated by the filing of a Petition for Probate (Judicial Council Form DE-111). The petition, which is to dispose of or transfer a decedent's assets, is for one of the following:</p> <ul style="list-style-type: none"> <li>• Probate of will and for letters testamentary</li> <li>• Probate of will and for letters of administration with will annexed</li> <li>• Letters of administration</li> <li>• Letters of special administration</li> </ul> <p><i>What/how to report:</i></p> <ul style="list-style-type: none"> <li>• For the petitions mentioned above, report an initial petition filed (row 200) only if no previous petitions were filed for the decedent's estate. If there is</li> </ul>

			<p>a previous filing, report as a subsequent petition (row 4000).</p> <ul style="list-style-type: none"> <li>Will contests and Objections are also reported as subsequent petitions on row 4000.</li> </ul>
	20		<p><b>trust</b> A probate case initiated in one of the following ways:</p> <ul style="list-style-type: none"> <li>the filing of a petition concerning the internal affairs of a trust or to determine the existence of a trust (Prob. Code, § 17200)</li> <li>the filing of a petition by a trustee or beneficiary or the filing of the notice to creditors by the trustee (Prob. Code, § 19000 et seq.)</li> <li>special needs trust (Prob. Code, § 3602 et seq.)</li> </ul> <p><i>What/how not to report:</i> Disclaimers of Interest are not counted even if the court assigns a case number and opens a file.</p>
	30		<p><b>conservatorship</b> A probate case (Prob. Code, § 1800) initiated by the filing of a Petition for Appointment of Conservator (Judicial Council Form GC-310) for one of the following:</p> <ul style="list-style-type: none"> <li>Person</li> <li>Estate</li> <li>Person and estate</li> <li>Limited conservatorship</li> </ul> <p><i>What/how to report:</i></p> <ul style="list-style-type: none"> <li>Report multiple petitions for appointment of a conservator and objections to an appointment should be reported on row 4000.</li> <li>Report LPS conservatorships on the Mental Health Report 10a.</li> <li>Report temporary petitions only if they are initial petitions.</li> </ul> <p><i>What/how not to report:</i> Do not report temporary petitions if they are filed as subsequent petitions.</p>
	40		<p><b>guardianship</b> A probate case (Prob. Code, § 1500) initiated by the filing of a Petition for Appointment of Guardian of Minor (Judicial Council Form GC-210) for one of the following:</p> <ul style="list-style-type: none"> <li>Person</li> <li>Estate</li> <li>Person and estate</li> </ul> <p><i>What/how to report:</i></p> <ul style="list-style-type: none"> <li>Report multiple petitions filed at the same time by different parties for guardianship of the same child(ren) are reported separately as initial petitions.</li> <li>One disposition is required for each initial guardianship petition filed.</li> <li>Report temporary petitions only if they are initial petitions.</li> </ul> <p><i>What/how not to report:</i> Do not report temporary petitions if they are filed as subsequent petitions.</p>
	50		<p><b>other probate with at least one hearing</b> A probate case other than decedent's estate, trust, conservatorship, guardianship, and other probate case with at least one hearing.</p> <p>Examples:</p> <ul style="list-style-type: none"> <li>Petition regarding protective proceedings involving a minor (minor's</li> </ul>

			<p>compromise, Prob. Code, § 3300 et seq.)</p> <ul style="list-style-type: none"> <li>• Petition regarding spousal property (Prob. Code, § 13650)</li> <li>• Petition to determine succession to real property</li> <li>• Petition regarding management or disposition of property where spouse lacks legal capacity (Prob. Code, § 3000 et seq.)</li> <li>• Petition regarding authorization of medical treatment for adult without conservator (Prob. Code, § 3200 et seq.)</li> <li>• Petition to establish fact of birth</li> <li>• Petition to establish fact of death</li> <li>• Petition to establish fact of marriage</li> </ul> <p><i>What/how not to report:</i></p> <ul style="list-style-type: none"> <li>• Do not report subsequent petitions; subsequent petitions on existing probate cases are reported on row 4000.</li> <li>• Do not report petitions for emancipation; they are reported on the Family Law Report 06a.</li> </ul>
	60		<p><b>other probate with no hearing</b> A probate case in which the following documents are filed and handled administratively and the case is disposed at the same time that it is filed.</p> <p>Examples:</p> <ul style="list-style-type: none"> <li>• Affidavit re Real Property of Small Value (\$20,000 or Less) (Judicial Council Form DE-305, Prob. Code, § 13200)</li> <li>• Summary petition filed by public administrator (Prob. Code, § 7660)</li> </ul>
<p><b>CASELOAD/CASEFLOW (unit of count = case)</b> A case is the unit of count and consists of the filing of an initial petition.</p>			
50	<b>Inventory</b> An accounting of the number of initial petitions filed, disposed, and pending in a reporting period.		
100	00 10–60		<p><b>beginning pending</b> The number of initial petitions awaiting disposition before the first day of a reporting period.</p> <p>Note: This element cannot contain negative numbers. See note in “end pending” row 400.</p>
200	10–60	05	<p><b>initial petitions filed (+)</b></p> <p>JBSIS: The beginning of a court case by formal submission of an initial petition or affidavit alleging the facts and requesting relief, or the transfer-in of a case from another jurisdiction.</p> <p>Portal: <i>Regulations on Statistical Reporting</i>, Form 1A, Part I., Number of cases filed. One filing is reported for guardianship proceedings and for probate proceedings which do not involve a will contest. Report a filing when a petition for probate of a will or appointment of an administrator or guardian is filed or conservatorship proceedings for a disabled person are instituted. If probate proceedings involve a will contest, an additional filing is reported for the will contest. Do not report a filing for a petition to establish the fact of death. If such a petition is filed when there is no pending probate proceeding, it should be reported under case type “Other Civil Complaints” in the civil report</p>

## Small Claims 13a

### Data Element Definitions

**SMALL CLAIMS** A broad classification category for small claim cases that encompass a wide variety of case types in which the remedy sought is \$10,000 or less.

Small claims case types are reported according to one of two data collection and reporting standards: the Judicial Branch Statistical Information System (JBSIS) and the Regulations on Statistical Reporting (Portal). The JBSIS standards include a detailed breakdown of cases by case type and disposition, and include workload measures, such as the number of hearings. The Portal standards include fewer case types, dispositions and workload measures than JBSIS. The Portal data elements can be mapped to the JBSIS data matrix, defined below.

Row	Data matrix		Definition
	Column		
	JBSIS	Portal	
<b>CASE TYPES</b> Because there is no cover sheet to identify the type of case, case types are not defined in JBSIS and Portal.			
		05	<p><b>small claims cases (2A)</b> A category of trial court caseload of cases filed in the small claims court.</p> <p>Portal: <i>Regulations on Statistical Reporting</i>, Form 2A, Part II: Small Claims.</p>
	10		<p><b>small claims cases</b> A category of trial court caseload of cases governed by summary procedures specified by statute involving tort, contract, or real property rights claims in which the remedy sought is \$10,000 or less.</p> <p>Note: All small claims cases are reported under one case type.</p>
<b>CASELOAD/CASEFLOW (unit of count = case)</b> A case is the unit of count and one filing consists of the court's acceptance of a claim regardless of the number of plaintiffs or defendants.			
50	<b>Inventory</b>		An accounting of the number of cases filed, disposed, and pending in a reporting period.
100	10	05	<p><b>beginning pending</b> The number of cases awaiting disposition in a court before the first day of a reporting period.</p> <p>Portal: <i>Regulations on Statistical Reporting</i>, Form 2C, Case Inventory: Beginning Pending Cases.</p>
200	10	05	<p><b>filing (+)</b> The beginning of a court case by the court's initial acceptance of a plaintiff's claim, a document alleging the facts and requesting relief.</p> <p><i>What/how to report:</i></p> <ul style="list-style-type: none"> <li>Each plaintiff's claim is reported as one filing regardless of the number of plaintiffs or defendants or the number of causes of action. Other filed documents are not reported as filings for caseload inventory purposes.</li> <li>Report on this row cases where judgments are vacated and the case is reopened.</li> </ul> <p>Portal: <i>Regulations on Statistical Reporting</i>, Form 2A, Part II., Number of cases filed.</p>

			cases disposed of: Dismissed for lack of prosecution & Other dismissals and transfers. In small claims cases, a hearing is referred to as a trial in Portal. The total from row 1100.
1000	10		<b>entry of request for dismissal (voluntary dismissal)</b> A disposition before hearing in which a request for dismissal is filed and entered.
1100	10	05	<b>entry of court-ordered dismissal (total rows 1200 and 1300)</b>  JBSIS: A disposition before hearing in which the court dismisses the entire case by signed and dated order on the court's own motion or at the request of a party. Include cases where the court minutes stand as the order and no other document is prepared.  Portal: <i>Regulations on Statistical Reporting</i> , Form 2A, Part II., Number of cases disposed of: Dismissed for lack of prosecution & Other dismissals and transfers.
1200	10	05	<b>dismissal for lack of prosecution</b> A disposition before hearing in which the court dismisses the case on its own motion or on the motion of a party if the case meets one of the conditions outlined in Code of Civ. Proc., § 583 et seq.  Portal: <i>Regulations on Statistical Reporting</i> , Form 2A, Part II., Number of cases disposed of: Dismissed for lack of prosecution.
1300	10	05	<b>other court-ordered dismissal</b> Entry of a court-ordered dismissal before hearing excluding cases dismissed for lack of prosecution.  Portal: <i>Regulations on Statistical Reporting</i> , Form 2A, Part II., Number of cases disposed of: Other dismissals and transfers.
1400	10		<b>bankruptcy discharge</b> A disposition before hearing in which the creditor's right to recover is eliminated because of a ruling of the federal court wiping out the remaining debts of the bankrupt person.
1500	10	05	<b>disposition after court hearing</b>  JBSIS: Disposition occurs after the first evidence is introduced. The total of rows 1525 and 1800.  Portal: <i>Regulations on Statistical Reporting</i> , Form 2A, Part II., Number of cases disposed of: After trial BEFORE and AFTER evidence by both sides. In small claims cases, a hearing is referred to as a trial in Portal. To report dispositions of judgments that occurred prior to trial as a result of the California Dispute Resolution Program Act mediation program (DRPA), report in Form 2A, Part II., Number of cases disposed of: After trial BEFORE evidence by both sides by the court. Although these judgments occurred prior to trial, they are to be reported as occurring after trial at this time.
1525	10		<b>dismissal/transfer (total rows 1540 and 1590)</b> A disposition after trial in which the case was dismissed or transferred.
1540	10		<b>transfer (total rows 1550 and 1560)</b> The total number of cases transferred after hearing.

