

Improved Online Access to Traffic Tickets

Effective immediately, members of the public may look up a traffic ticket by name and date of birth or driver's license number. In addition, tickets may be searched by company name. Previously, searches could be conducted only with a docket or citation number and court location. Click [here](#) for online access to traffic tickets.

In addition, all tickets in the system may be viewed online now, regardless of whether the ticket is webpay-eligible. Previously, information was available online only for tickets that were webpay-eligible.