Data matrix			Definition
Row	Column		
	JBSIS	Portal	
1550	10		<p><b>change of venue</b> A disposition after hearing in which the venue of a case changes to another county.</p> <p><i>What/how to report:</i> Cases that are dismissed because of incorrect venue are reported on this row.</p>
1560	10		<p><b>jurisdictional (intracounty) transfer</b> A disposition after hearing in which a case is transferred out of the court's jurisdiction to another court within the county.</p> <p><i>What/how to report:</i> Include cases in which there is a change in jurisdictional limit. Example: When the jurisdictional amount for a small claims case is exceeded, it is disposed on rows 950 or 1560 and reported as a new filing on row 200 of Report 05a or 5b (Code Civ. Proc., § 116.390).</p>
1590	10		<p><b>dismissal after hearing (total rows 1600 and 1700)</b> A disposition after hearing in which the case was dismissed.</p> <p><i>What/how to report:</i> If the case is consolidated to another case, report its disposition as a dismissal.</p>
1600	10		<p><b>entry of request for dismissal (voluntary dismissal)</b> A disposition after hearing in which a request for dismissal is filed and entered.</p> <p><i>What/how not to report:</i> Do not include entry of requests for dismissal after mediation.</p>
1700	10		<p><b>entry of request for dismissal after mediation</b> A disposition after hearing in which a request for dismissal is filed and entered following the parties' participation in court-annexed or private mediation.</p>
1800	10		<p><b>entry of judgment (total rows 1900 and 2000)</b> Entry of the final determination of the rights of the parties in an action or a proceeding after court hearing (Code Civ. Proc., §116.610).</p>
1900	10		<p><b>uncontested</b> Entry of judgment follows a hearing in which only one party appears before the court and presents evidence or in which one or both parties appear and request that the court order a stipulated judgment.</p> <p><i>What/how to report:</i> Include on this row judgments entered pursuant to stipulations reached after mediation.</p>
2000	10		<p><b>contested</b> Entry of judgment follows a hearing in which both the plaintiff and defendant appear at the hearing and present first evidence.</p>
2090	<p><b>Case Aging</b> The number of cases falling into specific time intervals measuring the age either of a disposed, submitted or pending case. (Cal. Standards of Jud. Adm. § 2.2 effective 1/1/07). Small claims aging differs from other reports in that it includes not only disposed and pending cases, but also asks for aging of disposed cases that were taken under submission before a decision was rendered. These are aged from date of submission to date of disposition.</p>		
2100	<p><b>Age of disposed cases</b> Age cases from filing date to date of disposition, excluding time during which the case was removed from court's control. For cases transferred in, age the case from the date of filing in the court of original jurisdiction.</p>		
2190	10	05	0-70 days

			<ul style="list-style-type: none"> <li>▪ by the filing of written documents such as motions etc.,</li> <li>▪ on the court's own motion, or</li> <li>○ Based on impromptu oral motions presented in court and heard by the judicial officer.</li> </ul> <p><i>What/how to report:</i></p> <ul style="list-style-type: none"> <li>• Report each hearing that actually takes place. If multiple proceedings are heard at one time (regardless of whether they are initiated by one or more documents), count each proceeding.</li> <li>• Hearings that extend over more than one day are counted as separate hearings for each hearing day.</li> <li>• If a judicial ruling made at a hearing results in the disposition of a case, count both the hearing and the disposition.</li> </ul> <p><i>What/how not to report:</i></p> <ul style="list-style-type: none"> <li>• Do not report hearings that are not heard at all and are reset at the request of the parties or on the court's motion. Count as continuances in the Events section.</li> <li>• Do not count ex parte proceedings unless they are calendared and heard.</li> <li>• Do not count impromptu oral motions that do not require a presentation and are not heard by the judicial officer.</li> </ul>
3500	10		<b>for evidence hearing</b> A court-ordered hearing for parties to provide further evidence before the court issues its ruling.
3600	10		<b>venue hearing</b> A hearing to determine if small claims court is the proper place for trial or whether the case should be transferred to another jurisdiction because the amount requested exceeds the jurisdiction of small claims court.
3700	10		<b>other predisposition hearing</b> A predisposition hearing not specified on rows 3500 and 3600.
3800	10	05	<p><b>postdisposition hearing</b> A proceeding at which first evidence is presented and heard by a judicial officer after final disposition.</p> <p>Note: Refer to "hearing" definition on row 3400.</p> <p>JBSIS: The total of rows 3900, 4200 – 4400.</p> <p>Portal: <i>Regulations on Statistical Reporting</i>, Form 2A, Part II., Other Data: Hearings after trial. The number of hearings in civil proceedings connected with the enforcement of judgments, hearings on motions for new trials, hearings on motion to have judgments set aside or vacated and hearings of any other proceedings occurring after trial. In small claims cases, a hearing is referred to as a trial in Portal.</p>
3900	10		<b>order of examination hearing (total rows 4000–4100)</b> A hearing in which the judgment creditor obtains asset information from the judgment debtor under oath through a court-ordered appearance. Include hearings initiated by Applications and Orders to Produce.
4000	10		<b>appealed case - judgement upheld</b> An order of examination hearing on a case that is returned to the small claims division because of an appeal, and in this case, the judgment is upheld in favor of (awarded to) the plaintiff.

Data matrix			Definition
Row	Column		
	JBSIS	Portal	
4100	10		<b>nonappealed case</b> An order of examination hearing in a case that was not appealed.
4200	10		<b>request to correct or vacate judgment</b> A court-ordered hearing to direct attention to any alleged error, omission, or oversight during trial.
4300	10		<b>opposition to claim of exemption</b> A hearing on a creditor's opposition to debtor's claim of exemption to determine disposition of property or money held by levying officer.
4400	10		<b>other postdisposition hearing</b> A postdisposition hearing not specified on rows 3900–4300.
4500	<b>Events</b>		Data collected to measure workload. Capture the actual number of events occurring during the reporting period. Report event(s) resulting from the initial and subsequent filing(s). Report on the last day of the reporting period.
4600	10		<b>referral to mediation</b> A referral by the court to court or voluntary mediation.  <i>What/how to report:</i> Count each referral when mediation is held.
4650	10		<b>subsequent fee waiver requested</b> Subsequent application for waiver of filing fee submitted pursuant to Govt. Code, § 68634(e).  <i>What/how to report:</i> Report separately each time a subsequent fee waiver request is filed.  <i>What/how not to report:</i> Do not include initial application for fee waiver. Report initial fee waiver request on row 5000.
4660	10		<b>subsequent fee waiver granted</b> Subsequent application for waiver of filing fee granted in full or in part by the court.  <i>What/how to report:</i> Report separately each time a subsequent fee waiver request is granted.  <i>What/how not to report:</i> Do not include the granting of the initial application for fee waiver. Report the initial fee waiver granted on row 5100.
4690	10		<b>continuance (total rows 4700–4800)</b> A hearing set on a calendar and recalendared to a future date for the same proceedings, at the request of a party or on the court's own motion, before any proceedings take place—i.e. before first evidence is presented.  Report all continuances whether handled by the clerk's office or in court. For reports other than civil, include stipulated continuances as "continuances—party's motion."
4700	10		<b>continuance—court's motion</b> A hearing set on a calendar and recalendared to a future date on the court's own motion before any proceedings take place (before the first evidence is introduced).  Report all continuances whether handled by the clerk or in court.
4800	10		<b>continuance—party's motion</b> A hearing set on a calendar and recalendared to a future date on a party's motion before any proceedings take

1100	Entry of court-ordered dismissal (total rows 1200 - 1300)		
1200	Dismissal—lack of prosecution		
1300	Other court-ordered dismissal		
1400	Bankruptcy discharge		
1500	After Hearing (total rows 1525 and 1800)		
1525	Dismissal/Transfer (total rows 1540 and 1590)		
1540	Transfer (total rows 1550 - 1560)		
1550	Change of venue		
1560	Jurisdictional transfer		
1590	Dismissal (total rows 1600 - 1700)		
1600	Entry of request for dismissal		
1700	Entry of request for dismissal after mediation		
1800	Entry of judgment (total rows 1900 - 2000)		
1900	Uncontested		
2000	Contested		

Small Claims 13a - Data Matrix		05	10
Data reported as per the 1998 - 2009 JBSIS Standards, except as noted below.		<b>Small Claims</b>	
Definitions can be found on pages 1–10 of Data Element Definitions and in the Reference section of the public Web site, <a href="http://www2.courtinfo.ca.gov/jbsis">www2.courtinfo.ca.gov/jbsis</a> or password-protected Web site, <a href="http://jbsis.courts.ca.gov">http://jbsis.courts.ca.gov</a>

56	5100	Fee waivers granted	long integer	N	433	8
57	5200	Government exemption	long integer	N	441	8

## Appendix A

### Migrating to JBSIS

**Purpose of Chapter** This chapter provides information on the general steps involved in the process of migrating to JBSIS reporting and identifies appropriate chapters of this manual for locating more detailed information on implementing JBSIS.

- 1. Register Your Serranus Password** The JBSIS Web site is accessed from the home page on Serranus under the link for 'Court Technology' (<http://serranus.courtinfo.ca.gov>) or directly at <http://jbsis.courtinfo.ca.gov>. Serranus, the secured Web site for the California judicial branch, is not available to the public and can only be accessed with a login ID and password. You can request an ID and password online from the secure AOC Internet logon (SAIL) screen that displays when access either the Serranus or JBSIS links above. Click on the link 'Apply for new account' under 'New User'.

A court should begin the JBSIS implementation process by registering all staff who will be involved in JBSIS implementation for a Serranus password. It is recommended that staff be able to log-on to Serranus and access JBSIS information as it is referenced throughout the manual.

- 2. Review JBSIS Reports** The JBSIS reports contain data elements that capture information on trial court cases including caseload/caseload, workload, and case characteristics. Each report consists of two main parts: 1) Data Elements Definitions, and 2) Data Matrix. Chapter 3 – Overview of Report Chapters addresses the organization of these parts of the reports and should be reviewed first.
- 3. Determine Order of Implementation** Courts may determine the order that they submit JBSIS report files for compliance testing. The submission order of reports will likely depend on several factors related to a court's case management system (CMS) and data cleaning requirements.
- 4. Conduct Internal Data Quality Check** An internal data quality check consists of a court auditing the data collected in its case management system (CMS). Data quality checks help ensure that case information is entered accurately into the CMS and that the CMS is correctly storing the information. Conducting these checks before sending data to the AOC ensures the quality and credibility of the data and avoids the need to amend data in the future.
- 5. Create Test Files for Electronic Reporting** Once an internal data quality check has occurred, a court creates test files using actual case management data and electronically submits these test files to the AOC. Please refer to Appendices A through F for more information on the technical requirements for submitting electronic data.
- 6. Complete Compliance Testing** All submitted test files are reviewed for eligibility during the compliance testing phase of implementation. Compliance testing must be completed for each JBSIS report before a court can begin sending actual JBSIS production report data. Please see Appendix D – Compliance Testing for more detailed information.
- 7. Transmit Electronic File to JBSIS** A court may begin submitting monthly data to the JBSIS data repository once a JBSIS report extract file has passed compliance testing. File validation tests are conducted on each extract file before the file is loaded into the data repository. If the file passes the validation tests without error, the file is automatically loaded; if it does not pass the validation tests, it is not loaded and the court is notified. Please see Appendix D – Transmission Methods and Compliance Testing for more detailed information.
- 8. Amending Data** If a court needs to correct data that have previously been submitted and loaded into the JBSIS data Appendix D – Amending Data for more detailed information on amending data.

## Appendix B

### JBSIS Data Rules

**Purpose of Chapter** This chapter outlines the rules governing the reporting of data elements in the JBSIS extract file. These rules ensure data consistency and minimize the occurrence of file processing failures in JBSIS. This chapter also includes information on data values, missing data, and case counts. The majority of this chapter is geared towards the information technology staff and the process for creating the electronic data files. Information in this chapter is organized in the following sections:

1. Data Values
2. Default Data Values and Missing Data
3. Unanticipated Data
4. Beginning Pending and End Pending Case Counts

**1. Data Values** Blank, null, and most negative values in the data elements are not valid. The JBSIS data repository will not accept extract files containing these values. There is an exception for negative values, but only as they apply to the number of End Pending cases in the Inventory Section of JBSIS reports (please see the JBSIS Web site under 'References,' 'Technical Assistance' for more information). Because of changes in case type during a reporting month, the final End Pending figure for a reporting period will occasionally be a negative value. This is particularly true when the change in case type is to a typically low volume case type that could have begun the reporting period with zero cases.

In ASC formatted extract files, all data element values must be reported left justified with leading zeroes, e.g. 3,000 is submitted as 00003000. CSV and XML formatted extract files do not require leading zeroes.

**2. Default Data Values and Missing Data** In order to deliver the correct information to the end user community, it is necessary to distinguish the data elements that cannot be provided by a local case management system (CMS) from the data elements that can be provided but whose values for that reporting period are zero.

**Use of Zero** If no cases occur in a reporting period for a given data element, set the data element value to zero (**00000000** in ASC formatted extract files). Do not submit a null or blank field. Zeros are also expected as the default values for cells in JBSIS report data matrices that are shaded (see **Unanticipated Data** below). These shaded cells represent data elements that are not required by JBSIS and should not be used unless prior approval has been obtained by e-mailing the JBSIS Administrator at [admin@jbsis.courts.ca.gov](mailto:admin@jbsis.courts.ca.gov).

Finally, default values (zeros) are also used for case types that are not being used by the reporting court, such as the Pre-JBSIS case type that appears on some JBSIS reports as an optional-use category.

**Use of Nines** If, at the beginning of JBSIS reporting/implementation, a court's local CMS cannot report a given data element in a JBSIS report, it may be permissible to set the value of certain non-mandatory data elements to **99999999** (eight 9's), regardless of the file format. The Record Layout listing in each of the JBSIS report sections includes a mandatory reporting column showing whether an element is mandatory ('Y') or non-mandatory ('N'). This allowance to use a Missing Value Code for non-mandatory data elements was created as an accommodation for courts during the first few years of participation in JBSIS reporting. However, as local CMS capability develops it is expected that courts will no longer need to use the Missing Value Code.

If CMS limitations do cause a court to report missing values using the Missing Value Code, these codes must be used at the start of JBSIS reporting and cannot be introduced after a data element has already been fully reported. If the JBSIS application encounters a missing value for an element that had a substantive value in a prior report, the report that attempted to re-introduce the missing value will be rejected.

Courts electing to use the Missing Value Code should be aware of two conditions in which **99999999**'s must also be used for data elements that a local CMS may actually be able to report.

- 1) **Missing data within a data element:** The JBSIS system assumes that if a court's CMS can capture a data element for a given case type in one JBSIS report, the CMS should be able to capture that data element for all case types in that report. However, if there is missing data for a data element under any case type, then the data element values for all of the case types must be coded as missing. The court must report **99999999** for that data element across all of that report's case types, even if the CMS is able to produce the data element for some of the case types. This requirement insures that the total of a JBSIS data element item across case types will be complete.
- 2) **Missing data between subordinate data elements:** When there are related sets of parent and subordinate-child data elements, the JBSIS application usually requires that the sum of the subordinate items equals the value of the parent element. If the CMS cannot generate one or more of the subordinate data elements, this will not be the case. Therefore if any of the subordinate data elements are missing, JBSIS requires the use of the Missing Value Code, **99999999**, for all of the subordinate data elements. Also, if the missing subordinate-child data elements occur under only one case type, JBSIS requires the use of the Missing Value Code for all of the subordinate data elements under all case types.

**Use of Zero Values instead of the Missing Value Code** There are a number of instances in which the Missing Value Code is inappropriate and zero-values are used instead. These exceptions include:

- data elements in which the corresponding cell in the report's Data Matrix is shaded (also see section on Unanticipated Data below);
- entire case types that are present but unused within a report module; and
- parent, or "aggregate" data elements where the value may be obtained from the sum of the subordinate elements. These parent or aggregate data elements are those listed as subject to "optional" testing on the 'Aggregate Validation' section found under 'References' on the JBSIS Web site.

3. **Unanticipated Data** Some data items do not apply to all case types in a JBSIS report. A shaded cell on a report's Data Matrix indicates where the JBSIS system does not anticipate data values for a particular data element. If a data item is not expected or does not apply to a case type code, submit a zero in the data element field. If a court has unanticipated data for a shaded cell, the court may report the data if the court can explain the data values submitted and if approval is granted by JBSIS.

4. **Beginning Pending and End Pending Case Counts** Each JBSIS report has an Inventory Section that tracks the caseload and caseflow of trial court cases. The Inventory Section starts with a court's pending cases at the beginning of a reporting period, and then adds and subtracts cases from this figure as new cases are filed (+) and others are disposed (-). The Inventory Section of each JBSIS report ends with the number of cases pending at the end of the reporting period.

For each report, an *ideal* monthly inventory would start with a Beginning Pending value that equals the End Pending value for the previous month and as case counts are added and subtracted within a case type, the pending value would balance out with End and Beginning counts in the reporting month. This *ideal* monthly inventory scenario may not be possible due to the following factors:

- modifications to case data in a court's CMS between report periods;
- reclassification of cases between case types that cannot be directly recorded in the Inventory Sections; and
- limitations in a court's case management system.

For these and other reasons the validation tests of inventory items will issue warnings when there are disagreements among inventory items in a reporting month, but extract files will not be rejected because of these disagreements. However, trial courts should review these warnings to be sure they are not indicators of a defect in their CMS reporting application.

As noted previously in the Data Values section of this chapter, the End Pending data elements are the only data elements which allow for negative values (please see the JBSIS Web site under 'References,' 'Technical Assistance' for more information).

## Appendix C

### File Formats

**Purpose of Chapter** This chapter discusses the three possible file formats (fixed length, comma separated values, and eXtensible Markup Language) for the JBSIS extract files sent to the AOC. Information presented here provides a general understanding of the different file formats available; however, the majority of this chapter is geared towards information technology staff and the process for creating the electronic data files. Information in this chapter is organized in the following sections:

1. Overview of File Formats
2. File Format Options
3. File Content

**1. Overview of File Formats** Once a court has conducted an internal data quality check and captured the monthly JBSIS data through its automated case management system, the court creates and submits an electronic data file (also called an extract file) to the AOC. The court can select any programming language to create the extract file. However, the file must be in one of the three permissible formats and the data elements must conform to a particular file layout. The file format and layout enable the JBSIS data repository to recognize the information sent in the file. Specifications concerning the acceptable file formats are discussed below and apply to all versions of the JBSIS data collection standards, unless otherwise noted.

**2. File Format Options** A court can use any of the following file formats listed in the table File Format Options, below, to transmit extract data to the AOC.

#### FILE FORMAT OPTIONS

File Format	Description
Fixed Length ( <b>ASC</b> )	Every data element has a fixed start-position and a fixed length.
Comma Separated Values ( <b>CSV</b> )	Every data element has a predetermined sequence; commas separate the elements.
eXtensible Markup Language ( <b>XML</b> )	Data elements are delimited by previously defined XML tags.

Examples of each of the above file formats are located in *Appendix F – Sample Extract Files*. A court can use any of the three file formats for any of the JBSIS reports. In other words, a court can submit its criminal reports using a fixed length (ASC) format, its juvenile reports using a comma separated values (CSV) format, and all of its civil reports using an eXtensible markup language (XML) format. However, each electronic file must contain only one JBSIS report in a single file format.

#### **Fixed Length (ASC) File Format**

A fixed length file format has a defined start position and fixed length for every data element within a record and results in a fixed length for each record as a whole. In other words, each record is viewed as a string of text and is limited to a pre-established number of characters (referred to as the record length), and each data item in that record has a pre-established number of characters. The JBSIS data repository identifies the information in the record according to where it falls in the string of characters in the record. Imbedded binary carriage return line feed (CR LF) characters are expected at the end of each record. A sample fixed length file is located in *Appendix F – Sample Extract Files*. Each ASC formatted JBSIS report contains a Header Record (56 characters), a Trailer Record (144 characters), and depending on the type of report, from 1 to as many as 14 data records. Each data record represents a case type within the report. The table Maximum Length of Data Records – ASC formatted files, below, shows the expected maximum length in character bytes for each ASC formatted JBSIS data record. When parsing and loading the file, the JBSIS system will not read characters past the expected maximum length for each record.

The imbedded binary characters are not included in the record lengths listed in the table below.

**MAXIMUM LENGTH OF DATA RECORDS – ASC FORMATTED FILES**

<b>JBSIS Data Record Length (in characters)</b>	<b>JBSIS Report Type</b>	<b>Number of Data Elements</b>
304	Appellate Court	39
232	Appellate Division	30
904	Civil Limited	114
904	Civil Unlimited	114
520	Family Law	66
736	Felony Part 1 (Municipal)	93
816	Felony Part 2 (Superior)	103
976	Felony Part 3 (Unified)	123
720	Juvenile Delinquency	94
848	Juvenile Dependency	107
472	Mental Health	60
744	Misdemeanor and Infraction	94
512	Probate	65
448	Small Claims	57

**Comma Separated Values (CSV) File Format**

The comma separated values file format has a predetermined sequence of data elements in each record with a delimiter - a comma (,) - between them. An imbedded binary CR LF is expected at the end of each record. As with ASC records, the JBSIS loader will not read beyond the expected maximum number of data elements. The number of data elements in each JBSIS report is shown in in the ‘Number of Data Elements’ column in the above table. A sample CSV file is located in *Appendix F – Sample Extract Files*.

**eXtensible Markup Language (XML) File Format**

In an XML file format each data record and data element within a record is delimited by a pair of tag elements: an opening tag element, for example, <CASE\_TYPE\_CODE>, and a corresponding closing tag element, </CASE\_TYPE\_CODE>.

The first line of all XML files is <?xml version="1.0" encoding="UTF-8"?>, which denotes the XML specification used by the JBSIS data repository. JBSIS also requires a DOCTYPE statement in the second line of the file. The third and the last line of the extract file contain the XML root element opening and closing tags, which identify the JBSIS report data in the extract file. The table below shows the JBSIS Report Codes and their corresponding XML Root Element.

## XML ROOT ELEMENTS FOR JBSIS REPORTS

JBSIS Report	JBSIS Report Code	XML Root Element
Appellate Court Appeals	04a	<JBSIS04aVx>
Appellate Division Appeals	04b	<JBSIS04bVx>
Civil – Limited	05a	<JBSIS05aVx>
Civil – Unlimited	05b	<JBSIS05bVx>
Family Law	06a	<JBSIS06aVx>
Felony Part 1	07a	<JBSIS07aVx>
Felony Part 2	07b	<JBSIS07bVx>
Felony Part 3	07c	<JBSIS07cVx>
Juvenile Delinquency	08a	<JBSIS08aVx>
Juvenile Dependency	09a	<JBSIS09aVx>
Mental Health	10a	<JBSIS10aVx>
Misdemeanor/Infraction	11a	<JBSIS11aVx>
Probate	12a	<JBSIS12aVx>
Small Claims	13a	<JBSIS13aVx>

The 'X' in the XML Root Element is replaced by the major version of JBSIS being used to report the data. For a file containing the JBSIS Version 2.0 Appellate Court Appeals data, the <Root\_Element> (begin tag) and </Root\_Element> (end tag) would appear as <JBSIS04aV2> and </JBSIS04aV2>, respectively, where the **04a** represents the Appellate Court Appeals JBSIS Report, and the **V2** indicates that the court is submitting data using JBSIS major version 2.x (i.e., all releases of version 2 data).

The tag sets for the data elements in a record and the record's corresponding data values are listed between the opening and closing case type code tags. The tag names for all data elements are located in the 'References' section of the JBSIS web site at <http://jbsis.courtinfo.ca.gov>. As the XML file format is not columnar, including an embedded CR LF after each tag set will aid in the visual inspection of files. However, this particular CR LF is not required for processing. A sample XML file is located in *Appendix F – Sample Extract Files*.

3. File Content – Packaging the Data Courts using multiple CMS's for storing case data associated with any single JBSIS report must generate one file before transmitting the data to the AOC. For example, a court might gather data for the Misdemeanor/Infraction report (JBSIS Report 11a) from two different case management systems (i.e, criminal and traffic). The court must first combine this data into one report before sending the extract file to the AOC. JBSIS cannot process partially complete report files. All required data for a given report must be submitted in one report file.

## Appendix C

### File Layout

Purpose of Chapter This chapter presents information on the file layout of JBSIS extract files. While the JBSIS extract file layouts are generally similar across report types, they can differ based on: (a) the number of record types within the report file; (b) the content of the record types; and (c) the use of formatting alternatives, as described in Appendix C – File Formats. The reader may wish to examine the sample extract files in Appendix F in conjunction with the material presented here. Information in this chapter is organized in the following sections:

1. General File Layout
2. Record Layout
3. Detailed File Layouts
  - a. File Handler
  - b. Header Record
  - c. Data Records
  - d. Trailer Record

1. General File Layout Each JBSIS report type is submitted as a separate extract file containing four types of records: a file handler, a header record, data records, and a trailer record. *File Layout*, below, summarizes these four features; each of these features is described in greater detail later in this chapter:

#### FILE LAYOUT

Record Type	Description
File handler	Included once, at the beginning of the extract file.
Header record	Included once, after the file handler code. Header records are similar for all report types, but the content of this record varies between ASC, CSV and XML formatted files.
Data records	Included as many times as there are report case types.
Trailer record	Included once, at the end of the extract file.

2. Record Layout *Example Header Record*, below, is a sample layout for one record in a JBSIS extract file. Although the example is limited to a Header record, the general form is the same for all records in ASC and CSV formatted files. In XML files, record layouts serve as the source information for tagged data elements.

#### EXAMPLE HEADER RECORD

Sequence	Data Element	Storage	Default	Start	Length
1	Record Type Code	char	000	1	3
2	Court Identification Number	char		4	7
3	As of Date	date		11	8
4	Filler	char		19	6
5	Amend Code	integer		25	8
6	Major Document Number	integer		33	8
7	Minor Document Number	integer		41	8
8	Extract Type Code	char		49	8

Each column heading in *Example Header Record* is explained in more detail below.

**Sequence** Within each record type all data elements have a sequence representing the order of the data elements in the record. The highest sequence value indicates the total number of data elements contained in the record.

**Data Element** This column in contains the names given to the data elements in the record layout. In Header and Trailer records, the data elements are the same across all JBSIS report types. For Data records, the number and types of elements vary between reports depending on the amount of information being reported.

When new JBSIS data elements are added in the future, the reporting of these elements will be accommodated by appending the new elements to the end of the existing data elements in the data record. This will result in an increased record length (i.e., new elements will be sequenced according to the next available number at the end of the record), but it will avoid having to modify the order of elements in future versions or revised releases of JBSIS.

**Storage** This column in lists the data type formats used by JBSIS in processing and storing values for specific data elements. In-coming data are treated according to type indicated in the record layout (i.e., as character [char], date, integer, or long integer).

**Default** The Default column in indicates if a default value should be placed in a particular field. For example, the sample record layout above shows that 000 should always be the default value for Record Type Code in the Header record.

**Start** This is the starting position for data elements in ASC formatted files. Each element begins at its indicated position in a string of elements, proceeding from left to right, and all elements must be present in the string. In CSV formatted files, the data elements are identified by sequential position only. For XML formatted files, the only positional requirement is appearance within the appropriate block elements.

**Length** This column in indicates the number of character positions used for the data element. While ASC formatted files use the full length for all data elements, the specified length for data elements in CSV and XML files is a usually a maximum limit. Exceptions for these latter file formats include character and date elements, and the use of 99999999's as missing data indicators. These exceptions appear as full length data elements in all file formats.

3. Detailed File Layouts Each JBSIS report type is submitted as a separate extract file containing four types of records. The four basic features of JBSIS extract files include: a File Handler, a Header record, Data records, and a Trailer record. These features are described below.

- a. **FILE HANDLER** The File handler appears at the start of the extract file and is used by the JBSIS application to determine how the information is processed. For ASC and CSV formatted files, the handler code is a 6-character element appearing as the only entry on the first line of the file. For XML formatted files, the handler code and its position are somewhat different. Please see the examples below.

<u>File Handler</u>	<u>File Type</u>
<?ASC>	Fixed Length (ASC) files
<?CSV>	Comma-Separated values (CSV) files
<?xml	eXtensible Markup Language (XML) files

The XML File handler always appears in lower-case and is followed by XML processing information. Since the processing environment for XML files is case sensitive, it is important that file entries conform exactly to upper and lower case specification. In JBSIS XML formatted extract files, the File handler is currently coded exactly as it should appear:

```
<?xml version="1.0" encoding="UTF-8"?>
```

where:

**version="1.0"** – indicating the XML version (not the JBSIS version);  
**encoding="UTF-8"** – specifies the character encoding used in the file; and  
**?>** – represents the closing tag encapsulating the handler information.

As with all XML formatted records, the File handler may occupy a separate line or appear sequentially.

- b. **HEADER RECORD** *Example Header Record*, above, contains the data elements used for automated processing of a file. The JBSIS loader examines the values of these elements to determine the placement of file information within the JBSIS data repository. Inconsistencies or errors in the Header record elements will terminate file processing and require re-submission of the JBSIS extract file by the sending court. The data elements in the Header record are described below.

- **Record Type Code:** This element must be set to **000** and is used to identify the single Header record in ASC and CSV formatted files. In XML formatted files there is no explicit Record Type Code; rather the Header elements are positioned at the beginning of the file before the first block of data.
- **Court Identification Number:** This is the unique Court Identification Number used to identify California courts. For all Superior Courts this is 6-digit number preceded by an upper case **S** (prior to court unification an upper case **M** would have been used for the municipal courts). The full 7-byte court ID number is the same one that is used in naming the monthly extract file submitted to the JBSIS data repository. An abbreviated court ID number is used for the alternative naming convention described in the 'Reference' section of the secure JBSIS Website.
- **As of Date:** This field (also titled "Data as of date") is the last calendar day of the month being reported and must be coded in a **mmddyyyy** format (e.g., the "As of Date" for a January 1999 JBSIS report is **01311999**). This formatting requirement is consistent with the assumption that reported data represents the status of court cases and processing on the last day of the reporting period (calendar month).
- **Filler:** This is a 6-digit character field used as a placeholder in ASC and CSV formatted files. The JBSIS loader will not read the contents of this field, but it must be zero-filled to its maximum length (i.e., six zeroes) in both file formats if it is not used as a 6-digit field by the trial court.
- **Amend Code:** This field indicates whether the file contains original data or amended data. If the file being submitted contains original data for the reporting month, a **0** should be entered in this field (enter **0000000** if using an ASC fixed-length file format). If the file contains amended data, the court should enter **1** (enter **0000001** if using an ASC fixed-length file format).

The Amend Code is never greater than **1** regardless of the number of times the file is amended.

- **Major Document Number:** The Major Document Number is the version number of the JBSIS standards applicable to the data file. If the data are compiled in accordance with the JBSIS version 2.0 standards, the Major Document Number is **2**.
- **Minor Document Number:** The Minor Document Number refers to the release number of the JBSIS standards applicable to the data file. For example, the release/Minor Document Number for the JBSIS version 2.0 standards is **0** and the release/Minor Document Number for the JBSIS version 2.1 standards is **1**.

Since different JBSIS versions may contain different data elements, the Major and Minor Document Numbers are needed to assure the use of appropriate processing routines. If a court wishes to upgrade to a more recent JBSIS version or release, a change notice must be sent before submitting data. However, if a new JBSIS standards release comes out that simply updates the documentation, the JBSIS loader will treat Minor Document Numbers as equivalent submissions and subject them to the same set of validation tests.

- **Extract Type Code:** This element is a numerical value indicating the original format of the inbound extract file. The valid Extract Type Code values for each file format are:

<b>Extract Type Code</b>	<b>File Type</b>
<b>00000010</b>	Fixed Length (ASC) files
<b>11</b>	Comma-Separated values (CSV) files
<b>12</b>	eXtensible Markup Language (XML) files

- **Reserved for Local Use:** The data elements presented so far make up the Header Record. In addition to these data elements there are spaces in the Header record that have been set aside for local use.

In ASC and CSV file formats only, a court can use the spaces following the Extract Type Code for any local purpose. However, courts should not that the JBSIS system will not acknowledge characters past the maximum expected record length.

For XML file formats, the JBSIS system will use a Document Type Definition which allows a court to insert information or data in an XML file that does not conform to the XML Record layout.

**SAMPLE HEADER RECORDS** Sample Header records for each of the three file format options are listed below. These examples represent original superior court data submitted for January 1999 using JBSIS version 2.0 standards. The Court Identification Number used in these examples is **S999000**. Note that XML formatted files do not have a Header record or Filler. XML Header elements are positioned between the opening root element (in **bold**) and the first case type block.

The shading in the columns of the sample Header records is being used for ease of viewing to show the different data elements that make up the Header record.

<b>ASC (fixed length) files – SAMPLE HEADER RECORD</b>							
000	S999000	01311999	000000	00000000	00000002	00000000	00000010
Record Type Code	Court ID Number	As of Date	Filler	Amend Code	Major Document Number	Minor Document Number	Extract Type Code

<b>CSV (comma-separated) files – SAMPLE HEADER RECORD</b>							
000,	S999000,	01311999,	000000,	0,	2,	0,	11
Record Type Code	Court ID Number	As of Date	Filler	Amend Code	Major Document Number	Minor Document Number	Extract Type Code

**XML (eXtensible markup language) files – SAMPLE HEADER RECORD**

<JBSIS06aV2>	Opening Root Element
<COURT>S999000</COURT>	Court ID Number
<DATA_AS_OF_DATE>01311999</DATA_AS_OF_DATE>	As of Date
<AMEND_CODE>0</AMEND_CODE>	Amend Code
<MAJOR_DOCUMENT_NUMBER>2</MAJOR_DOCUMENT_NUMBER>	Major Document Number
<MINOR_DOCUMENT_NUMBER>0</MINOR_DOCUMENT_NUMBER>	Minor Document Number
<EXTRACT_TYPE_CODE>12</EXTRACT_TYPE_CODE>	Extract Type Code

- c. **DATA RECORD** Complete data record layouts for each JBSIS report are located in the JBSIS Data Standards and Reports section of the manual. *Summary of File Characteristics of JBSIS Reports*, below, summarizes the file characteristics of each report and shows the variation in the number of data elements contained in each report.

**SUMMARY OF FILE CHARACTERISTICS OF JBSIS REPORTS**

JBSIS Report Number	JBSIS Report Name	Data Records per Report	Data Elements per Record	Record Length
04a	Appellate Court Appeals	11	39	304
04b	Appellate Division Appeals	4	30	232
05a	Civil – Limited	13	114	904
05b	Civil – Unlimited	12	114	904
06a	Family Law	14	66	520
07a	Felony (part 1)	11	93	736
07b	Felony (part 2)	12	103	816
07c	Felony (part 3)	12	123	976
08a	Juvenile Delinquency	5	91	720
09a	Juvenile Dependency	4	107	848
10a	Mental Health	14	60	472
11a	Misdemeanor/Infraction	11	94	744
12a	Probate	7	65	512
13a	Small Claims	1	57	448

There are similarities and differences in the data elements that make up the Data records for JBSIS reports. In ASC and CSV formatted files, each JBSIS report is identifiable by a Record key made up of four common data elements. In XML formatted files these data elements are configured differently. There are also differences in the positioning of shared data elements and data elements unique to either individual reports or groups of reports.

*Example Data Record*, below, shows a sample Data record consisting of the first nine data elements in a record. The first four data elements represent the Record key. The substantive data elements of a Data record begin at sequence 5.

### EXAMPLE DATA RECORD

Record  
Key  
elements

Sequence	Data Element	Storage	Default	Start	Length
1	JBSIS Report Code	char	06a	1	3
2	Court Identification Number	char		4	7
3	As of Date	date		11	8
4	Case Type Code	char		19	6
5	Beginning pending	long integer		25	8
6	Initial petition/complaint filed	long integer		33	8
7	Reopened	long integer		41	8
8	Supplemental complaint filed	long integer		49	8
9	Existing pet./com. entered into CMS	long integer		57	8

- **JBSIS Report Code:** This is a 3-character report number used in ASC and CSV formatted files to identify the JBSIS report to which the data record belongs. The complete list of JBSIS report numbers appears in the 'JBSIS Report Number' column of *Summary of File Characteristics of JBSIS Report*, above. For XML-formatted files there is no corresponding element; the JBSIS report type is identified in the Opening root element.
- **Court Identification Number:** This element is used in all file formats and is the same 6-digit unique court identifier described previously for the Header record. For all Superior Courts this is 6-digit number preceded by an upper case **S** (prior to court unification an upper case **M** would have been used for the municipal courts). In XML formatted files this identifier is used only once and is positioned between the Opening root element and the first data block.
- **As of Date:** This element is the last calendar day of the month being reported and must be coded in a **mmddyyyy** format (e.g., the "As of Date" for a January 1999 JBSIS report is **01311999**). This formatting requirement is consistent with the assumption that reported data represents the status of court cases and processing on the last day of the reporting period (calendar month). This element appears in all ASC and CSV formatted files. In XML formatted files, this element is positioned similarly to the Court Identification Number.
- **Case Type Code:** This is a 6-character field used to identify the case type associated with a given Data record. In combination with the above elements, the Case Type Code identifies a separate and unique Data record in a JBSIS extract file. The number of Data records in an extract file depends on the number of case types established for the JBSIS report. The 'Data Records per Report' column in *Summary of File Characteristics of JBSIS Reports* shows the number of Data records—case types—in each JBSIS report type.

In ASC formatted files, the Case Type Code must be represented with leading zeros. In CSV and XML formatted files, leading zeros are optional for the Case Type Code (i.e., the JBSIS system will append leading zeros if they are absent). In XML formatted files, each Case Type Code is a separate tag set that includes a complete set of substantive data elements.

Regardless of file format, all extract files must include a complete set Data records, even if a Case Type Code contains zero values for all substantive data elements

**SAMPLE JBSIS DATA RECORDS** Listed below are sample Data records showing how the data elements in the Record key are used in each type of file format. In each sample below, the Record key elements appear in **bold** type.

The file information used to put together the sample Data records appears first and is followed by the sample Data records in each file format.

**FILE INFORMATION:**

JBSIS Report Type	06a
Court ID Number	S999000
As of Date	01311999
Case Type Code	000000

The remaining elements in the samples below represent a partial set of the substantive data elements. In contrast to ASC and CSV formatted files, the Record key data elements in XML formatted files are not repeated as part of each data segment and, for the most part, are located in the XML equivalent of a Header record.

**SAMPLE DATA RECORDS:**

ASC (fixed length) files – SAMPLE DATA RECORD
06aS999000013119990000000010000000011100000010000000200000000300000015000009690000009000000000000001000000005

CSV (comma-separated) files – SAMPLE DATA RECORD
06a,S999000,01311999,0,1000,111,10,20,3,15,969,90,0,10,5

XML (eXtensible markup language) files – SAMPLE DATA RECORD
<pre> &lt;?xml version="1.0" encoding="UTF-8"?&gt;   &lt;!DOCTYPE JBSIS06aV2 SYSTEM "JBSIS06aV2.dtd"&gt;   &lt;JBSIS06aV2&gt;     &lt;COURT&gt;S999000&lt;/COURT&gt;     &lt;DATA_AS_OF_DATE&gt;01311999&lt;/DATA_AS_OF_DATE&gt;     &lt;AMEND_CODE&gt;0&lt;/AMEND_CODE&gt;     &lt;MAJOR_DOCUMENT_NUMBER&gt;2&lt;/MAJOR_DOCUMENT_NUMBER&gt;     &lt;MINOR_DOCUMENT_NUMBER&gt;0&lt;/MINOR_DOCUMENT_NUMBER&gt;     &lt;EXTRACT_TYPE_CODE&gt;12&lt;/EXTRACT_TYPE_CODE&gt;     &lt;CASE_TYPE_CODE&gt;0       &lt;BEGIN_PENDING&gt;1000&lt;/BEGIN_PENDING&gt;       &lt;INITIAL_FILINGS&gt;111&lt;/INITIAL_FILINGS&gt;       &lt;REOPENED&gt;10&lt;/REOPENED&gt;       &lt;SUPP_FILINGS&gt;20&lt;/SUPP_FILINGS&gt;       &lt;EXISTING_CASE&gt;3&lt;/EXISTING_CASE&gt;       &lt;CLASSIF_PRE_JBSIS&gt;15&lt;/CLASSIF_PRE_JBSIS&gt;       &lt;END_PENDING&gt;969&lt;/END_PENDING&gt;       &lt;DISPOSITIONS_TOTAL&gt;90&lt;/DISPOSITIONS_TOTAL&gt;       &lt;DISP_BEFORE_HRG_TOTAL&gt;0&lt;/DISP_BEFORE_HRG_TOTAL&gt;       &lt;BHRG_DISM_LACK_PROS&gt;10&lt;/BHRG_DISM_LACK_PROS&gt;       &lt;BHRG_OTHER_DISM&gt;5&lt;/BHRG_OTHER_DISM&gt;     &lt;/CASE_TYPE_CODE&gt;           </pre>

- d. **TRAILER RECORD** The Trailer record is a sequence of data elements that appear after the last case type record in an extract file. The Trailer record includes a set of specified data elements that vary depending on the file format. ASC and CSV formatted files must conclude with a single Trailer record and XML formatted files must conclude with a more limited set of tagged elements. The Trailer record data elements and their accompanying requirements are presented in *Example Trailer Record*, below.

- **Record Type Code:** In ASC and CSV formatted files, the Record Type Code is a 3-character unique identifier that appears as the first data element in the Trailer record. The Record Type Code is identified as **999** in ASC and CSV formatted files. XML formatted files do not have Record Type Codes in their Trailer records.
- **Court Identification Number:** This data element is the same 6-digit unique court identifier that was described previously for the Header and Data records. In ASC and CSV formatted files the Court Identification Number is the second data element in the Header, Data, and Trailer records. In XML formatted files, the Court Identification Number is part of the Trailer record.
- **Run Date:** This data element is the date that a court's case management system generated a JBSIS extract file. This is an integer field in all extract file formats (ASC, CSV, & XML); however, the Run Date is recorded using an **mmddyyyy** date format (e.g., **02031999** if the extract file was generated on Feb. 3, 1999).
- **Run Time:** This data element is the time that a court's case management system generated a JBSIS extract file. Run Time is recorded using the 24-hour military format (**hhmmss**). For example, a report generated at 1:30 p.m. would be reported as **133000**. Run Time appears in the Trailer records of all extract file formats (ACS, CSV, & XML).

#### EXAMPLE TRAILER RECORD

Sequence	Data Element	Storage	Default	Start	Length
1	Record Type Code	char		1	3
2	Court Identification Number	char		4	7
3	Run Date	date		11	8
4	Run Time	char		19	6
5	Filler	long integer		25	8
6	Control Sum 04a	long integer		33	8
7	Control Sum 04b	long integer		41	8
8	Control Sum 05a	long integer		49	8
9	Control Sum 05b	long integer		57	8
10	Control Sum 06a	long integer		65	8
11	Control Sum 07a	long integer		73	8
12	Control Sum 07b	long integer		81	8
13	Control Sum 07c	long integer		89	8
14	Control Sum 08a	long integer		97	8
15	Control Sum 09a	long integer		105	8
16	Control Sum 10a	long integer		113	8
17	Control Sum 11a	long integer		121	8
18	Control Sum 12a	long integer		129	8
19	Control Sum 13a	long integer		137	8

- **Filler:** This data element is only present in ASC and CSV formatted extract files and can be used by courts as needed. In ASC formatted files, the Filler is an 8-character integer field. In CSV formatted files, the Filler may occupy from 1 to 8 positions. If a court does not supply an entry in this field it will be zero-filled.

## Appendix D

### Amending Data

**Purpose of Chapter** This chapter outlines the process of amending previously submitted JBSIS production data. Information presented here provides a general understanding of the amendment process; however, the majority of the chapter is geared towards the information technology staff and the process for creating amended files. Information in this chapter is organized in the following sections:

1. Amending Data
2. Setting the Amend Code
3. Creating Amended Files
4. Amending Reporting Months
5. Viewing Submitted Files

**1. Amending Data** Courts may amend data if they find that the original file submission was not accurate. Any subsequent submission of a given production report file must be processed as an amended file. If data corrections are required and the data were originally submitted using JBSIS Versions 2.0, 2.1, or 2.2, the data must be amended using JBSIS Version 2. Given that changes in the various releases of Version 2 have been limited to documentation modifications, all technical data requirements, including the use of the amend code, apply equally to files submitted as versions 2.0, 2.1 or 2.2.

**2. Setting the Amend Code** The header record for each extract file submitted by a court contains the Amend Code data element. This field indicates whether a file contains original or amended data. The Amend Code is not relevant for Compliance testing and should be set at the default value of zero for test files. In production reporting the Amend Code is set to either **0** (to indicate that the data in the file is original data) or to **1** (to indicate that the data are amended data). See Appendix C – File Layout for more information. For files containing amended data, the Amend Code value is always **1** regardless of the number of amended files submitted to correct the same JBSIS report for the same reporting month. The Run Date and Run Time data elements in the Trailer record can be used to distinguish between multiple amended data files.

When the JBSIS application receives a file with the Amend Code **1**, the system must already have original data in the repository for that JBSIS report for the designated report period. If the JBSIS application has not received original data for a given report, the amended data file will be rejected and the JBSIS contact person will be notified of the error. If the data repository has original data for a report period and the court sends a file with amended data, but forgets to change the Amend Code to **1**, the file will be rejected. The JBSIS application accepts only one set of original data values for production reporting, but accepts as many amended files as are necessary to correct the data values (as long as the Amend Code is always set to **1**).

**3. Creating Amended Files** Both original and amended files must be generated from a court's automated case management system. In other words, a court should not manually change case counts or events in an original extract file when attempting to amend the data. All files containing amended data are processed by the JBSIS system in the same manner as files containing the original data.

An amended data file completely overwrites the previously submitted data. A court must submit a file that includes values for all the data elements in a report with either their original or amended values. If a report file is submitted with zeroes in all data values except the amended values, the zero (**0**) entries will replace the original values in the database for that report. If any of the JBSIS case types are omitted from the report extract file, the file will not be processed.

**4. Amending Subsequent Reporting Months** When a court submits a file to amend data (for a given reporting month), it may be necessary for the court to amend data in subsequent reporting periods if the data corrections impact the Inventory data elements of those subsequent reporting months. For example, a court submits JBSIS Family Law data for July 2000. In October 2000, the court amends the

Beginning Pending or Filings data counts for a case type in the July 2000 file and submits an amended July 2000 data file. If the amended data impacts the Inventory counts (Beginning Pending, End Pending, or other data elements) in the files for the months following July 2000, the court should submit amended files containing corrected case counts for all subsequent reporting periods affected by the data changes.

5. Viewing Submitted Files Submitted extract files (original and amended files) can be reviewed on the JBSIS website. Original and amended production data are typically loaded to the data repository overnight and are available for viewing on the JBSIS website the next business day.

## Appendix D

### Compliance Testing

**Purpose of Chapter** This chapter outlines the JBSIS Compliance testing process. Compliance testing is a procedure for establishing a court's eligibility to submit JBSIS production reports that conform to the JBSIS standards for structure and content. Courts must successfully pass Compliance testing for each JBSIS report before being authorized to send electronic extract files directly to the JBSIS data repository. Information in this chapter is organized in the following sections:

1. Compliance Testing Overview
2. Resubmission for Compliance Testing

**1. Compliance Testing Overview** The JBSIS system is a fully automated environment requiring that all data files be processed by the JBSIS application without manual intervention. In order to maintain the highest level of data quality, it is imperative that data are loaded correctly into the JBSIS data repository.

Compliance testing was developed as a way to test this process of loading data from the courts into the JBSIS data repository. The step-by-step process for Compliance testing appears below. In essence, a court conducts an internal data quality check of its case management system (CMS), creates test extract files using actual case data, and then electronically submits these files to the AOC for review. The submitted JBSIS test files must conform to the formatting, layout, and data rules outlined in Appendix C, File Formats and File Layout, and Appendix B, JBSIS Data Rules. Each JBSIS report file is tested separately. A court is authorized to submit a particular JBSIS production report when the report's test file has passed a series of data validation tests without error. Once a court has been authorized to submit a particular JBSIS report, it may begin transmitting monthly electronic files of that report for production reporting, regardless of whether the court has demonstrated compliance for the remaining JBSIS reports.

To complete Compliance testing, courts should follow the six steps outlined below:

1. Notify JBSIS of the intent to begin testing
2. Designate a main contact person on the JBSIS website
3. Submit test files electronically
4. Review the test data
5. Correct errors and resubmit the file (if needed)
6. Inform JBSIS before submitting monthly production reports
7. Submitting monthly production reports

#### **Step One: Notify JBSIS**

Notify the JBSIS Administrator by e-mail ([admin@jbsis.courts.ca.gov](mailto:admin@jbsis.courts.ca.gov)) of the intent to begin sending test files for each JBSIS report. Indicate the type of report, the approximate date when testing will begin, and the manner in which test data will be sent (i.e., by FTP or e-mail attachment). This notification allows JBSIS staff to make preparations to receive reports and to provide additional information to court personnel responsible for reporting.

#### **Step Two: Designate a Main Contact**

The main contact person for a report can be designated by accessing the secure JBSIS website (<http://jbsis.courtinfo.ca.gov>) using a Serranus ID and password. From the 'Contacts' section, go the 'Contact List' option and add a main contact person. The same person may be designated as the main contact for all reports, or different main contacts may be indicated for individual reports.

Each report can have only one main contact, but additional contact names can be added. The main contact for a report is the person responsible for answering questions about the court's JBSIS report submissions. If the main contact cannot answer both technical and content questions, he/she should know where to refer identified questions.

The main contact and any additional contact persons will receive automated notices of the Compliance testing results indicating whether a file passed or failed testing. If the submitted test file fails Compliance testing the failure notification will include an error message(s) indicating the reason for failure. The main contact person designated by the court will also receive automated notices after the court begins production reporting.

### **Step Three: Submit Test Files Electronically**

Courts must submit separate test files for each JBSIS report, but more than one type of report file may be submitted at the same time. The JBSIS test files submitted for Compliance testing must contain live data (not fictitious test data). In other words, the data in the file must actually comprise a month's data from the court's automated case management system. These live data values help ensure that the validation tests are performed correctly.

Courts can transmit files via File Transfer Protocol (FTP) or electronic mail (e-mail). Arrangements for FTP submissions are made through the JBSIS Administrator at [admin@jbsis.courts.ca.gov](mailto:admin@jbsis.courts.ca.gov) or (415) 865-4634. Files submitted through e-mail are sent as attachments and addressed to [testfiles@jbsis.courts.ca.gov](mailto:testfiles@jbsis.courts.ca.gov).

The JBSIS application performs two levels of validation testing on submitted test files:

- Summary File Validation tests focus on whether the file conforms to formatting and general rules for the structure of JBSIS files. A list of summary tests is located on the JBSIS website under the References section.
- Aggregate File Validation tests examine the content relationship between data elements. One such test computes the sum of subordinate data elements and checks to insure that this sum correctly matches the value of the aggregate (or "parent") data element. Depending on the set of data elements, disagreement in an aggregate file validation test can result in either a rejection of the file and failure to pass Compliance testing or in completion of the validation test with a warning message alerting the court to the possible need for correction and resubmission of the file. A list of aggregate file validation tests can be obtained by contacting the JBSIS Administrator.

These validation tests confirm that JBSIS report files are formatted correctly and are internally consistent; however, the tests cannot determine the accuracy of the data values. Only the court can confirm that data values have been correctly entered into and captured by its case management system and that data have been accurately downloaded into the JBSIS report file.

An automated notice indicating rejection or passage of a test file should be returned to the designated main contact person 15-20 minutes after the file is submitted. If this automated notice is not received, the sender of the test file should contact the JBSIS Administrator using the contact information shown above.

### **Step Four: Review Test Data**

Reports submitted as test files they may be viewed on the JBSIS website by opening 'Reports' and selecting the 'Test Data Review' link. Once in 'Test Data Review,' a monthly court report can be selected using the available menu items and the results may be displayed as a web document or downloaded for printing in an Excel spreadsheet. Some of the data element rows in the monthly report will have blank cells: these are items computed by the JBSIS application when it posts the final production reports and are not available in the test review display.

The Review option is available to the courts as a means of checking the accuracy of their data and may be used during both Compliance testing and post-compliance tests of production data. For post-compliance testing, the files would be submitted in the same manner as compliance test files and these files would not be passed to the JBSIS data repository as production data. Final production data would be submitted separately.

The 'Test Data Review' function can be used repeatedly and will display the most recent version of a test file received for a specific court, report type and month. The JBSIS system requires about 30-60 minutes to process and post a test file for viewing. In contrast, production reports require overnight processing before being posted for viewing.

### **Step Five: Correct Errors and Resubmit for Testing**

If the test file fails to pass Compliance testing, the automated notices will usually indicate which test(s) failed and state where the error(s) occurred in processing the file. Occasionally, an error may occur too early in the process for the automated notification function to identify where a notice should be sent. If this occurs the error can be detected by JBSIS staff and efforts will be made to contact the sender of the test file. Excessive delays in receiving automatic notices are usually caused by these types of problems. There may also be one-of-a-kind errors for which the automated notification function will be unable to provide a detailed message. If this happens, the sender should contact the JBSIS Administrator for assistance.

Once the error(s) in a test file have been identified, the sender of the file should make the necessary correction(s) and resubmit the file. Test files can be processed as many times as are necessary to successfully pass compliance testing. Unlike production files, re-submissions of the same test file do not require processing as an amended file and the amend code should be left as '0' for all test files.

### **Step Six: Inform JBSIS Before Submitting Monthly Production Reports**

Once the court's report file has passed Compliance testing, the court is eligible to begin submitting production report files for that JBSIS report. Before production report files can be processed, the court must notify the JBSIS Administrator ([admin@jbsis.courts.ca.gov](mailto:admin@jbsis.courts.ca.gov)) of the intent to submit production reports and specify the month and year of the first production report file that will be submitted.

Courts are free to select a starting month that their case management system can support, including a past month in which manual legacy data was already submitted. For the sake of continuity with other reports in a fiscal year, July is a recommended starting month for most courts. There is no limit on the amount of time between successfully passing Compliance testing and notifying the JBSIS Administrator on when production reporting will start. Once a court notifies the JBSIS Administrator about the intent to submit production report files, these files will be due 30 days after the end of the reporting month.

### **Step Seven: Submitting Monthly Production Reports**

Once the court has notified the JBSIS Administrator of the intent to submit production reports and specified the month and year of the first production report file to be submitted, the court can submit production report files. Courts can transmit monthly production report files via electronic mail (e-mail) or File Transfer Protocol (FTP). Monthly production report files submitted through e-mail are sent as attachments to [files@jbsis.courts.ca.gov](mailto:files@jbsis.courts.ca.gov). Arrangements for FTP submissions can be made through the JBSIS Administrator at [admin@jbsis.courts.ca.gov](mailto:admin@jbsis.courts.ca.gov) or (415) 865-4634.

2. Resubmission for Compliance Testing There are three circumstances in which a court must begin a new round of Compliance testing of its data files (even after previously demonstrating compliance with JBSIS requirements).

- Changing file formats (e.g., from an ASC fixed-length format to an XML format)
- Adopting a new major version of JBSIS
- Installing a new case management system

If resubmission for Compliance testing is needed, JBSIS staff will work with the court to make the transition as smooth as possible.

## Appendix D

### Transmission Methods

Purpose of Chapter **This chapter outlines the various options and parameters for the electronic submission of extract files to the JBSIS system.** Information in this chapter is organized in the following sections:

1. File Transmission Methods
2. File Name
3. File Extension
4. Submitting Extract Files
5. Viewing Submitted Files
6. Data Sign-Off

1. File Transmission Methods Courts can submit data using one of the two methods listed below (in order of preference). Regardless of how the file is transmitted, it must conform to the specifications outlined in the previous chapters.

- **File Transfer Protocol (FTP)**

This is the preferred method of transmission. Contact the JBSIS Administrator at [admin@jbsis.courtinfo.ca.gov](mailto:admin@jbsis.courtinfo.ca.gov) for details on the FTP submission of JBSIS extract files for compliance testing and production reporting.

- **Electronic Mail Address (Email)**

This method of file transmission is used if a court cannot transmit files via FTP but can send attachments via Internet e-mail. The e-mail addresses for submitting JBSIS files for compliance testing and production reporting are located on the secure JBSIS Web site under 'Compliance Testing.'

Please review Appendix D – Compliance Testing for more information on the JBSIS compliance and production reporting procedures.

2. File Name The file names for extract data files submitted to JBSIS consist of the 7-character Court Identification Number and a 1-character alpha. Files sent with a non-standard Court Identification Number will be rejected by the JBSIS system. The 1-character alpha that follows the 7-character Court Identification Number is a lower case character from a to n used to indicate the type of report being submitted. A listing of these codes is shown in *Alpha Character Codes for JBSIS Report*, below.

For courts that wish to use free characters for their own purposes within a file name, there is an alternative file naming convention described in the 'References' section of the JBSIS web site.

3. File Extension The file extension for all files consists of a 2-digit month plus 1-digit year format (mmy). Consider the following example:

Court:	Alameda Superior Court
Court Identification Number:	S010000
JBSIS Report being submitted:	06a Family Law report
Reporting month:	April
Reporting year:	2004

The correct file name based on this example is: **S010000e.044**

## ALPHA CHARACTER CODES FOR JBSIS REPORTS

JBSIS Report Title	JBSIS Report Number		Alpha Character/Code
Appellate Court Appeals	04a	.....	a
Appellate Division Appeals	04b	.....	b
Civil Limited	05a	.....	c
Civil Unlimited	05b	.....	d
Family Law	06a	.....	e
Felony, part 1	07a	.....	f
Felony, part 2	07b	.....	g
Felony, part 3	07c	.....	h
Juvenile Delinquency	08a	.....	i
Juvenile Dependency	09a	.....	j
Mental Health	10a	.....	k
Misdemeanor/Infraction	11a	.....	l
Probate	12a	.....	m
Small Claims	13a	.....	n

4. **Submitting Extract Files** Extract files may be electronically submitted one at a time, in groups representing multiple time periods (i.e., months), or in groups containing more than one type of JBSIS report. The only restriction when submitting multiple extract files is that any group of original JBSIS “production” reports must contain a complete series of monthly time periods for each separate type of report module. If a file from one month in a series is missing, then all reports that follow that month will be rejected.

For instance, if the last report received for Alameda County (Court ID number S010000) was an 05a Civil Limited report for the month of November 2003, and the reports listed below were submitted in the order shown, the JBSIS loader application would accept the December and January reports, reject the March report (due to the absence of a February report), and reject the April report (because of missing March report).

<u>File Name</u>	<u>Reporting Month</u>	<u>Submission Status</u>
1.S010000c.014	(January 2004)	Accepted
2.S010000c.123	(December 2003)	Accepted
3.S010000c.034	(March 2004)	Rejected because no February report
4.S010000d.054	(April 2004)	Rejected because no March report

The time series requirement associated with the submission of multiple production report files does not apply to submissions for Compliance testing and is not relevant for amended JBSIS reports.

5. **Viewing Submitted Files** Submitted extract files (original and amended files) can be reviewed on the JBSIS web site. (Original and amended production data are typically loaded to the data repository overnight and are available for viewing on the JBSIS website the next business day.

6. **Data Sign-Off** It is the court’s responsibility to review the data submission to the JBSIS data repository. The receipt of a monthly data file from a court is considered an official sign-off on the data. A court is not required to send a separate notification verifying that an authorized court staff member has reviewed the file or that the file has been sent to the AOC.

## Appendix E

### Reporting Criminal Case Data Using the DOJ Offense Hierarchy

JBSIS requires the use of the California Department of Justice's (DOJ) Monthly Arrest and Citation Register (MACR) offense hierarchy to report aggregate monthly information for criminal cases. This system for JBSIS reporting was adopted in order to provide detail as to the types of felony and misdemeanor violations processed by the courts while avoiding the introduction of a new, non-standard classification for offenses. Court personnel responsible for reporting offense information to the DOJ system may already be aware of the over 2,000 hierarchy codes used in reporting felonies, misdemeanors and infractions specified by the California Penal Code and other statutory provisions. All courts reporting JBSIS data should use the JBSIS version of the DOJ codes provided by the Administrative Office of the Courts.

The JBSIS version also contains a separate file of DOJ codes that are not used for JBSIS reporting. The codes include charges that are either duplicative of JBSIS offense codes or are not chargeable California offenses for adult violations. They are included in the JBSIS version as a reference only and cannot be used for JBSIS reporting purposes.

The purpose of this section is to provide an overview of the hierarchy code listing provided by the AOC and to describe how these codes are used in submitting monthly reporting information. Part 1 is intended as a key to interpreting the DOJ hierarchy listing and contains a detailed discussion of the column content and the relationship of this information to JBSIS. Part 2 offers instructions with examples for the use of DOJ hierarchy codes in submitting required JBSIS data.

**Part 1: The Hierarchy Code Listing** The JBSIS version of the DOJ hierarchy listing consists of nine columns, labeled (a) through (i), containing a combination of statute-based offense information and various coding methods used in categorizing these offenses. Within each coding method, lower code values indicate higher levels of offense severity or seriousness. Not all offense codes for JBSIS are found in the DOJ listing; these additional JBSIS codes and their usage are discussed below. The DOJ offense listing provided by JBSIS contains the following information:

Column	Description
--------	-------------

- (a) Contains numeric values used in reporting offense information for Version 2.x of JBSIS. There are separate codes for felony and misdemeanor/infraction offenses. These codes correspond to offense case types shown in the table below:

Column	Description	Column	Description
<b>Case type</b>	<b>Felony</b>	<b>Case type</b>	<b>Misdemeanor/Infraction</b>
10	Homicide	210	Assault and battery
20	Forcible rape	220	Property offense
30	Kidnapping	230	Drug offense
40	Assault	240	Sex offense
50	Robbery	250	Other non-traffic misd./ordinance
60	Sex offense	260	DUI
70	Property offense	270	Other traffic misdemeanor
80	Drug offense	280	Vehicle Code 14601
90	Other felony	290	Traffic infraction/ordinance
100	Miscellaneous felony petition	300	Non-traffic infraction/ordinance
110	Reduced to misdemeanor	310	Parking appeals
120	Habeas corpus		

Column	Description
--------	-------------

- (b) Contains the DOJ hierarchy code. Based primarily on the the severity of the maximum possible sentence, these codes currently range from 1000 for treason, the most severe, to 179700 for acting as a dealer without a license, the least severe. In addition to the DOJ codes, there are two other categories of hierarchy codes required for JBSIS reporting: (1) non-DOJ codes, for actions that are not counted as DOJ criminal offenses; and (2) Interim codes, for newly enacted statutory offenses that have not been formally added to the DOJ listing. Both types of additional hierarchy codes and their corresponding JBSIS version 2.x codes are shown below:

Hierarchy Code	Offense Description	Ver. 2.x Code	Hierarchy Code	Offense Description	Ver. 2.x Code
<b>Interim Codes: Felony</b>			<b>Interim Codes: Misdemeanor/Infraction</b>		
999100	Homicide	10	999650	Assault and battery	210
999150	Forcible rape	20	999700	Property offense	220
999200	Kidnapping	30	999750	Drug offense	230
999250	Assault	40	999800	Sex offense	240
999300	Robbery	50	999850	Other non-traffic misd./inf.	250
999350	Sex offense	60	999900	Other DUI	260
999400	Property offense	70	999950	Other traffic misdemeanor	270
999450	Drug offense	80	999960	Other driving while license suspended	280
999500	Other felony	90			
<b>Non-DOJ Codes: Felony</b>			<b>Non-DOJ Codes: Misdemeanor/Infraction</b>		
999550	Miscellaneous felony petitions	100	999970	Traffic infract./ordinance	290
<i>Use misd. hierarchy code</i>	Reduced to a Misdemeanor	110	999980	Non-traffic infraction /ordinances	300
999600	Habeas corpus	120	999990	Parking appeals	310

- (c) Contains the offense level for each hierarchy code.
- (d & e) Provides the California code abbreviation and section for each offense.
- (f) Lists the offense descriptions.
- (g) Indicates the maximum or alternative sentencing range.
- (h) The summary codes categorize offenses into major types, such as homicide, kidnapping, and drug offenses. The two-digit code values range from 01 to 25, for felony offenses, and 29 to 76, for misdemeanors. The lower the number, the more serious the summary offense classification. Although summary codes are not used in reporting JBSIS data, they were used in deriving version 2.x case type codes. Summary codes are listed in the following table:

Sum. Code	Felony case types	Ver 2.x Code	Sum. Code	Misdemeanor case types	Ver 2.x Code
01	Homicide	10	29	Vehicular manslaughter	250
02	Manslaughter	90	30	Assault and battery	210
03	Manslaughter/Vehicle	90	31, 32	Petty theft, other theft	220
04	Forcible rape	20	33	Checks and access cards	220
05	Robbery	50	34, 35	Marijuana, dangerous drugs	230
06	Assault	40	36	Other drug law violations	230

Sum. Code	Felony case types	Ver 2.x Code	Sum. Code	Misdemeanor case types	Ver 2.x Code
07	Kidnapping	30	37	Indecent exposure	240
07	Kidnapping	30	37	Indecent exposure	240
07	Kidnapping	30	37	Indecent exposure	240
08	Burglary	70	38, 39	Annoying child, obscene matter	240
09	Theft	70	40, 41	Lewd conduct, prostitution	240
10	Motor vehicle theft	70	42	Contribute to delinq. of a minor	250
11	Forgery, checks, access cards	70	43, 44	Drunk, liquor laws	250
12	Narcotics	80	45, 46	Disorderly conduct	250
13	Marijuana	80	47, 48	Vandalism, malicious mischief	250
14	Dangerous drugs	80	49	Trespassing	250
15	Other drug law violations	80	50	Weapons	250
16	Lewd or lascivious	60	51	DUI	260
17	Unlawful sexual intercourse	60	52	Hit and run	270
18	Other sex law violations	60	53	Traffic misdemeanors	270
19	Weapons	90	54	Joy riding	270
20	Drive under the influence	90	55, 56	Gambling, nonsupport	250
21	Hit and run	90	57	Glue sniffing	230
22	Escape	90	59	Fail to appear/non-traffic	250
23	Bookmaking	90	60-64	Public nuisance, bribery, arson, and all other misdemeanors	250
24	Arson	90	74	Misc. traffic	270
25	Felony traffic, other felonies	90	76	Burglary (misdemeanor)	220

Column	Description
--------	-------------

- (i) Lists the Bureau of Criminal Statistics (BCS) code. The BCS codes are similar to the summary codes, but categorize offenses into more narrowly defined groups. The three-digit codes do not distinguish between felony and misdemeanor offenses but, as with these other coding systems, the lower the value the more serious the summary offense category. The BCS code is not used by JBSIS but has been included in the list for use by the courts.

Part 2: Instructions JBSIS criminal information is reported as aggregate data based on the DOJ hierarchy. Each case is retained in the court’s case management system with charge information that is associated with a hierarchy code. For felony and misdemeanor/infraction reports, JBSIS receives data showing the number of cases by case type. The decision to use a specific case type in reporting a particular criminal case depends on whether the case remains open or whether the case has been disposed. In both instances the DOJ hierarchy codes may be used to select among multiple charges in the same case. The following illustrates how DOJ hierarchy information is used in classifying individual criminal cases for monthly reports.

**Reporting Open Cases: Filings, age of pending cases, and case events** The goal is to report a case according to the most severe charge, a procedure consistent with the California DOJ methodology for classifying arrests.

1. For single charge cases, use the case type from column (a) associated with the offense.
2. When there are multiple charges, determine the DOJ hierarchy code for all charges and use the case type code associated with the lowest (i.e., most severe) hierarchy value.

3. As, excluding the interim codes, there is one or two instances where the hierarchy code on a misdemeanor charge ranks higher in severity than a felony charge, the determination of case type could be done as follows: a felony case has two or more undisposed charges, one of which has an interim felony case hierarchy code: determine the case type based on the highest undisposed felony charge; do not include the undisposed misdemeanor charge hierarchy in determining the case type. Additionally, in the instance where one of the felony charges has an interim hierarchy code, compare the associated case type codes so that the most severe offense is counted.

Examples:

A misdemeanor case is pending on July 1, 2000, and the most severe pending charge is VC 23152(a), driving under the influence. The hierarchy code is 101400; the case type code reported is 260.

A defendant is charged with two felonies, PC 278.5(a), depriving the custody right of another, and PC 417(c), exhibiting a firearm in the presence of a police officer. The case would be reported with a case type 40, because PC 417(c) has a hierarchy value of 41500 and PC 278.5(a) has a value of 66300. PC 417(c) is the more severe charge. If the PC 278.5(a) charge were the only charge on the case, it would be reported with a case type code of 30.

A defendant is charged, a homicide (interim hierarchy = 999100, case type = 10) and a drug offense (hierarchy = 176543, case type = 80). Using the hierarchy code would lead to the case being classified as a drug offense, but using the case type would classify it as a homicide, which is the more accurate classification.

**Reporting Closed Cases: Dispositions, age of disposed cases, and case events** The goal is to report the case according to the most serious disposition. Seriousness of a disposition is determined by the order in which dispositions are listed on JBSIS felony or misdemeanor reports. The disposition listed first is the least serious and the last listed is the most serious. For example, the least serious Felony (Part 3) disposition would be Change of Venue before preliminary hearing; the most serious would be Sentenced/jury verdict of guilt after court trial.

1. For single charge cases (and therefore only one disposition) use the case type code, column (a), associated with the offense.
2. When there are multiple charges, determining the case type code depends upon the relationship between dispositions and charges. To determine the appropriate case type code:
  - a. Compare the dispositions on all the charges and select the charge or charges with the most serious disposition (see the ascending order of dispositions in JBSIS felony and misdemeanor reports to determine seriousness).
  - b. If there is only one charge with the most serious disposition, use the associated case type code found in column (a) of the DOJ listing.
  - c. If there are multiple charges with each having the same most serious disposition, compare the hierarchy codes of all such charges and use the case type code in column (a) of the charge with the lowest hierarchy value.
  - d. As, excluding the interim codes, there is one or two instances where the hierarchy code on a misdemeanor charge ranks higher in severity than a felony charge, the determination of case type could be done as follows: a felony case has two or more undisposed charges, one of which has an interim felony case hierarchy code: determine the case type based on the highest undisposed felony charge; do not include the undisposed misdemeanor charge hierarchy in determining the case type. Additionally, in the instance where one of the felony charges has an interim hierarchy code, compare the associated case type codes so that the most severe offense is counted.

Example:

A defendant is disposed on two charges: PC 209(a), kidnapping for ransom, with a hierarchy code of 2000; and PC 261, rape, with a hierarchy of 5400. If the charges were disposed in the same manner, for example a sentence following conviction by jury, the offenses must be compared. The disposition would be reported using case type code 30, which indicates the more severe kidnapping offense, PC209 (a).

If the defendant was convicted on only one charge, for example, rape, and the other charge, kidnapping, was dismissed, the disposition would be reported with case type code 20. While the kidnapping charge has the more severe offense hierarchy code, it resulted in a less serious disposition (i.e., dismissal).

A defendant is convicted of two charges, a homicide (interim hierarchy = 999100, case type = 10) and a drug offense (hierarchy = 176543, case type = 80). Using the hierarchy code would lead to the case being classified as a drug offense, but using the case type would classify it as a homicide, which is the more accurate classification.

## Appendix F

### Sample Extract Files

**Overview** Each of the file formats outlined in Appendix C, are presented here for illustrative purposes only. See Appendix C for information on file layout and Appendix B for rules governing the data element values. The record layouts in the individual JBSIS report chapters indicate the sequence order of the data elements. A complete list of tags for the eXtensible Markup Language format are located on the JBSIS Web site under the 'References' section.

**Content** The file parameters and common data elements used for the three types of sample file formats are shown below. The parameters for each file represent a Family Law (06a) version 2.0 report for January, 1999, submitted by a fictitious court represented by the court identification number S999000.

Sample files in this section are included only to provide readers with the expected format for the file and not as a demonstration of possible data values, e.g., the control sum data element does not reflect an accurate sum of the data elements in sample file.

Parameters	ASC	CSV	XML
Unified Court	S9990000	S9990000	S9990000
File Content	06a Family Law	06a Family Law	06a Family Law
JBSIS Version	2.0	2.0	2.0
File Handler	<?ASC>	<?CSV>	<?XML
As of Date	January 1999	January 1999	January 1999
File Name/Extension	S999000a.019	S999000a.019	S999000a.019

Data Element	ASC	CSV	XML
Court Id Number	S999000	S999000	S999000
Amend Code	000000	0	0
Data as of date	01311999	01311999	01311999
Major Doc Number	00000002	2	2
Minor Doc Number	00000000	0	0
Run Date	02021999	02021999	02021999
Run Time	003000	003000	003000
Control Sums	4808	14400	38800

**ASC and CVS Sample Files** The sample ASC and CSV file formats reflect every data element for every case type in the Family Law report. The data records for these files are always prefaced by the JBSIS Report Code, Court ID, As of Date (last date of the reporting month), and a six-character code that corresponds to a case type within the JBSIS report (for more information on this record "key" see Appendix C, File Layout). The rest of the data record includes the data element values for that case type. A binary CR LF (carriage return line feed) is imbedded at the end of each record.

**XML Sample File** The sample XML file format reflects all of the data elements in the Family Law report, but is limited to the first three case types. However, a sufficient number of case types is included to provide the expected structure of the file.

The root elements tags in the XML file, <JBSIS06aV2> and </JBSIS06aV2>, bracket the entire file and denote the type of report being processed (see Chapter 5, for information on the XML root element). Next follows the header elements. This is followed by record tags, <CASE\_TYPE\_CODE> and </CASE\_TYPE\_CODE>, that bracket each record, which contains all the family law data elements. The sample XML file illustrates the tag sets between <CASE\_TYPE\_CODE> and </CASE\_TYPE\_CODE> as being indented. This is done only to assist the reader in identifying where one record starts and the next continues. The trailer data elements appear separately after the last case type record. Only the root element and control sum tags in the trailer are mixed case; all other tags follow the upper-case convention. An embedded CR LF after each tag set will aid in the visual inspection of the files, but sequential files are also acceptable for processing.

Please note that whichever file format is used, all case types in a JBSIS report must be submitted even if the data elements have zero case counts for the reporting period.
